NOTED PHYSICIAN CUTS HIS THROAT.

Shrewdly Outwitting Sister, Dr. Allen R. Thompson Kills Himself at Asbury Park.

NEW YORK, Aug. 23.—With all the deliberation and accuracy of a skilled surgeon performing an operation, Dr. Allen R. Thompson, one of the most prominent physicians of Troy, N. Y., yesterday at Asbury Park, N. J., severed his jugular vein, dying soon after. Suffering from melancholia because of his long invalidism, Dr. Thompson often expressed his wish to die, and when he decided to carry out his determination he shrewdly blinded his sister to his intention by pretending to believe he was recovering. She had long acted as his watchful nurse, fearful of his attempt at self destruction, but yesterday, while she slept, lulled into security by his pretended optimism, the physician stole to the bathroom and with a common pocketknife made the clean, certain wound that ended his life.

Lucy Snowe's Mother

is so worried about Lucy's clothes for boarding school next winter—she wants to make up a serviceable school-room suit and a pretty gown for "nice" and if she will step in and get the September number of THE DESIGNER she will find just what she is looking for.

The School Suit has a new blouse, to be trimmed in braid or stitching, and is the most satisfactory design yet made for girls from 13 to 17 years. The blouse design may also serve for separate shirt waists in flannel, mohair or silk.

The other costume is made with the very fashionable 3/4 collarless coat, and instructions for cutting and making are so complete that nobody who knows how to sew need hesitate to attempt this stylish gown.

Each Suit Pattern, including skirt and waist, costs but 15 cents.

THE DESIGNER is 10 cents a copy—we take subscriptions at 80 cents a year.

TICKET-OF-LEAVE MEN.

King and Stone Let Out of Jail on Probation Again Commit An Assault.

Frederick King, Samuel Stone and Thomas Stack were arrested last evening on the charge of assaulting Joshua L. Cogswell on Union street last evening. King and Stone are ticket of leave men, who were released from jail a few weeks ago, after serving some months for pushing Fred Gibbs over Reed's Point wharf.

Cogswell said today that when passing near the Opera house last evening he heard a quarrel between King, Stone and others and stopped to listen. King came over and ordered him to move along. He was doing so when Stack struck him in the mouth, cutting his face and knocking him down. Then Stone struck him on the side and King landed a third blow on his eye. A man named Davis, who was present, interfered on Cogswell's behalf.

To the charge Stack pleaded guilty, but King and Stone denied the assault. According to King's evidence he had only caught hold of Cogswell and was pushing him away. Stack declared that Cogswell had struck the first blow.

The case was adjourned until the man Davis could be secured as a witness.

John Fitzgerald thought he had been drinking too long. Night before last he was loaded any fell down, hurting his hand pretty badly. He was remanded till enquiries could be made as to his injuries.

THE YACHT RACE.

The interest shown in the yacht race yesterday, especially after the Shamrock was reported as gaining, was even greater than during the previous races. The bulletins posted in various parts of the city by the Star were watched with eager interest and the sale of this paper exceeded any previous record.

Tomorrow's race will be bulletined as usual in form of the Star office on Canterbury street, in front of the Robbie Shoe Co., on King street, G. E. Price's drug store, on Union street, G. F. Watson's grocery store and C. F. Brown's crockery and hardware store on Main street, and E. R. W. Ingraham's drug store in Carleton.

ASSAULTED GIRL RECOVERING.

Mary Clarke, the young woman who was assaulted by Nicholas Burns some days ago is today much improved. On Sunday evening, and in fact since then, her condition has been critical, and a consultation of physicians was held. But yesterday afternoon Miss Clarke showed signs of improvement and was able to sit up for a short time. While she was physically injured in the struggle with Burns, the shock to her nervous system was what affected her most. She had been quite nervous before the occurrence on Friday evening and suffered a collapse afterwards. In addition to this her body is scratched and bruised, but these injuries will be all right in a few days.

Dr. George Corbett is attending Miss Clarke.

PICNIC AND GARDEN PARTY.

The congregation of the Silver Falls Methodist church are making preparations for a joint picnic and garden party of the different parts of the parish on Wednesday, Sept. 2nd, on the grounds adjoining the parsonage. Committees have the affair in hand and it promises to be a success in aid of the parsonage fund.

William D. Baskin, who conducts a grocery on King street, Carleton, has purchased Capt. George Kenney's grocery store on the corner of Charlotte and Watson streets and will run it in conjunction with his other store.

Capt. Kenney's place was formerly conducted by E. A. Morrill. The captain is retiring from business and is thinking of going to sea again.

The report that a new infantry regiment was coming to Halifax to replace the 5th Royal Garrison Regt. at present stationed here, is incorrect. The 103rd Company Royal Garrison Artillery is coming to Halifax from Bermuda. The 58th Co. R. G. A. will go to Halifax to Equilibrium and the 3rd Co. R. G. A. will go from Esplanade to Hong Kong. The changes will probably be made early in December.

