"It is most probable that dolls have existed in all times and in all countries," declared Mr. Lovett. "They have been found in the tombs of Greek, Roman and Egyptian children, and some in my possession are at least 3000 years old."

Government Preparing to Throw Open Rainy River Reserves. The Dominion government has practically completed arrangements for the sale to settlers of several Indian reserves on the Rainy River between Fort Frances and the Town of Rainy River, comprising 50,000 acres. The reserves are in a good agricultural district, and while a considerable

number of red men reside on them, they have been a drawback to set-tlement in that territory. The Indians are not anxious to move but the authorities have equally good lands for them further to the north, and no difficulty on that score is anticipated. The negotiations were opened by the provincial government, and it is expected that details will be com-
