

child of God, so that you can approach His table with confidence, and thereby glorify Him who bought you with His blood.

Baptism.—See that your children are presented to God and to His church in infancy by baptism, and train them as members of His visible church. Where this ordinance has been neglected in childhood, it should be attended to on uniting with the church.

We would call attention to the fact that this is the jubilee year of our work in Canada. It is fifty years since the first class was formed in Toronto. The Conference recommends that the Jubilee be signalised by the Church Extension Fund being lifted out of its present feebleness and invites subscriptions and donations towards this object. A thank-offering which would prove our gratitude to God and loyalty to the church of our choice, would place the above named fund in a position to be of immense benefit to our growing connexion in this land.

The "*Christian Journal*" in its new form and dress should commend itself to your patronage and support. The editor, Rev. J. C. Antliff, B. D., with his staff of regular contributors, will do their utmost to make the paper a welcome weekly visitor to your houses, as it will be a means of encouragement and instruction to your families. Subscribe for the *Christian Journal*, it will foster an attachment to our beloved Lord, and furnish you with the latest news connexional and otherwise.

Our Sabbath School officers and teachers will find it to their interest to take the *Christian Journal*, as it will furnish them with much useful matter helpful to them in their noble work.

We would also recommend our Sabbath School to patronize our own book room. The book steward is authorized by Conference to keep on hand a good supply of Sabbath School literature to meet the growing wants of our increasing Sabbath Schools.

And now, beloved, "Be perfect, be of good comfort, be of one mind, live in peace, and the God of love and peace shall be with you."—Amen.