At the Fredericton police court yesterday morning Charles Ryder and Frank Hughes, of St. Mary's, charged with complicity in the alleged murder of William Uquhart on August 8th, were discharged by Judge Marsh, there being no evidence against them to justify holding them.

Miss Bessie Perley, daughter of George Perley, of the Dominion public works department, and Aubrey Rowan-Legge, formerly of the Merchants' Bank in Ottawa, were married in Toronto on Tuesday. Miss Perley is a daughter of the late Henry F. Perley, of Ottawa, and has many friends and relatives in St. John.

D. D. Mann, of the railroad construction firm of McKenzie & Mann, passed through the city yesterday en route to Nova Scotia, where one of the firm's roads is under construction. There are at present, he says, 1,500 men engaged at the work there, and a number of ports are touched by the line. As to a charter being sought for a line through New Brunswick, the senate had not as yet assented to grant the necessary privileges.

JUDGE RITCHIE ANXIOUS.

"Something happened to Magistrate Ritchie's dog this morning and veterinarian says the dog had a dose of poison. It occurred just when the dog stood on the floor, Prince and threw fits to beat the band. His feet flew faster than Harry Cole's, and he staggered across the room like one of the drunken men who have been watching all his life. After bouncing about promiscuously for some minutes, Prince crawled under the magistrate's chair and lay down. The cops suggested the dog had taken a little too much, but a veterinarian, who was called in, was of the opinion that it looked like strychnine. Poisoning of dogs was of frequent occurrence a few months ago, but recently no cases have been reported.

MORE SUCCESS FOR BANDMANN.

If an enthusiastic audience is any indication of the fact, the case of the Bandmann company, it lacked none of its natural beauty or O'Minnosha charm. The eye and ear and the same good-natured, volatile Wun Hi moved to laughter. There were no dull or spiritless moments last night.

Tonight the Opera house will again taste of orientalism in its comic aspect, when A Chinese Honeycomb will be presented.

OUANGONDY TO THE BREACH.

The Ouangondy has been hurriedly put into commission and is now doing service on the ferry while the Western Extension, which has been on the Rodney slip, is hauled up in the sudden collapse of the Western Extension. It was intended to run her for a short time longer, but Monday the condenser and hot well played out, practically disabling the boat. The Ouangondy was at once brought out and will remain on the crossing for some time while the Extension is being repaired.

MAY BE A PERMANENT ATTRACTION.

Mrs. James Clarke of Minette street, Carleton, is anxious to dispose of a dead horse. Reference was made to this animal in yesterday's Star, but the carcass still remains in Mrs. Clarke's barn. The fertilizer company promised to take the thing away and the promise still is good. The horse is not yesterday an attempt was made to have the horse hauled away, but no teamster could be induced to take the job, as it is a belief that hauling a dead horse brings bad luck. Meanwhile the carcass keeps on a smelly.

DON'T FOOL WITH CHIEF KERR.

John Kerr, the doctory chief of the fire department, is a man not to be fooled with.

Yesterday afternoon at the fire on City Road the chief, for some cause or other, became the object of a fearful crowd. But he soon dampened their spirits. Without wasting time to think he ordered the pipemen to turn the hose upon the crowd, with the result that for a moment there was the wildest scattering.

RINGOLETS FROM RED HEAD.

(Special Correspondent of the Star). There is great excitement down here over the proposal to get up a theatre party to attend a show now in the city. Fourteen of the residents, including most of the prominent people in this lovely spot, are thinking of going to town tomorrow night to see Floradora, in which the pretty little maidens appear on a sextette. Floradora is the name of a perfume and the members of the party are going to buy some to put on their handkerchiefs for tomorrow night.

DINING HALL FOR BANK CLERKS.

Bank of New Brunswick Provides Free Luncheon For Its Staff—A New Departure.

The directors of the Bank of New Brunswick are introducing in this city something which is entirely new in the banking business in St. John. This is a dining hall to be conducted for the convenience of the staff.

The directors feel that the lunches usually brought by members of the bank staffs are not all that could be desired and do not afford nature a proper chance for producing the best results. Usually members of bank staffs have been in the habit of taking cold lunches to their work, although in the Bank of Nova Scotia some of the clerks are allowed off at noon this rule is not in general operation.

In consideration of various reasons, it has been decided to establish a kitchen and dining room in connection with the bank. Part of the available space on the second floor will be utilized and here a complete kitchen equipped with a large range, sink, about seventeen feet square, will make a very bright and cheerful dining hall. Here it is intended to employ a waiter and serve the staff with a good substantial luncheon, consisting of soup, joint, tea, bread, cheese, biscuit, etc.

