SHAUGHNESSY PROUD OF C. P. R. STOCK PREMIUM

MONTREAL, March 16 .- Sir Thomas Shaughnessy, president of the C. P. R., makes the statement that for every \$100 share of the company's outstanding common stock there has been paid into the treasury of the company \$112.25 cash. In view of the large discount at which it was necessary to sell the origins \$65,000,000 common stock upwards of thirty years ago, when the railway was in course of construction, the showing is remarkable and almost unique in the history of the railways in the world in the opinion of Sir Thomas.

ment of two of London's best known physicians, the much-maligned eigaret is no more harmful to the human anatomy than any other form of the "noxious weed."

Said one of them today: "Except in so far as the cigaret may be a temptation to children, it is no more harmful than other forms of tobacco. In regard to the temptation, I mean that a child might try to smoke a cigaret where it would not tackle a cigar. I have seen more mischief done by the pipe than the cigaret. My opinion is borne out by The Lancet, the leading English medical journal. There is a good deal of humbug about this
