PRODUCE MARKET.

TORONTO.
Toronto, Sept. 30.—Supply of grain is still very small, and trading in consequence shows little improvement. There is more barley being marketed. In fact, barley is the only grain on the list to be offered in any important quantity as yet. Farmers in most cases are holding back their wheat and oats. Barley is quoted from 65¢ to 70¢, according to the quality, the top figure being offered for grain grading No. 1. Prospects for the barley crop favor a yield a little less than

LAKE ONTARIO SWEEP BY A FURIOUS STORM

Very Few Passenger Boats Dared to Start Out on Saturday.

Toronto, Sept. 30.—The big storm of Saturday gave local shipping one of the harshest experiences of the season. Very few of the passenger boats ventured out on the lake, the Toronto sailed for Montreal in the afternoon and the Macassa made a make her usual trip here from Hamilton. The latter boat had a very hard experience and the few passengers who made the trip had an exciting and uncomfortable time. The seas were running to a tremendous height off Burlington Beach.

Capt. Wigle left Port Dalhousie with the Lakeside in the morning at 8 o'clock, but after battling outside with the wind and sea, he was forced to put back, both ship and cargo having received a severe lurching about.

The Corona did not leave port at all on Saturday, and the Niagara was also tied up at Hamilton all day. In the morning the big iron Kipp roller boat broke her moorings at Port Hope and drove up the bay before the wind. She brushed along by the Dundas, the VanAllen and the Corona at their piers and finally drove, head-on, into the Turbina, bending several plates, smashing the windows and straining some of the woodwork of the cabins. The roller boat was finally removed by the crew of the Turbina and fastened at the dock stern of the latter ship.

MR. BORDEN AT NELSON

Talks About the Transcontinental Railway and "Better Terms."

Nelson, B. C., Sept. 30.—The Opera House was filled on Saturday night, when Mr. R. L. Borden, M.P., made his address. Premier McBride, J. G. H. Bergeron, M.P., and Dr. Reid, M.P., Prescott, were the other speakers. Large deputations arrived from Kamloops, Kelso, the Boundary country, East Kootenay and neighboring districts, and Mr. Borden and his party were accorded a warm reception.

Mr. McBride, who spoke first, dealt with the question of better terms at length, making it clear that it would be the party slogan in the next campaign. The Premier repeated the statements recently made by him at the coast regarding Asiatic immigration.

Mr. Borden praised Mr. McBride for his strong stand for better terms, and approved of his withdrawal from the Ottawa conference. He promised an inquiry into British Columbia's situation if returned to power. The speaker repeated his statement, made at the coast, regarding the position of the Conservative party on the Transcontinental Railway construction, declaring that Government ownership would have been the proper course to be adhered to. Referring to the matter of Asiatic immigration, Mr. Borden blamed the Government for entering into the Heald treaty without limitations. He said that treaty obligations would have to be respected, but the immigration of Asiatics should be restricted as at first agreed to.

Mr. Bergeron made a witty speech.

SIGNORA TOGELLI REACHES FLORENCE

The King of Saxony Anxious to Get His Child Away From Her.

Florence, Italy, Sept. 28.—Signora Tozelli, the ex-Crown Prince of Saxony, arrived today with the little Princess Monica Pia. The parents of Signor Tozelli greeted the couple at the railroad station, and the party left the City for Fiesole, near Florence.

A Saxon commissary of police, and a number of Saxon detectives have arrived here for the purpose of obtaining possession of Princess Monica Pia, the youngest daughter of Mme. Tozelli. Working with the Italian police, they are making a minute investigation into the conduct of Mme. Tozelli during her stay here, when she was Countess Montignoso.

M. and Mme. Tozelli, who are said to have passed through Turin, probably will go to Mme. Tozelli's villa near here, as all her personal effects are there. Many newspapers are posted around the villa to report the movements of the pair.

A Geneva telegram says: Agents of the King of Saxony are swarming on the Italian frontier, watching closely every traveler by train or by boat, and inquiring constantly regarding the whereabouts of Princess Monica Pia, who is the youngest daughter of the divorced wife of the King.

SARAH BERNHARDT IN HER NEW ROLE

The Great Actress as Author Has Written the Story of Her Life.

