MARRIAGE EPIDEMIC

Fourteen on Eve of Investigation of the House of David.

St. Joseph, Mich., April 24—Michigan's grand jury investigation of charges of immorality in the Israelite colony of the House of David is under way before Judge Harry J. Dingeman of Detroit.

Asst. Atty-Gen. Quay, who represents the state in the presentation of evidence, completed his preparations by drawing up large numbers of subpoenas to be served on local witnesses in the twin cities of St. Joseph and Benton Harbor and at the colony itself.

It is a highly concentrated yeast from the famous Bass' Ale in England, which has been recognized for generations and prescribed by physicians the world over for men, women and children who are underweight. Ironed yeast also contains organic iron, the kind of iron that is found in spinach and raisins, the kind doctors prescribe for rich, red blood.

If you are run down, underweight, weak, pale, have no appetite, and energy gone, you need Ironed Yeast. Begin today. All reliable druggists guarantee it will benefit you or your purchase price will be cheerfully refunded.

Group marriages are not a novelty at the House of David, and past investigations by state and federal officials have always been the signal for the rushing into matrimony by groups of girls at Shiloh, the huge mansion of "King Benjamin" Purrell and "Queen Mary."

Mr. Quay has not decided whether the 14 brides and grooms of the latest group wedding will be summoned as witnesses.

Sheriff George Bridgman has been trying to locate Benjamin for several months to serve papers in two suits for damages brought by two former git members of the colony, who allege a statutory offence.

Great Earth and Sea Disturbances
Moscow, April 24—Tremendous earth and sea disturbances have taken place recently in Great Britain and Canada, are still being raised by interested people who apparently seek to continue the old embargo at least to some extent. British stock owners are demanding that the ports in the United Kingdom remain closed against all classes of cattle from the dominion except store bullocks and spayed heifers.

The minister of agriculture, Sir Robert A. Sedon, has promised to attend a meeting of the parliamentary agricultural committee tomorrow to explain the position of the Government on the question of admission of Canadian breeding cattle to this country.

J. Ramsay Macdonald, labor leader in the British Commons, probably will be made a privy councillor in the immediate future, according to the London Daily Express.

UNDERWEIGHT SIGN OF ILL HEALTH

How to Tell if You're Underweight—Easy to Build Up to Normal Quickly With Ironed Yeast.

If you are pale, sickly and feel tired and run down, have you ever thought that it is because you are thin and do not weigh as much as you should? Doctors agree that to be in perfect health and feel strong and be able to fight off disease, you must weigh a certain number of pounds according to your height.

Here's a method for finding out whether your sickness is due to lack of proper weight or not. A person five feet in height ought to weigh 110 pounds. For every inch you are over five feet, add 5 1/2 pounds. Thus if you are five feet six inches in height, your normal weight would be 110 pounds plus six times 5 1/2, which is 148 pounds.

If this test shows that your actual weight is below what it should be, begin taking Ironed Yeast without delay. It is a highly concentrated yeast from the famous Bass' Ale in England, which has been recognized for generations and prescribed by physicians the world over for men, women and children who are underweight.

Ironed yeast also contains organic iron, the kind of iron that is found in spinach and raisins, the kind doctors prescribe for rich, red blood.

If you are run down, underweight, weak, pale, have no appetite, and energy gone, you need Ironed Yeast. Begin today. All reliable druggists guarantee it will benefit you or your purchase price will be cheerfully refunded.

STILL FIGHTING IMPORT OF OUR CATTLE

London, April 24—(Canadian Press)—Questions as to the kind of cattle to be admitted to Great Britain from Canada, are still being raised by interested people who apparently seek to continue the old embargo at least to some extent.

British stock owners are demanding that the ports in the United Kingdom remain closed against all classes of cattle from the dominion except store bullocks and spayed heifers.

The minister of agriculture, Sir Robert A. Sedon, has promised to attend a meeting of the parliamentary agricultural committee tomorrow to explain the position of the Government on the question of admission of Canadian breeding cattle to this country.

He will deal with the stock owners' demand for the exclusion of all classes of cattle with the two exceptions mentioned.

Brides and Young Wives—Take Heed

You are beginning your married life with some nice new furniture. You particularly admire good stylish furniture.

All young up-to-date young people do. But in most cases you think it wise to be content for the present with a compromise on your complete ideals for the sake of economy.

And quite right, perhaps, as far as that goes. It is far better to furnish your home as completely as possible, according to your taste and ideals, right at the start, even though you sacrifice some other things of less importance.

This solid formed oak Living Room Suite, 7 pieces, furnished made, etc., while they last \$37.55. Mail orders promptly attended to. We prepay freight. Only a limited number to be sold at the above price.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty) Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove hair from arms, neck or face make a stiff paste with a little powdered delatone and water, apply to hair surface and after about two minutes rub off, wash the skin and repeat a single treatment with delatone. To avoid disappointment, be quite certain you get real delatone and mix fresh as wanted.

SUGAR-MAKING NEAR END, POOR SEASON REPORTED (Moncton Transcript) Sugar makers report the season to be very poor for their business and very near to an end. The sap is said to be very weak and double the amount is required to make a pound of candy or a gallon of syrup than is usually needed. The cause is said to be due to practically no frost being in the ground the snow having come so early and covered the ground before the real cold weather set in. There is plenty of snow in the woods but it is expected to melt quickly and there is no bottom to it. Candy makers report having a hard time to get the sugar woods with their teams and the horses and sleds sink deep in soft snow.

SNOW IN ALBERTA Regina, April 24—The first crop report of the season, issued last night by the Saskatchewan department of agriculture, states that seeding conditions all over the province will be modified over a large area as a result of snowstorm yesterday and last evening. Snow was general over the southern part of the province and a storm of water-laden snow hit the Regina district early in the evening. In some cases reduced acreage is predicted owing to a scarcity of farm laborers.

The Moscow government will send M. Vorovsky, Soviet representative at Rome, to Lausanne as an unofficial observer.
