Heavy Selling in Wheat Market Prices Still on Down Grade

Chicago Exchange in Semi-demoralized Condition, With Continued Liquidation in Evidence—Corn and Oats Firmer.

CHICAGO, Dec. 7.—After wavering between strength and weakness, the wheat market to-day was steadied by covering to anticipate a possible surprise in the government crop report, due just at the closing minute of the session. The surprise came all right,—an official estimate that the United States has planted 2,272,000 acres less winter wheat than a year ago.

Traders generally expected that report would show the acreage to be about the same as last year. The figures, tho, arrived too late to have a direct effect in the pit. Last transactions were 1-4c to 3-4c to 7-8c under last night. Corn finished 1-8c to 1-4c to 3-8c up, oats with a gain of 1-4c to 3-8c and provisions unchanged or varying to 5c to 7 1-2c advance.

High Average Condition.

The government report as to wheat was not altogether one-sided. In regard to the condition of the crop, the document put the percentage high, 86.6 against 82.5 last year. This estimate, however, like that referring to the acreage, was not received in time to be used as a basis for making trades. What did affect prices was first a rain forecast for Argentina and then statements that a leading handler of cash wheat here was unloading.

Rain, with more promised, helped to keep corn firm. Every movement, however, prevented much advance. Cash grades were not in much demand.

There was an improved eastern demand for oats. Besides, local speculators bought freely, owing to the strength of corn.

Northwest Receipts.

Receipts of wheat in cars at primary centres were as follows:

	To-day.	ago.	Week ago.	Year ago.
Chicago	17	...	15	...
Duluth	43	...	47	...
Minneapolis	453	...	240	...

Holiday a week ago.

European Markets.

The Liverpool market closed to-day unchanged to ½d lower on wheat, and ¾d higher on corn. Antwerp closed unchanged to ¼c higher on wheat, Berlin ½c lower, Buda Pest ¼c higher.

Winnipeg Inspection.

Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 192 cars; No. 2 northern, 74; No. 3 northern, 136; No. 4 northern, 100; No. 5 northern, 74; No. 6 northern, 84; feed, 79; rejected, 38; no grade, 47; winter, 31; oats 153, barley 152, and flax 34.

Argentine Estimates.

The weekly Argentine estimates follow:

Liverpool Wheat Market.

LIVERPOOL, Dec. 7.—The weakness of American cables yesterday was offset here by the closing strength in Buenos Ayres and prices were higher. Following the opening there was rather free realizing, and prices declined on the freer Argentine shippers, offers of which are increasing, and a quiet demand for cargoes and parcels, and the forecast of favorable weather in Argentine to-day. Just before midday the market again became steadier with shorts covering on the Victorian official report and an improved demand for spot. Market closed unchanged to ½d below last night.

High Cost of Living.

CHICAGO, Dec. 7.—When the price of fancy creamery butter advanced yesterday to 37c a pound wholesale, the highest mark for this season of the year was reached since 1888, according to old-time dealers.

Housewives were compelled to pay 45c to 50c a pound for table butter. The high price was blamed by dealers on the cows. They said there was a decidedly light yield of milk.

Why Farmers Are Poor.

WASHINGTON, Dec. 7.—The secretary of agriculture reports estimated values of 1911 farm products as $8,417,000,000 or $377,000,000 less than in 1910; declares there is great crop abundance for all purposes; value of crops $5,504,000,000 or $44,000,000 more than in 1910.

MONTREAL GRAIN PRICES

Old Country Bids on Lower Basis—Butter in Good Demand.

MONTREAL, Dec. 7.—A good business continues to be done in all grades of Manitoba spring wheat over the cable, there being a good demand from the continent at steady prices, but the bids from the United Kingdom were easier and 1½d per quarter lower. CHICAGO GOSSIP

Bearish News Still in Evidence—Further Break in Wheat Prices

J. P. Bickell received the following from Logan & Bryan:

Wheat.—Action in wheat to-day was somewhat remarkable. There was little move to buy December wheat at the outset, and that month proved quite congested with a sharp upturn in prices. Scarcely were the highest prices established when heavy and persistent selling of May wheat was noticed by the trade. The heaviest selling was confined to two or three wire houses and one house in particular was credited with selling about a million bushels on the sharp decline, which followed. It will take some thing important in the way of bullish news to create fresh support in this market.

Erickson Perkins & Co. (J. G. Beaty) wired the following:

Wheat.—The northwest continued to send very bearish news and speculative longs tired of their holdings, while short sellers continued their aggressive methods. Southwestern markets held firmer than our own. The break in prices here did not seem to result in any improvement in the cash demand. The situation continued a heavy one, but the market is apt to become oversold on sharp breaks like those of to-day, hence we would advise caution in selling short.

Corn.—The weather map showed higher temperatures and cloudy conditions over a good part of the belt. Prices held very firm, particularly in view of the weakness in wheat. The market continues to pay no attention to the country's attitude regarding selling, and we are inclined to look for a market of a trading character for the time being without important prices changes.

Oats.—Prices ruled very steady with comparatively little selling pressure. Sample lots were unchanged in price and the market from a speculative standpoint remains featureless.

STICKY CATTLE TRADE MEDIUM CLASSES LOWER

Week's Swelling of Supply Has Exerted Adverse Influence On Prices.

The railways reported 94 car loads of live stock at the city yards, 1054 cattle, 3248 hogs, 1132 sheep and lambs, 55 calves and 10 horses.

There were too many of the medium quality cattle on sale, and this class sold at lower prices, at least the cattle selling from $5.15 to $5.50. These were reported to have suffered from 15c to 25c per cwt., and some dealers reported even more than these figures.

Trade was slow and draggy and the market closed with several lots unsold.

Butchers.

Prime quality cattle sold from $5.75 to $6.05, but there were few of them; good, $5.40 to $5.60; medium, $5.15 to $5.50; common to medium, $4.50 to $5; inferior to common, $3.50 to $4.25; cows, $3 to $5; bulls, $2.50 to $5.50.

Feeders and Stockers.
