DRIVE TODAY FOR THE NAVY LEAGUE

Ladies of I. O. D. E. Report Early Success—An Appeal by Doctor Grenfell

With a clear, fine day to stimulate their efforts, the committees from the various chapters of the I. O. D. E. today began their two-day drive in aid of funds for the Navy League. They reported success. Before they started on their rounds of the business districts, they were addressed by Rev. Dr. Hall of Toronto, senior chaplain of the Royal Naval and Mecrhant Marine Institutes of Canada, who spoke on the importance of the work in hand.

The ladies engaged in the collecting today were:—Mrs. J. L. McAvity, Mrs. R. W. Wigmore, Mrs. F. H. Neve, Mrs. W. E. Foster, Mrs. S. Skinner, Mrs. J. E. Moore, Mrs. T. Carter, Mrs. Thos. Dean, Mrs. R. Gregory, Mrs. C. L. Fraser, Mrs. Amos Bowman, Mrs. Jas. Taylor, Mrs. E. Bowman, Mrs. Ambrose, Mrs. E. T. Sturdee, Mrs. F. R. Taylor, Mrs. R. A. McAvity, Mrs. H. Cudlip, Misses Skinner, Blizard, Coster, Shaw, Kenney, Turnbull, A. McLeod, A. Anderson, P. MacKenzie, K. Schofield, Barbara Jack, Lou Robinson and Miss Hegan. Mrs. G. K. McLeod was general convenor, and Miss Travers secretary for today's drive, with headquarters in the Seamen's Institute. A different committee of ladies will be work tomorrow.

Dr. Grenfell's Appeal.

The following letter is of interest in connection with the Navy League drive:

2 Elmsley Place,
Toronto, Oct. 16, '19.

Dominion President the Navy League of Canada, Toronto:

Dear Sir,—I want to ask your aid for the work that we have been carrying on for twenty-seven years for the benefit of British and Canadian sailors and their dependents, through hospitals and institute, and a home for their orphan children on the coasts of Labrador and Newfoundland. One hospital has been operating for fifteen years among the seafaring population at Harrington in the province of Quebec.

The people on these coasts are seamen, and numbers are of Devonshire and Dorsetshire extraction, and embody the sea genius of the race. They are bred and born to the sea; they make their living out of the sea. Large numbers of them served in the royal naval reserve, and many lost their lives in the recent war. These men are the backbone of the fishing industry of North America. They make a good living, but they have every discouragement to remain on the coast as no provision whatever has been made for their physical welfare, medical protection, and very little for their enlightenment and uplift.

They have suffered very heavily this last winter through Spanish influenza, which in one bay on the Labrador killed one in every five, and all along the coast would have very seriously depleted their numbers had it not been for the little string of hospitals and nursing stations that we have been gradually placing. This has put a very material strain upon our resources. I picked up seventeen children in one bay that I had to feed, clothe, school and house this winter, only five of whom I was able to get into our own children's home through want of room; but others I had to board out.

Our King George V. Institute for Seamen at St. John's, Nfld., is a very large building, costing $200,000, and is so largely patronized that this year seventy-five per cent of its accommodation was full all the time, and innumerable seamen have been taken there for succor and support. We are constantly having the crews of wrecked ships unexpectedly to take care of. Among others this year the crew of the Christianford filled the institute for some time. We have been thanked by the Newfoundland government more than once for assistance to sailors rendered by this institute.

Any encouragement that can be given to increase the population on our coasts from stock familiar with the sea is of the greatest importance to the national future of the country and a mark of wise statesmanship.

Yours faithfully,
WILFRED GRENFELL.

The Dominion Council of the Navy League, it is announced, will probably grant $5,000 to Rev. Dr. Grenfell for his work.

VON BERNSTORFF IN WITNESS BOX

Berlin, Oct. 23—(Associated Press)—Count Von Bernstorff gave evidence yesterday before the committee investigating the responsibility of German officials for the war. He said: He startled his hearers by saying that the U. S. Federal Reserve Bank had a plan mapped out to deny Entente nations credits but it pas spoiled by the work of the submarines.

He was asked what raised American antipathy to Germany beside Belgium and the U boats and replied: "German plots in America, which the United States government firmly established."

APPEAL RE OTTAWA CATHOLIC SCHOOLS IS DISMISSED IN LONDON.

London, Oct. 23—(Canadian Associated Press)—The privy council today dismissed the appeal concerning Ottawa Catholic separate schools, holding that the statute was intra vires, and that the appellants were not prejudically affected by it.

The appellants pay respondents' costs. The attorney-general of Ontario pays his own costs.

Two years ago the Ottawa Separate School Board sued for the recovery of money which had been seized and expended by the government school commission on behalf of the separate schools. The sums included the sinking fund amounting to $40,000 which had been on deposit at the Quebec and Ottawa banks by the separate school board prior to the formation of the government commission.

The action by the school board was based on the privy council decision which had declared the government commission ultra vires.

Justice Clute rendered judgment in favor of the board, but his decision, which affected both the Quebec and Ottawa banks and the members of the defunct commission, was upset by Judge Meredith, in the appelate court.

POPE DECRIES FASHION EXTREMES

Urges League of Catholic Women to Fight "Indecency of Fashion"

Rome, Oct. 23—(Associated Press)—"On the domestic hearth woman is queen," said Pope Benedict today in answering an address presented to him by the women's unions. The pontiff added that changed times had given women functions and rigits she did not possess in former ages and enlarged the field of her activities, but that no alteration in man's opinion or no novelty of things or of events could separate woman, conscious of her high mission, from the family, which was her natural centre.

Pope Benedict praised the growing determination of the Catholic woman to dedicate herself to the education of youth and the betterment of the family schools.

"The Catholic woman," said the pontiff, "besides feeling it her duty to be virtuous, must feel it her duty to appear such in the fashion of her clothes, repudiating those exaggerations of fashion which show the corruption of those who designed them and bringing an evil contribution to the general corruption of manners—fashions contrary to that modesty which should be the fairest ornament of the Christian woman."

The Pontiff strongly urged the formation of a league of Catholic women to fight what he termed the indecency of fashion, not only in their own clothing but also of that of persons in families who approach them.

FRENCH, DISCUSSING IRELAND, SPEAKS OF COERCOAN TO COME

London, Oct. 23—Speaking at Wallesey, Cheshire, last night, Field Marshal Viscount French, lord lieutenant and governor-general of Ireland, made a bitter attack upon the Sinn Feinn government of Ireland. Among other things he said: "The self-constituted, illegal and insane Sinn Fein government is possessed of a great secret army called the 'Irish Volunteers' to which are attached assassins whose business it is to murder police and soldiers who question their decrees in any community. The people are frightened into screening the offenders and courageous efforts on the part of the police are abortive.

GUM TENDERNESS —A TOOTH-MENACE

It is true that four out of five people over forty suffer from gum-shrinkage, or Pyorrhea (Riggs' Disease). But many people even under thirty have Pyorrhea. Women, particularly after the baby comes, are peculiarly subject to Pyorrhea. At such time they cannot be too careful about their teeth.

Pyorrhea commences with tender gums, or with gum-bleeding, at tooth-brush time. Gradually the gums become spongy. They inflame and then shrink. The teeth become exposed to decay at the base and tiny openings in the gums become the breeding places of disease germs which infect the joints—or tonsils—or cause other ailments.

Beware of that first gum tenderness! Try Forhan's for the gums. It positively prevents Pyorrhea, if used in time and used consistently. No ordinary tooth paste will do this.

And Forhan's cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes. All druggists