London, Sept. 30.—Mme. Sarah Bernhardt will appear in a new role shortly—that of an authoress, for she has written the story of her life, and William Heinemann will publish it next month.

The title of her book is "My Double Life," which, it may be explained, does not mean that the great actress has been guilty of duplicity in character, but that besides being an actress she has a very interesting private life, and she takes her readers into her confidence with regard to her life both on and off the stage.

For several years she has been engaged in writing her book, which will be fully illustrated in colors and black and white. In it she tells the full story of her beginning at the Conservatoire, her early disappointments, the jealousies with which she had to contend, her hopes and her great successes.

"Mme. Sarah Bernhardt has taken the greatest interest in the English translation," said a representative of William Heinemann. "She has gone over the proofs herself, and made many additional corrections. The book is not only a collection of stage stories, but it is a true record of a most interesting life. There is a good deal of philosophy in the book—the reflections of a supremely intelligent mind. Her reminiscences of the celebrities she has met form in themselves a valuable contribution to the history of the last fifty years."

Mme. Bernhardt has strong views on certain subjects, and especially on capital punishment. "It is a relic of cowardly barbarism," she says, "and it is a disgrace for civilized countries to still have their guillotines and scaffolds. Every human being has a moment when his heart is easily touched, when the tears of grief will flow and those tears may lead to repentance."

She has seen four executions—a London hanging, which she describes as "weird, hideous and repugnant"; a Madrid guillotining, which is "torture"; and two executions by guillotine in Paris.

There are some specially vivid chapters on her visits to England and America, for in both countries she has met great people, and has plenty of anecdotes to tell about them. With the book the great actress shows herself equal to the Kaiser in versatility. She is an actress, authoress, poetess, sculptor and artist, but, above all, as her memoirs will prove, she is a woman whose life has been devoted to all that is artistic and whose indomitable will has conquered all obstacles.

TWO BAILIFFS SHOT

Ottawa, Sept. 28.—Two Pontiac County bailiffs were executing a warrant of seizure on Thomas Sarazin, of Star Lake, yesterday, when his wife and daughter assisted Sarazin with rifles, and fired a volley.

Both bailiffs were wounded from the barricaded house, and though they returned the fire with revolvers, no harm was done to the occupants.

A posse of Maniwaki police have gone up to the scene of the affray.

HOLLOWAY'S CORN CURE is a specific for the removal of corns and warts. We have never heard of its failing to remove even the worst kind.

GEN. BOOTH FAVORS BIG FAMILIES

Discusses Christian Science, Immigration, Race Suicide and Other Topics.

Boston, Sept. 28.—In an hour's chat with local newspapermen General Booth covered a world-wide field of work of the Salvation Army, and discussed many topics including immigration, Christian Science and race suicide.

This is the fourth visit of the founder and commander of the Salvation Army to this country, yet he spoke so hopefully of the future as to banish the thought that it might be his last, as he is 79 years of age.

Immigration seemed to be the foremost thought in his mind, and in speaking of it in connection with the work of his organization, he said that the Salvation Army was trying to become a transfer agent. He referred to the demand for people, workers and especially in Canada, in the Western States and in South America, and of the great mass of human beings in the slums of Europe who need assistance to reach such fields of labor.

With its thousands of corps, the Salvation Army, he said, was in the best position to direct emigration from one country to another. It acts in fact as a pilot for these voyagers.

General Booth is decidedly in favor of large families. With one to two children, he said the parents always indulge them, and such indulgence creates recklessness.

"Better seven in the family or even twenty-to-as in Germany than one or two spoiled children," he said. He condemned old age pensions in the severest terms and said it was only another scheme for idleness.

Referring along in easy stages, the subject of Christian Science came up, but General Booth deftly parried anything in the way of criticism, saying that any breaking away from old faiths was better than slumber and showed agitation of the waters.

General Booth will remain in Boston until Tuesday. He participated in three public meetings today.

UP-TO-DATE FARMING

Motor Harvesting in England With Canadian Machines.

London, Sept. 30.—A remarkable demonstration of motor harvesting, which was given in Lincolnshire Saturday showed that in up-to-date farm work England is well ahead of most other countries.

