Continues Critical - Tax Collector Magee is Busy-Two New Schools

For Moncton.

MONCTON, July 20 .- General Superintendent Price of the I. C. R., whose serious illness has been noted, contin ues in a critical condition, though he has taken some nourislament today and is resting more comfortably. Dr. Stewart of Halifax is expected here tomorrow in consultation, with local physicians.

These are busy days with Tax Collector Magee, but the amount paid in to date under the 5 per cent. discount is about \$33,000, some \$5,000 less than last year, while the total assessment is some \$10,000 more. There is of course the usual grumbling over the taxes. Though the rate is 2.25 this year against 2.35 last year, the lower rate is due to a pretty general increase in valuations. The total valuation of the town this year is about \$3,300,000, as against about \$2,800,000 last year. Of the increase \$60,000 is in new property, and the balance is due to higher valuations. In the case of the Moncton Land Company, which holds a large tract of unimproved land on the outskirts of the town, the valuation has been doubled, this year being

has been doubled, this year being placed at \$40,000, as against \$20,000 last year. The trustees have decided to open two new schools at the beginning of the approaching term, to accommodate with hard right to head. McLeod with hard right to head. McLeod placed at \$40,000, as against \$20,000 last year.