This, it is believed, will be much better than the cold luncheon the men are now compelled to bring. The dining hall will be conducted at the expense of the bank and no charge will be levied on the staff for the meals provided.

The members of the staff will take luncheon in relays, about twenty minutes being allowed for each.

This plan, it is believed, is not followed by any bank in Canada, with the exception of the head office of the Bank of Montreal, but is in vogue in England, especially in large wholesale houses and financial institutions.

THE STORM AT CHATHAM.

Last Saturday's storm did considerable damage at Chatham. The new exhibition building, which was almost completed, was demolished, a building at Ruddock's Foundry and another at the pulp factory were unroofed, and an Italian steamer, breaking from her moorings, crashed into the wharf, causing considerable damage there.

The house of Jeremiah McDonald was totally destroyed. Mrs. McDonald was struck on the head by a falling brick. One little child had to be dug from the ruins, uninjured. The house of Stephen Blakely's house was also laid in ruins. The school house at Ullock's was lifted off its foundation and carried into an adjoining field, where it lies in small pieces. The temperature of the hall was unroofed and the building shifted to the place before occupied by the school house. Mrs. Robt. McNaughton was severely injured by a flying timber and a projectile was driven clean through two opposite walls of Mr. McNaughton's barn. Trees were uprooted and twisted, and numerous crops were destroyed. The damage seemed to have been done by a storm-cloud which moved in a path averaging thirty rods in width, first taking a lateral then a rotary motion. Johnson and Lacey, who were badly injured by the collapse of the exhibition building, are recovering.

HOW'S THIS FOR POLICE WORK?

Detective Killen Lands Thief Before His Theft Was Discovered.

It is not often that a man is arrested for stealing before the owner of the goods knows of the theft, yet this is almost what happened in the case of Gilbert Lauchner. Yesterday Detective Killen got word that Lauchner had been attempting to sell a suit of clothes which had evidently been stolen. The clothes were examined and in the pockets were found papers belonging to Fred Lupe. When Lupe was seen he knew nothing about the theft but soon found that his clothes were missing. Lupe and Lauchner had been boarding together in a house on Britain street and the only way Lauchner could have taken the clothes was by throwing them out the window.

He was arrested and in the police court today appeared before Magistrate Ritchie. When the nature of the charge Lauchner seemed to get mad and very loudly proclaimed his guilt. He elected to be disposed of by a higher court. He was remanded for sentence.

HOME FROM THE STATES.

Bonar Palmer, son of David Palmer, of Rexton, N. B., is in the city on his way home from Quincy, Mass. Mr. Palmer is suffering considerably from gasoline burns, the result of an explosion which occurred while he was effecting repairs on a United States cruiser. Mr. Palmer is employed with the Four Rivers Ship and Armour Co. of Quincy, Mass. He is the only one of the only two ship-building companies on the continent. They employ three thousand men and have at present contracts amounting to over twenty-five million dollars. They will shortly commence the construction of three first-class cruisers for the United States navy.

N. S. FRUIT GROWERS.

A delegation of Kings county fruit-growers' representatives waited on the Dominion government and Hon. W. S. Fielding this week and asked for improved steamship facilities from Halifax for handling fruit. Their view will receive every consideration. One special request they made was to have the Montreal steamers call at Halifax this fall for fruit. This is in addition to improvements contemplated for the Halifax-Great Britain lines. The delegation consisted of H. H. Wickwire, M. P. P., Capt. Allen, Peter Innes and Mr. Christie.

OLD FURNITURE.

In this city there can be seen in many of our fashionable residences, as well as the humblest homes, a vast number of old, shabby looking parlor suites, lounges, easy chairs, etc., which have been better days. No matter how broken down they may be they can be re-upholstered in the very latest styles and by experienced workmen at Amund Bros', Waterloo street, who make a specialty of doing over a class of work. They also have a beautiful assortment of furniture coverings to select from, and any work sent to them will receive prompt attention.

MASONS IN SESSION.

Judge Trueman Again Elected Grand Master—Lodges in Fine Standing.

The thirty-sixth annual communication of the Grand Lodge of the Ancient and Honorable Fraternity of Free and Accepted Masons of New Brunswick convened last night in Freemason's hall. The Grand Master, A. I. Trueman, occupied the throne.

After the appointment of the dental committee, composed of D. Dearness, A. M. Rowan and Dr. L. A. McAlpine, the Grand Master delivered his annual address.

The grand master dwelt glowingly on the healthful condition of the grand lodge. During the past year the membership has been greatly increased and the finances have remained in a favorable state. He referred to the death of members in the past year, among them being Past Master Daniel F. Forrester, of Alley Lodge, Upper Mills, St. Stephen; Arthur Everett, a past master of St. John's lodge; Chas. D. Thompson, a past master of Albion Lodge; Richard M. P