The trials took place on one of the largest farms in the kingdom, that of Messrs. Dennis Brothers, of Kinston and London. The unparalleled feat of obtaining baked bread from corn which had previously been standing in the fields was accomplished in about four hours.

More remarkable still was the full amount of work done in record time. An acre of standing corn was marked out in the cornfield. This was cut, bound, threshed and ground, by the motive power of an agricultural tractor, working with a petrol engine.

An acre of ground was also plowed, cultivated, drilled, harrowed, and sown with a new crop within seven hours and a half. This constitutes a world's record, and it is so much more to the credit of the country that not only the tractor, but also the thrasher, drum, mill, cultivator, drill and harrow were all British.

The harvesting machine hailed from Canada, so that the record is, therefore, an Imperial one.

BLAZE IN TORONTO

A Fire on King Street West Does \$21,000 Damage.

Toronto, Sept. 28.—A defective electric wire caused a fire that did \$21,000 damage at 445-447 King street west, this morning. The building was occupied by the Carter-Crume Company, the Morton Company, counter check book and ledger manufacturers, and the J. L. Morrison Company, book, lithograph and paper machinery manufacturers.

The Carter-Crume Company and the Morton Company suffered \$12,000 damage to stock and the Morrison Company \$5,000 to contents and \$4,000 to building.

All fully insured.

FEARFUL PAINS

SUGGESTIONS HOW WOMEN MAY FIND RELIEF.

While no woman is entirely free from periodical pain, it does not seem to be the plan of nature that women should suffer so severely. This is a severe strain on a woman's vitality. When pain exists something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

Thousands of women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes women's special pains and irregularities.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Matilda Richardson of 177 Wellington Street, Kingston, Ont., writes:

Dear Mrs. Pinkham:—
"Some four years ago my usually good health began to fail. I had severe pains in my back, my head ached, I would have dizzy spells, and during my monthly periods I would suffer intense pain. I was advised to try Lydia E. Pinkham's Vegetable Compound, and I am so glad that I did, for it brought new life and health to me. My monthly periods were natural and painless, and my general health improved. I have not had an ache or a pain since, and I feel it a duty as well as a pleasure to tell you what your medicine has done for me."

Mme. Louise McKenzie, of Mount Carmel, Montreal, Canada, writes:

Dear Mrs. Pinkham:—
"I had heard so much good about Lydia E. Pinkham's Vegetable Compound before I started to take it for painful periods so that when it cured me I was not surprised. I had suffered with bleeding headaches and pain until it seemed that I must scream. These pains lasted from five to ten days every month, and you can understand how glad I was to get relief. I am in the best of health, and am pleased to give you this testimonial for what your medicine has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of Canadian women.

When women are troubled with irregularities, displacements or ulceration of the organs, that bearing-down feeling, inflammation, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

SECOND DAY AT HARRISTON

A Good Exhibition That Was Seen by a Large Crowd.

Harriston, Sept. 28.—The second day of the West Wellington Agricultural Exhibition opened with beautiful weather, and the attendance was large. Durhams took the lead in the show of cattle, and there was an exhibit of grade cows for milch purposes. In swine there was a good display of bacon hogs. The Berkshire, Yorkshire, Teaworth and Chester Whites were in evidence. In sheep, Leicesters, Shropshires and Oxford were the extent of the exhibit.

The paintings and the needlework of all classes and designs showed no lack of exhibitors.

J. W. Bailey represented the dry-goods merchants, H. G. Lemon, the grocers, J. S. Collison the hardware, H. Copeland the photographers. The Davis Company's exhibit and the Harriston Store Company's exhibit were magnificent.

Grain, spring wheat, white fall, red fall wheat, Canadian Beauty, large and small peas, white oats and six-rowed barley and timothy seed, was all first-class sample.

The beehive school section took the prize for the greatest collection of natural products by the school children. The promenade in the hall at night brought out the townspeople, who enjoyed the good music.

PICKET MAY BE PUNISHED

Toronto, Sept. 30.—Edward Medcalf was convicted by the jury in the general sessions court of having intimidated Eugene Guthrie, a non-union machinist employed by the Fairbanks-Morse Company.

