A LIST OF THE MANUSCRIPTS USED IN COMPLETING THE FOREGOING NOTES.

1782. Hutchins, T. Observations on Hudson's Bay, 651 pp.; pp. 45-180 treats of birds.
An interesting unpublished manuscript volume in the library of the Hudson's Bay Company at London, with marginal annotations by Pennant. The author was for twenty-five years in the employ of the Hudson's Bay Company. There is no date or title page to the volume, but the last date mentioned is July 10, 1782, and it seems safe to conclude that it was issued about this date, from the fact that Pennant, in his second volume of Arctic Zoölogy (p. 222), published in 1785, refers to Mr. Hutchins's manuscript as though it had just reached him in a complete state.
