the same place and is another cousin, he, too, says that he works on the wagon. At this store there was found a genuine stock of fruit.

Giro, the murderer, is now known to have been arrested some three years ago for stabbing a woman named Adams. He fled after the stabbing, but returned later, when he was taken into custody, but the woman refused to appear against him.

His story that he was in St. Louis leaving Toronto is corroborated by the finding on him of an envelope issued by a railway company of that place. It is evidently the one in which his ticket back to Toronto was placed. He had been receiving mail addressed to him from an address in Akron, O.

What next? Here's Billy Maclean talking about bears and makin' the people think he knows all about bears. The day before it was hogs and hens, and before that sheep and horses, and by gosh, he does seem to know about them, too. Then public ownership, then maple syrup and mushrooms, and another time it'll be about the standards of the Methodist Church, how to run the railroads, and how democracy is to rule in England. He has a B. Smith and Tommy Williams that come down from Markham is about running the hul snow down there to Toronto. I wouldn't be surprised if he got in for South York again by application. At all events, he'll apply for the job.

Illegitimate Woman Arrested.

Mrs. Mary Fox, 22 years, who lives at 1111 Bloor street, was arrested yesterday in the Eaton store charged with theft of five rings, four brooches, a bracelet, a handbag, a bottle of perfume, and several other small articles. She had her baby in her arms at the time.

SUMMER MONTHS FATAL TO SMALL CHILDREN

The summer months are the hardest of the year on small children. Indigestion, diarrhoea, dysentery, and stomach troubles are all common at this time and many a precious life is snuffed out after only a few hours' illness. As a safeguard mothers should keep Baby's Own Tablets in the house. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes on suddenly will bring the little one thru safely. Mrs. Larry DeGrace, Mizqueto, N. B., writes: "Last summer my baby suffered greatly from her stomach and bowels and nothing helped her till I began giving her Baby's Own Tablets. They regulated her bowels, sweetened her stomach, and now she is a big, healthy, happy child. The Tablets are sold by medicine dealers or by mail at 25 cents a box. From The Dr. Williams Medicine Company, Brockville, Ont."

## LABOR CANDIDATES

FEDERAL ELECTIONS

Trades and Labor Council After

Warm Debate Decides to

Stick to Civic Affairs.

No labor candidates will contest

Toronto seats in the coming Dominion elec-

tions. The District Trades and Labor

Council came to this decision last night

at a special meeting in the Labor Temple,

when motions, amendments and counter-

motions were buried at the chairman's

head in such rapid succession that he al-

most gave up in despair. N. F. Williams

was the presiding officer.

"I don't think a chairman ever had to

deal with such technicalities as I have

had to-night," said he at the close of the

meeting. He said he was to-night, a

journey of four miles, expecting to see

something accomplished, and I must say

that I don't think you have done credit

to the labor organizations."

The meeting was called to discuss the

advantages of issuing to the local unions

2,000 copies of the legislative committee's

manifesto, which was passed at the last

meeting of the council. The discussion

was proceeding towards this end, when

the motion was made to make the number of copies 500.

Then the fun began. Some of the dele-

gates were in favor of Mr. Bancroft's

motion on the ground that one copy

would be sent to each individual member of the local.

Delegate McCann, however, moved for

the issuing of 200 copies, and this was

finally carried.

The delegates were in the field

of the opinion that it was too late to en-

ter candidates in the coming federal elec-

tions, but that their efforts should be

directed towards the municipal campaign

next January.

The motion was carried to a parliamentary

contest this fall it won't be in the interests

of the City of Toronto," said L. H. San-

deron.

"Are we prepared to put up \$20 for

every candidate that enters the field

consider it in any shape or form,"

asked H. Gibbons, who was in the chair.

"It was a work of propaganda and

would prepare the ground for municipal

elections."

The annual part of the evening's pro-

gram arrived when, after the resolution

to issue 200 copies for Montreal and

the meeting arranged to reconsider the

## Weather is More

Favorable for Crops

WINNIPEG, Aug. 11.—The

weather seems to have taken a

turn for the better, judging

from the weather map to-day,

which showed that Edmonton

was the only place where a

large rainfall had taken place.

At Battleford, too, there had

been a heavy shower. Tempera-

tures were decidedly higher,

Kamloops being the coldest,

with a mean temperature of 35.

Other temperatures were about

47 and 48 for the low points,

while the high was about 72

and 73. Temperatures like these

or perhaps a little warmer

what is needed to bring a bumper

crop into reality.
