

SUFFERED AGONY WITH NEURALGIA

Nothing Helped Her Until She Tried "Fruit-a-ives"

Campbellville, Ont. May 8th, 1913. I cannot speak too highly of "Fruit-a-ives." For over thirty years I have suffered from Chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottle after bottle of medicine without relief. The doctor told me I would not get better but "Fruit-a-ives" proved that the doctor was wrong, by giving me quick relief and finally and completely curing me.

I would not have my present health if it was not for "Fruit-a-ives" and I am glad of the opportunity of giving you this letter about such a splendid remedy as "Fruit-a-ives," for the guidance of other women who may be similarly affected.

"WE ALL STAND" CLUB

"Won't you take my seat," asked the young man, chivalrously. "Thank you, I will stand," was the reply. That was all. That is a sample of dialogue heard on the street cars of Toronto any day now. Somewhere among the Women's Literary Societies of University College, a secret "Independence" organization has been formed, and it is pledged to spread itself among the women of every city in Canada. Prospects are good for the "Independence" League of Women, which has developed from a Trenton, N. J. League of Women, which demands some middle course between simply passive support of votes-for-women ideas, and the militancy of the English suffragettes which has not been very effective.

Set aside in a cool place for two days, turning once or twice in the meantime. Roll in the usual manner and serve with drawn butter sauce, and you'll never use the fried codfish again.

WIDOWS' PENSIONS AND HOUSING POOR

KEEP THE HOME INTACT. Child Has Claim on State Which Cannot Be Regarded as Charity—Ideal Remedy Not Yet Discovered

London, March 5.—Miss Irene Loeb, a member of the New York State commission to examine into the question of widows' pensions and the housing of the poor, sailed for New York today on the steamship Ludlow. During her investigation Miss Loeb has visited England, Scotland, Denmark, Germany and Switzerland, and will report to the legislature when she returns to New York. Miss Loeb says that everybody is awakening to the importance of the relations of the dependent child and the state. She says she found the best boarding-out system in Scotland where less than 2 per cent of the children returned for poor relief, and the children returned for poor relief, and the children returned for poor relief, and the children returned for poor relief.

(Moncton Transcript) Mr. Gutellus needs to unlearn one misimpression, viz.—that the maritime provinces exist for the convenience of the Intercolonial Railway, but, to learn to the contrary, that the Intercolonial Railway exists for the convenience of the maritime provinces, and the other parts of Canada, which it serves.

British Army Below Strength. London, March 5.—The regimental strength of the regular army, exclusive of men serving on the staff, was on October 1st, 247,250, the lowest figure for a decade and comparing unfavorably with the previous strength of 253,762. To complete the establishment, 5,250 of all ranks were needed, as compared with 3,077 needed in 1912. The British establishment was 179,989, or 5,211 below strength. The regular reserve was 146,000, and the estimated maximum special reserve was 61,427, or 17,287 below strength. The territorial force has 246,000 officers, non-coms. and men, or a shortage of 66,909.

FATALITY OF WHOOPING COUGH. Many parents think lightly of whooping cough, and treat it as a necessary evil, not giving the child who has it any special attention. The seriousness of whooping cough was emphasized by the Medical Health Officer in Toronto a few months ago, when he reported 14 deaths during the month from whooping cough, and only ten from scarlet fever, typhoid fever and measles combined.

BABY BOY ABANDONED. Found on Rear Doorstep, East Boston at Midnight. Boston, March 4.—A two-weeks-old baby boy is at the East Boston Relief Hospital awaiting a claimant. The soundly sleeping youngster was found on the rear doorstep at 58 Saratoga street, East Boston, at midnight by A. J. Hase, who happened to be there at the time. The Saving of Money by the use of Royal Baking Powder is considerable

Royal is economical, because it possesses more leavening power and goes further. Royal saves also, because it always makes fine, light, sweet food, all digestible; never wastes good flour, butter and eggs.

More important still is the saving in health. Royal Baking Powder adds anti-dyspeptic qualities to the food. There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

MELANCHOLY WOMEN. Should Profit by Mrs. Hurley's Experience—Her Own Story Here Told. Eldon, Mo.—"I was troubled with displacement, organic inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased once a month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world."

STARTING THE DAY RIGHT. Do you begin the day with a "grouch"? Are you tired in the morning? Do you fail to benefit by the restorative influences of sleep, which should make good the energy and vitality consumed by the day's work? Then you are rapidly becoming bankrupt so far as health is concerned. You should look to your habits of eating, make sure that you get lots of fresh air in your sleeping apartments, and restore vitality by using Dr. Chase's Nerve Food.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere. It has helped thousands of women who have been troubled with displacement, inflammation, ulceration, tumors, irregularities, periodic pains, backaches, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it!
