

POOR DOCUMENT MAY 23 1922

THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, MAY 22, 1922.

HUSBAND'S LOVE FOR GOLF WINS WIFE DIVORCE

New York, May 22.—The ties of golf grew stronger than those of family for Sterling P. Hayward of Montreal, according to his wife, Mrs. Rachel Dean Hayward, who now lives with her mother in Germantown, Pa., and who obtained a divorce from Vice Chancellor Fielder in Newark.

Hayward is manager of the Connelly Iron Spring and Governor Company of New York, is of a prominent Montreal family socially, a stockholder of the Glen Ridge Golf Club and a member of the Princeton Club of New York. He is reported to be wealthy.

According to Mrs. Hayward, it all started when her husband joined the Glen Ridge Golf Club, in 1910, about a year after their marriage. His attitude toward her began to cool, she said, and he left her frequently to visit the golf club. By 1914 his attitude had changed from "coolness to badness," she said, much of his time journeying from one golf tournament to another and refused to take her along.

He left for one trip to Europe, she said, without even advising her of his plans, and when he returned greeted her at the door with a cool "How do you do?" brushed past her to his room, put on a golf suit and immediately left for the club with his golf sticks.

Hayward testified that the trouble lay with his wife, who, he said, was not respectful to him and was not interested in the things he liked. His wife is considerably younger than he is. He said she had not been accustomed to wealth before her marriage, as he had been, and that she ran up large bills. The Vice Chancellor Fielder allowed Mrs. Hayward \$35 a week alimony and the custody of the children.

SENTENCED TO 14 STROKES OF LASH

Chief Judge Decarie Also
Sends Accused to Prison
for Seven Years.

Frank Smith, alias Louis Kaloutsky, was sentenced to seven years in the penitentiary and to fourteen strokes of the cat-o-nine tails by Chief Judge Decarie in the Court of Sessions in Montreal. Smith was convicted of seducing and abducting a girl under fifteen years of age, having brought her from Ste. Adele, Que., to Montreal. The case was brought before the higher criminal courts following a trial in the Juvenile Court which brought to light the actions of Smith.

Before imposing sentence Judge Decarie asked the prisoner what his real name was. "Frank Smith," was the reply.

"I thought your name was Kaloutsky," said the judge.

"Oh, that is my brother," replied the prisoner.

He denied being married and a father of a family in Montreal, protesting that he had become engaged to be married to the girl at Ste. Adele, and that he was willing to marry her now.

"Your behavior in the past," declared the judge, "is such as to warrant no sympathy from this court. You have acted in a most despicable manner; you have left your wife and children penniless in the street, and you have ruined the life of the other young girl who was living peacefully with her parents, honorable people in the village of Ste. Adele. I sentence you to seven years in the penitentiary, and you will be whipped with the lash, seven strokes upon enter-

Corns?

—just say
Blue-jay
to your druggist
Stops Pain Instantly

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it) and in extra thick plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

Free: Write Bauer & Black, Toronto, Dept. 195 for valuable book, "Correct Care of the Feet."

ing upon your sentence, and seven immediately before you are discharged."

Well-known local druggist says every body is using old-time recipe of Blue-jay.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sulphur and Sassafras to keep her locks dark and beautiful, and thousands of women and men who value their hair tell us that this beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wetly's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; and what delights the ladies with Wetly's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Twenty-five
DIVORCE BILLS IN
CANADA'S COMMONS

Ottawa, May 20.—(Canadian Press)—The Commons last night gave third reading to fourteen divorce bills and eleven others were referred to the house committee on miscellaneous private bills. Practically the whole of the hour for private bills was taken up with the handling of divorce cases.

MEDALS IN HONOR
OF THOSE WHO
DIED AFTER WAR

Ottawa, May 20.—The memorial cross which heretofore has been available only to the wives and mothers of soldiers whose deaths resulted from active service prior to November 11, 1920, will now be issued in respect of any man who died in the line of active service, regardless of the date of death.

The authorities have no means of ascertaining accurate information concerning post war deaths, so it is necessary

SASKATCHEWAN WOMAN RECOVERS

Found Health by Taking
Lydia E. Pinkham's Veget-
able Compound

Melval, Saskatchewan.—"I saw Lydia E. Pinkham's Vegetable Compound advertised for women's troubles and when a friend recommended it to me I tried it and it has done me so much good in the two years in which I have been taking it that I find I am a different woman since then. I recommend your Vegetable Compound as much as I can and you may use my letter as a testimonial."

—Mrs. W. J. Thomas, Melval, Saskatchewan.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject.

Mrs. Thomas writes that she is a different woman now. If you are suffering from troubles women often have, or feel all run down, without any fault of your own, for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Thomas and many other women.

