The president: earnestly appealed for the teaching of life truths to the chiliren. They were as essential, she said, for their future guidance and weizre as reading, writing and arithmetic. A right teaching of the laws of nature would produce self-respecting children and reverence for the Creator and eliminate a great deal of misery from the world.

misery from the world.

Prof. A. B. Farmer gave a lecture on "Vocational Guidance." Mr. Farmer pointed out that the infant's head was the largest part of its body, and that if it developed in proportion to the rest of the body it would be four times as big at manhood. A child's reasoning power was remarkable. It reasoning power was remarkable. It soon learned (as early as six months) to grasp the law of cause and effect. To notice and follow up the natural bent of a child's mind would be the only way to get the best results in after years. For instance, a child who loved admiration would probably make sacrifices if continually remind-ed that one day he would take a place in public life. A timid child should not be cautioned too much, but rather trade to take chances and induced to

MAIL CARRIERS OBJECT TO BOOTS PURCHASED

Association Passes a Resolution Calling Upon the Government to Change Method of Distribution.

Complaints about the post office department's methods of distributing boots to the mail carriers were made last night in the S. O. E. Hall by Secretary R. H. Cox. before the Farman Modification Association ronto Mail Carriers' Association. Her stated that the postmen were receiving a class of boot inferior to that which they should get, in view of the fact that the government paid \$5 a. pair for them. Secretary Cox also said that the boots were supplied by firms on the patronage list, to whom the men were told to present their or ders when they went for new boots. After much discussion the association passed a motion rejuesting the government to distribute the military boot and to abolish the present meth-
