

FAR GREATER BATTLE MAY BE PENDING

Von Hindenburg Evidently Determined to Make Further Terrific Struggle Before Withdrawing From France

London, April 26.—A cable to the New York Sun says: Far greater battles than those raging in the Arras region are impending in the immediate future. This statement is heard from many reliable sources today, when the question arises whether the British have reached the climax of their artillery work.

Field Marshal Haig's plans apparently are developing excellently and he is forcing Von Hindenburg to do just what the British anticipated. They knew that he would wait until he thought that the Allies had reached the highest point of efficiency and then throw in enormous masses of reserves to catch them on the down grade.

HOWARD ELLIOTT QUITS NEW HAVEN RAILROAD

Edward J. Pearson of Texas & Pacific Appointed Successor—System in Bad Shape

Boston, April 26.—Howard Elliott has resigned as president of the New York, New Haven and Hartford railroad. Mr. Elliott said that he found the conditions of the big system in a bad shape when he became the successor of President Mellen, who was brought from the Northern Pacific by J. P. Morgan, Sr. At that time the New Haven system controlled the Boston & Maine, now in the hands of receivers and in process of reorganization; the Maine Central, Washington County and other steam lines, many trolley lines and steamship companies, and had a large interest in

REPORT THAT 250,000 ON STRIKE IN BERLIN

Washington, April 26.—Reports to the state department through official channels tell of a strike of 250,000 laborers in Berlin. While the name of the official who gave the information is withheld the department says the incident shows the growth of the desire for peace on the part of the workmen. It is reported also that bread rations have been reduced from 1,900 to 1,600 grams per week.

CLEARING ICE BY USE OF DYNAMITE

Fredericton, April 26.—The St. John river here has fallen since last night, the result of the cold weather of the past few days. The drift drive started from the Mitchell boom today. Dynamite is still being used to clear ice from parts of the river and it branched. The crews which will drive on this stream, all are in and driving will be in full operation next week. It is estimated that there is twenty eight million feet of lumber on the Nashua, part of that being old logs. This is a larger quantity than has been driven for some years.

INCREASED FREIGHT RATES ON LUMBER FROM EASTERN CANADA.

Washington, April 26.—Increased freight rates on lumber from Maine and Eastern Canada to central and southern New England and northern New York, have been approved by the Interstate Commerce Commission.