Guthrie said: "He followed me from the works along Bloor to Dufferin street up Dufferin to Shanley street, across to Dovercourt road and down to Dundas street. He called me a scab and a rat, and said if it was after dark he would kill me."

Medcalf admitted he was a picket that day at the direction of his union, and that he followed Guthrie, but argued that as a picket he had that right. Counsel for defense maintained that his client had a legal right to act as a picket, and endeavor to persuade non-union machinists to join the union men on strike.

Judge Winchester, in his charge to the jury, said: "In this country every man has a right to follow his work without interference on the part of anybody. Unions are good things in themselves and very necessary in this age. Strikes sometimes do good and other times they do not, but we have to consider in this case. The question is whether Medcalf did persistently follow Guthrie. If he did so he did wrong. No man has the right to follow another from place to place for the purpose of getting that man to abstain from work. If this thing were allowed you can't understand how serious it would result. The opprobrious name of 'scab' is something disgraceful to apply to any honest workman. These things, if you believe they were done, show a motive. One of the jurors very properly asked if the picket had right to watch the Fairbanks-Morse factory. They have no right to beset or watch any place, but they have the right to ask information of people going in and coming out and to attempt to persuade them to help in the strike."

The jury were out only 15 minutes.

A new design in fancy well paper patterns comes from Kansas City; also a way to utilize canceled checks. A firm has had all its offices papered with old checks, placed neatly edge to edge. The face figures of the checks vary from \$30,000 to \$1,000, and the total for one room is \$8,000,000. As a gift molding runs around the edges of each check-panel, the general effect is rather pleasing.

EPWORTH LEAGUERS
Close of Successful Convention at Forest, Sept. 30.—The last session of the convention of the Epworth Leagues of the Mount Forest district was held on Saturday. Addresses were delivered by Mr. Howard O. Rogers, Varney, Rev. D. W. Messon, Hamilton; Mrs. G. A. King, Havelock; Miss Gill, Arthur, Miss Pearl McFarlane, Letter, Green, Rev. J. C. Speirs, of Brampton, and Rev. Wray R. Smith, Mount Forest. The following officers were elected:
Hon. president, Rev. D. W. Snider, Mount Forest; first vice-president, Miss F. Waters, Kenilworth; second vice-president, Miss M. McLaughlin, Arthur; third vice-president, Miss Farrell, Arthur; fourth vice-president, D. G. A. King, Havelock; fifth vice-president, Rev. W. R. Smith, Arthur; secretary, Miss Ida Kerr, Mount Forest; treasurer, Mr. Elmer Lambert, Mount Forest.

WANT CANADIAN SHEEP
American Breeders Buying Up the Best Stock in Ontario.
Guelph, Sept. 30.—Mr. W. J. Clarke, of the American Sheep Breeders' staff, Chicago, Ill., in company with Mr. J. S. Richards, of the Inter-Mountain Sheep Company, Ogden, Utah, and Mr. F. H. Neil & Son, Lucan, Ont., are guests at the Commercial Hotel. These gentlemen are buying all the registered rams possible for the Inter-Mountain Sheep Company for use on their extensive ranches in Utah and Idaho, where these sheep run in flocks of tens of thousands. Mr. Richards purchased about 300 head of Lincoln and Cotswold rams of Messrs. Neil & Sons, and other breeders in the neighborhood of Lucan and Hilderton, and expects to purchase several thousand head in the neighborhood of Guelph and other points east. There seems to be a dearth of really good rams this fall, and consequently high prices are being paid. Mr. Richards in some instances paying up to \$250 for selected animals of the Lincoln breed.

MRS. THAW AT NEW YORK.
New York, Sept. 30.—Mrs. Wm. Thaw, mother of Harry K. Thaw, arrived from Europe Saturday on the steamer Kaiserin Auguste Victoria.

CHEAPEST OF ALL MEDICINES—Considering the curative qualities of Dr. Thomas' Electric Oil, it is the cheapest medicine now offered to the public. The dose required in any ailment is small, and a bottle contains many doses. If it were valued at the benefit it confers, it could not be purchased for many times the price asked for it, but increased consumption has simplified and cheapened its manufacture.
