

Nervous system—continued.

- peripheral,
 - cranial nerves, 39
 - I. olfactory, 186
 - II. optic, 167, 188
 - III. oculomotor, 169, 188
 - IV. trochlear, 169, 189
 - V. trigeminal, 162, 169, 170, 189
 - VI. abducent, 169, 190
 - VII. facial, 157, 170, 190
 - VIII. acoustic, 190
 - IX. glossopharyngeal, 183, 164, 190
 - X. vagus, 119, 160, 164, 174, 190
 - XI. accessory, 1, 190
 - XII. hypoglossal, 160, 163, 164, 180
 - spinal nerves, composition of, 38
 - cervical, 135, 138
 - lumbar, sacral, 144, 154
 - thoracic, 178
 - plexuses of, brachial, cervical, 138; lumbosacral, 144, 154
 - sympathetic system, 38
 - ganglia, cardiac, 117; mesenteric, inferior, 128; superior, 117; of head, 170, see trunks
 - plexuses, abdominal, 118, 126
 - cardiac, 175
 - trunks, cervical, 180, 164; lumbar, sacral, 134; thoracic, 178
- Nervous tissues, 21
- Nose, apertures of, external, 111; piriform, 83, 84
 - internal, 83, 184
 - cavity of, 43, 83, 82, 183
- Notochord, in chordates, 8; in rabbit, 28, 30
- Ochelonitidæ, 7
- Oesophagus, 41, 164, 178
- Olfactory brain, 34, 186
 - epithelium, 11
- Omenta, greater, 117
- Ontogeny, 4
- Orbicular muscles, 20
- Orbit, 75; structures of, 186
- Organs, definition of, 8
 - relative development of, 5
 - visceral, 49
- Organ systems, see Systems.
- Origin of muscles, 20
- Ossicles of ear, 77, 90
- Osteocranium, 31
- Osteology of rabbit, 88
- Ovary, 131; position of, 49
- Oviduct, 47, 131
- Ovum, 8
- Palate, 42, 165
- Pancreas, 11, 118, 122
- Parotid gland, 11, 157
- Pectoral girdle, 98
- Pelvic girdle, 103
- Penis, 111; structure of, 129
- Pericardium, 49, 175
- Perichondrium, 18
- Periosteum, 11
- Peritoneal cavity, 50, 116
- Peritoneum, general relations of, 50; parietal, 116; visceral, 116
 - of bladder, 128
 - of intestines, 116, 122, 123, 124, 125
 - of kidney, 127
 - of liver, 120
 - of ovary, 131
 - of stomach, 117
 - of testis, 123
- Phalanges, digital, of hand, 103, 112; of foot, 109, 112

- Pharynx, 43, 164
- Phylogeny, 4
- Physiological aspect of structure, 4
- Physiology, 3
- Pia mater, 184
- Pigmentation of skin, etc., 13
- Pineal body, 36, 186
- Pituitary body, 35, 186
- Placenta, 7
- Placental mammals, 7
- Planes of body, 33
- Plantigrade foot, 7, 23
- Pleura, pleural cavity, 49, 177
- Plexuses, of spinal nerves, brachial, 138
 - cervical 138; lumbosacral, 144, 164
 - of sympathetic nerves, abdominal aortic, 126; cardiac, 175; celiac, 118, hypogastric, 126; mesenteric, inferior, 126; superior, 118; renal, spermatic, 126
- Pons, 38, 189
- Popliteal fossa, 112
- Portal system, hepatic, 45, see Portal Vein. renal, 45
- Portal vein, 119, 121
- Posture of body, in man, 24
 - in quadrupeds, 23, 24
- Prevertebral ganglia, 38
- Pronation, 33
- Prone position of body, 22
- Prosencephalon, 34, 186
- Prostate, 131
- Protozoa, cells of, 8
- Pubis, 105
- Pulmonary artery, 176; circulation, 43
- Quadriceps muscles, 20
- Rabbit, races of, 6
- Railus, 101
- Rami communicantes, 36, 184
- Recapitulation, law of, 4
- Rectum, 123
- Reduced organs, 5
- Regional sections, 61
- Renal portal system, 45
- Replacing bones, 15
- Reproduction in Protozoa, 9
- Reproductive organs, 46
 - female, 131
 - male, 128
- Respiration, branchial, pulmonary, 44
 - relation of ribs to, 74; diaphragm, 179
- Respiratory system, 43
 - accessory respiratory tracts, see Nose.
 - lungs, 177
 - respiratory tracts, 160, 177
- Retrogressive organs, 5
- Rhombencephalon, 34, 36, 186
- Ribs, 73
- Rodents, characters of, 7
- Roots of spinal nerves, 38, 184
- Sacculus rotundus, 122
- Sacral vertebrae, 72
- Sacrum, 72
- Scapula, 88
- Scrotum, 111, 128
- Sebaceous glands, 11
- Sections, regional, 51
- Segmentation of body, 27
- Seminal vesicle, 130
- Sense organs, special, capsules of, 31
 - epithelium of, 11
 - See Ear, Eye, Nose.
- Sensory epithelia, 11
 - hairs, 10, 110
 - nerves, 22
- Septum of nose, 83
 - of thorax, 175
