Company Agrees to Refer Whole Matter to Hydro-Power Commission While Various Interested Parties Deplore the Recent Excitement as Uncalled For-

Cobourg, Sept. 10 .- (Staff Special.) --The perplexities of the Northumberland-Durham Power Co. were thrashed out at a meeting of the directors here to-day when a deputation from the Village of Brighton was heard. The whole trouble appears to have arisen out of misunderstandings and

At the meeting there were present: Sam Nesbitt, Brighton; Dr. Hender-Col. Floyd, Mayor Ewing, R. J. Craig.

The meeting was specially called to hear the deputation, which had been requested to attend from Brighton.

Misrepresented.

Dr. Stinson spoke for an hour, and presented the resolution passed by the Brighton council on Friday last.
He stated to The World that the press has misrepresented the whole situation, and declared that The Globe had no right to make the partisan use which it did of the communication sent from Brighton.

The resolution affirmed the confidence of the Brighton council in President Nesbitt. They had had information that the company intended to run their transmission line across country, leaving Brighton to one side, and on this account went to the hydroelectric commission.

Dr. Stinson claimed that they were quite misrepresented in regard to Col. Floyd, Mayor Ewing, R. J. Craig,

and with proxies representing a majority of the stock, terminated with a resolution that "under the act and our lease of Healey Falls from the Ontario government, we are compelled to refer the matter to the hydro-electric commission." GALT TO CONSIDER OFFER

Ald. Fryer Has Secured a Price of \$97,000 for Present Outfit-Subscription for 2500 h.p. From Niagara Also Forwarded to Commission.

Galt, Sept. 10.-(Special.)-An interesting phase of the power question was presented at the meeting of council to-night by Ald. Fryer on the correspondence between him in his individual capacity, and the Galt Gas Light Co., represented by R. O. Mc-Cullough. Ald. Fryer made request for figures on which the company would sell out en bloc or in part; that is, their plant and the waterpower connected with it. Mr. McCullough replied, saying the company would take \$97,000 for the whole elec-

The property of the whole electric outfit, not including the gas plant, or would be willing to sell the plant and lease the power, the latter proposal not having yet been considered by the company.

In accordance with his promise if an offer of any reasonable kind was made to bring this question of public ownership before the council, Ald. Fryer handed in the correspondence.

It was 10.30 p.m. before a motion to get an estimate of Niagara power was offered. Ald. Fryer proposed that 2500 horse-power be applied for, which would not include town service other than the waterworks. He said the Galt, Preston and Hespeler board would probably take 700 horse-power delivered at Galt. In view of the probability of Niagara power coming, the town might join with Preston and Hespeler in using the Galt station as a centre for distribution.

It was carefully planned beforehand, the soldiers warning all of the Christian population in advance to hang out their ikons so that they might remain undisturbed.

Saturday night some terrorists killed two soldiers, and thereupon the Libau regiment broke forth in unrestrained fury. They began murdering Jews on every hand and continued to work slaughter all Saturday night and all day Sunday.