This medicine has been helping sick women nearly fifty years—surely a long record of service.

IN HONOR OF THE CITY'S FOUNDERS

Standardization
OF THE HOSPITALS

(Dr. M. T. McEachern)

"Hospital standardization means an institution equipped and organized so as to give the patient the best chance for recovery possible, an institution where results are always of the highest type attainable, where there is a personnel and facilities to make a quick and accurate diagnosis, where skilled and scientific facilities are available for applied treatment, where consultation is carried on, for two heads or more are always better than one, in short, where each and every patient has the advantage of every phase of modern medical science to effect the best cure. You who are ever sick must fully appreciate such conditions. Hospitals have not always been up to this standard, and in many instances chronic invalidism and indeed death of patients have occurred through inadequate facilities and improperly conducted institutions with no check up or audit. This can be no more for now a standard of service international in nature has been set forth to every hospital on this continent, and if they have not accepted they can now be questioned why not? Patients are now asking for standardized hospitals. Governmental and municipal bodies are now asking whether or not hospitals are standardized before opening the purse strings, and philanthropy generally is getting acquainted with the situation. Hence every hos-

pital in our splendid Canada should be in the list in October."

STOP THAT CORN'S ACHING IN ONE MINUTE!

—by removing the cause.
Dr. Scholl's Zino-pads,
the ONLY treatment of its
kind. Scientific, safe

For quick and lasting relief from corns, callouses and bunions, there's no other treatment like Dr. Scholl's Zino-pads. Relief comes the minute applied; healing starts immediately, while the tender spot is protected against pressure and irritation.

Prepared in the laboratories of Dr. Wm. M. Scholl, America's leading foot authority. They are thin, antiseptic, healing, waterproof. Easy to use; absolutely safe!

Get them at your druggist's or shoe dealer's.

Put one on—the pain is gone!

MAJOR MAGEE
TAKES PLACE OF
MAJOR FROST

At a meeting last week of the Council of the Dominion Rifle Association, the resignation of the secretary, Major J. S. Frost, was regrettably accepted, after faithful service in the secretary's position for fifteen years. Major Frost finds his business activities becoming too pressing to permit him to continue. A strongly worded resolution of appreciation of Major Frost's services, and those of Mrs. Frost as well, was adopted at the meeting. Major W. C. Magee was unanimously elected to fill the office of secretary and treasurer. Discussion took place regarding a revival of the inter-provincial rifle shoots between New Brunswick, Nova Scotia and P. E. Island. It was thought that the shoot could be held in Halifax about the middle of June. This match has not been held since 1918 and was an event of great interest when it was held. The provincial meet will be held this year at Sussex during the week immediately preceding that of the Dominion Rifle Association meet at Ottawa.

LEAVES \$30,000 TO
PROTESTANT HOME

Charlottetown, May 21.—Over \$30,000 will go to the support of a home for aged Protestant women, according to the will of Horace Hazard, former M. P., and a wholesale grocer, who died recently, leaving an estate worth \$60,000. Small bequests are made to St. Paul's church and the Prince Edward Island Hospital, the balance of the estate going to relatives and friends.

Use the Want Ad. Way

40 Years Old—and Over

For forty years, the human machinery has been working without rest. For forty years, the Heart has been pumping blood through the body, every second of every day in all these years. For forty years, the Stomach has been helping to digest three meals a day. For forty years, the Kidneys and Bowels have been carrying off the waste of the body.

After forty years, these vital organs of the human system begin to slow up. Very gradually, almost imperceptibly. But there comes a lack of nimbleness to the limbs, an inclination not to hurry. One notices that favorite dishes do not agree with the stomach. The Liver grows less active and Constipation develops. Sometimes, there are Headaches, Pain in the Back, Bilious Attacks, or a Rheumatic twinge makes itself felt. One has to be careful about the diet, avoid draughts and wet feet, and wear heavier clothing. After 40, one begins to believe there is something in this talk about high blood pressure and hardening of the arteries.

What Does All This Mean?

It means that the body needs help to retain its youthful vigor and vitality. It means that the bowels and kidneys must be regulated and digestion kept sound, or the blood will become overladen with impurities, resulting in chronic indigestion, high blood pressure and auto-intoxication.

It means that you need a tonic laxative, a reliable saline, like Abbey's Salt.

ABBEY'S SALT enables the man and woman over 40 to eat and digest three good meals a day—to do a good day's work and get a good night's sleep—to feel active, vigorous, well—to enjoy the good things of life.

Get a bottle of ABBEY'S SALT today—telephone for it now. Take a glass tomorrow morning before breakfast. Try this simple, pleasant method of keeping fit, and see how much better you feel, physically and mentally.

ALL DRUGGISTS HAVE ABBEY'S SALT
