LIBERTY LOAN HAS

GIVEN WILDCATTERS
TREMENDOUS BOOM

Nearly Half-Billion in Fraudu-
lent Securities.

U. S. FACES BIG PROBLEM

Great Sum Lost Both to Pur-
chasers and Govern-
ment.

WASHINGTON, July 24.—Propaganda
educating the public to the value of
Liberty bonds as investments also has
served to aid the flotation of many
times more wild-cat securities than in
peace times. This was asserted today
by Louis B. Franklin, director of the
Liberty Loan organization for the
treasury, at a conference of Govern-
ment agencies and other organizations,
called by the capital issues committee
to consider means of suppressing highly
speculative development enterprises dur-
ing the war.

Other speakers declared the sale of
wildcat stocks and bonds had increased
many fold within the last year, out of
the high wages and the willingness of
promoters to take Liberty bonds in pay-
ment for their securities. A nation-
wide system of minimizing this form
of organization was suggested by the
co-operation of the American Bankers'
Association, the United Bankers' as-
sociation, United States Chamber of
Commerce, and Government depart-
ments.

Between \$250,000,000 and \$500,000,000
of fraudulent securities not passed by
the Federal Reserve Board have been
recognized by organized investment
groups. These have been taken within
the United States within the last year,
and I hereby certify that the said
immediate proceedings to have any
errors or omissions corrected according
to the said Act, will be held on the 22nd
day of July, 1918, at the residence of
J. H. MATTHEWS, Clerk of the
Township of Delaware. 44c-wxt

TEN DIVISIONS RUSHED TO CROWN PRINCE

GERMANS YIELD TERRITORY
TAKEN IN COUNTER-ATTACK

Paris, July 25.—On the north bank of the Marne the Ger-
mans last night launched a counter-attack in the region of Dormans.
The war office, in announcing this movement, reports that
the enemy temporarily occupied the little wood to the north of
Treloup and the village of Chassins. These positions, however,
were recaptured by the French soon afterward. Violent artillery
actions are reported from the region of the Ourcq and to the west
of Rheims.

CAPTURED POSITIONS RETAKEN.

The text of the statement follows:
"South of Montdidier, a surprise attack allowed the French
to capture 30 prisoners.
"On the north bank of the Marne, in the region of Dormans,
the Germans during the night launched strong counter-attacks.
The enemy succeeded in occupying momentarily the little wood
about 1,500 metres north of Treloup and the village of Chassins,
but, returning to the aggressive, our troops retook these two points
a short time later.

"In the region of the Ourcq and west of Rheims there were
violent artillery actions.
"There is nothing further to report."

LUDENDORFF IS EXPECTED TO
LAUNCH COUNTER-OFFENSIVE

Paris, July 25.—More reserves are
being thrown into the battle by the
Germans, according to the latest ad-
vices reaching Paris, but these were
unable to effect a retreat to the
Vesle, and third, to have Germany re-
gain the initiative.
The French is to his interest
to prolong the battle as long as pos-
sible even at the expense of his treas-
ure, for Ludendorff's move-
ment occupied and gave him time to prepare
another blow.

AMERICANS TAKE EPIEDS

With the American Army on the
Aisne-Marne Front, July 25.—Night.
By the Associated Press.—With their
lines of communication reduced by
operations on their flanks and their
rear north of the Marne, the Ger-
mans have been forced to give up more territory.
The French and American troops
rested tonight some distance in ad-
vance of the points where they started
this morning.

The German retreat under pres-
sure is believed to indicate that Gen-
eral Boehm, the commander of the
armies within the salient, has had
the advantage of taking night re-
positions. Great Artillery Activity.
The fighting today was not char-

GERMANS CONCENTRATING TO SOUTH OF SOISSONS

With the American Army on the Aisne-Marne Front, July 24.—By the As-
sociated Press.—Extremely hard fighting has been going on along the line
south of Soissons, where the Germans are concentrating in full strength in order to
them. But, notwithstanding the strong German resistance, the Allies have
made gains here also.

MAIN RAILROAD USELESS.

The main railroad line between the
while the heavy guns of the Allies are reaching many of the wagon roads which
the enemy has fought so hard to retain. The Germans can obtain
limited supplies, but it is believed that these will not be sufficient to warrant
keeping the big army in the salient which has been greatly narrowed by a week
of battle.

CORRESPONDENTS WITNESS BATTLE

With the American Army on the Aisne-Marne Front, July 24.—By the As-
sociated Press.—The newspaper correspondents today witnessed aerial
engagement on the Chateau Thierry front, the enemy was driven off. An enemy
plane appeared and the correspondents saw him dropping to secure the remains of shrapnel shells
about him. In less than three minutes two French planes were shot down
of the balloons, but the German declined to fight. Nose diving directly through
guns could swing upon him or the slower flying planes could get at him.

AMICIENS ROADS CONTROLLED.

London, July 24.—(V. R. Reuter's
Agency).—French artillery experts point
out that the French north of Mont-
didier now control all the roads of the
Aisne-Marne front. The Franco-American
artillery placed in the Franco-American
villages protects the railway towards
Amiens along the Noye Valley from
bombardment.

BUT ONE LINE REMAINS.

WASHINGTON, July 24.—Massed
German reserves are holding open the
jaws of the trap General Foch has
sprung in the Aisne-Marne region in a
desperate effort to stabilize their lines
without the crushing of the forces with-
in the Chateau-Thierry and Marne
salients.

The situation was graphically ex-
plained today by General Foch, chief
of staff, in a mid-week conference of
newspaper reporters. For the last two
days the enemy who were in the
ment of probably fifteen divisions of
jaws of the trap has practically sealed
the line there. On the eastern jaw
the enemy who were in the ment of
crushed back more than a mile and
on a ten-mile front, further im-
perilling the whole position in the salient
from which he is endeavoring to extri-
cate his troops.

ENEMY'S LINES MENACED.

LONDON, July 24.—Gauged by the
war maps, the new inroads of the
Allied troops into the German-held
territory necessarily add further to
the gravity of the situation. The
of the Germans inside the huge po-
ket, and with the long range guns on
both sides of the "U" heavily shelling
them behind the actual fighting fronts,
with armor bombing them assidu-
ously, the situation is becoming more
and more dangerous.

In the region between the Marne and
the Aisne, the enemy who were in the
prince has brought forward large num-
bers of picked reinforcements to stay
the British, French and Italian, his

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET
The market this morning was one of
the largest Thursday markets for some
time, though the farmers of the
surrounding districts busy with their
crops, many of them seemed to have
let the work of today drift in order
that they might attend the market.
Vegetables, all but potatoes, remained
stationary, but new "spuds" took a drop
in price and sold for \$1.75 per bushel.
Raspberries dropped in price and were
bringing 25c a box, wholesale. Black
currants brought 25c a box, wholesale,
and 28c, retail.

Dairy produce remained firm, with
butter continuing to be scarce, but sell-
ing at the old price.
Not much hay was offered, as Wed-
nesday was a heavy day for it, over
twenty loads being brought in, and
a 50-cent drop in price, and sold
from \$10 to \$10.50.

No oats were offered up to 10 o'clock
this morning.
The market of live hogs brought in
Wednesday sold for \$
