FINE PAINTINGS FOR OTTAWA

The Committee in England, with Lord Beaverbrook at its head, which has raised a large sum of money for the purpose of procuring records of Canada's share in the war, for the founding of a national historical gallery at Ottawa, have in addition to this work lately secured two portraits connected with the past history of Canada which may be said to be quite priceless. The portrait by Sir Thomas Lawrence of Sir Alexander Mackenzie the great fur trader, who in the closing years of the eighteenth

century went by land and by canoe from Montreal to the Pacific, was secured at a cost of \$21,500. This opportunity arose through the willingness of the family to part with the precious portrait. A few days ago there was also secured at an important sale at Christie's for 5,000 guineas Romney's portrait of Joseph Brant, painted in the reign of George III when Brant was being housed in London. This picture has been traced and kept in sight on behalf of the Canadian Government for some time but with little hope of its ever being fortunate enough to obtain it.

A SLIGHT BLAZE.

An alarm from box 312 about 5.30 o'clock yesterday afternoon gave the fire department a run for a slight blaze in the upper flat of a house at 144 Rockland Road, occupied by A. W. Worden. Apart from burning a small hole in the roof, very little damage was done.

LOCAL SOLDIERS
OF THE SOIL
COMMITTEE MEET

Received Instructions from Taylor Statten, National Superintendent, on Saturday—Enrolling of the Boys Starts this Week.

A meeting of the local "Soldiers of the Soil" committee took place on Saturday afternoon to meet and receive instructions from Taylor Statten, the National Superintendent, on this movement, which has been organized by the "Canada Food Board."

Mr. Statten is just completing a trip across the continent visiting the different local government departments interested in this work, and the voluntary committees who are to place before the boys of our country, between the ages of 15 and 19 the necessity of their coming to the assistance of our farmers so that a sufficiently large crop may be planted and harvested to help overcome the world's shortage of food stuffs.

Mr. Statten spent Thursday and Friday in Fredericton and went into details with the Departments of Education and Agriculture. It had been planned to start enrolling the boys this week but it has been found advisable to postpone this until after the 28th. The Department of Agriculture does not consider this will cause any delay with the farm work, as most of the boys will not be needed till after the middle of May.

The local committee is composed of well known business men, and the patriotic call that they are going to make to our boys to work for our country's need on the farms, to our merchants to grant working boys leave of absence for the summer, and to our farmers to increase their productive acreage by employing the assistance of the boys, should receive hearty commendation, co-operation and support. The local committeemen are as follows:—A. R. Crookshank, chairman; R. E. Armstrong, Thos. P. Drummond, T. H. Estabrooks, Dr. Jas. H. Frink, Dr. Jas. Manning and Thos. Nagle.

George Thomas of the Royal Bank staff returned to town this week after a short visit to his home in Campbellton.

Misses Margaret Callahan, Cleora McLaughlin and Alice Campbell of the Normal School and Annie Cassidy of the Fredericton Business College spent their holidays at their homes here.

Miss Florence Jardine spent Easter with friends in Jacquet River.

Miss Helen Stevens of Campbellton is visiting relatives here.

Master Walter Stuart spent the holidays at Fredericton Junction.

Mr. Joseph Luffy of Fredericton spent the week-end in town.

Bert McCormack of Moncton spent Easter with his parents, Mr. and Mrs. John McCormack.

Mr. Myron Nicholson of New Glasgow, N. S., spent Easter with his parents, Mr. and Mrs. Osborne Nicholson.

New York, April 6.—The market is expected to develop cross currents as a result of a disposition noted in speculative channels to give bullish attention chiefly to specialties during realigning in other parts of the list as a precaution against possibilities over the end of the week.

Regular activity on a moderate scale is indicated, but in the absence of bad news recoveries are anticipated next week so that purchases on reactions will probably prove profitable if safeguarded.

THE SARDINE
CONFERENCE

Meeting Held in Bangor on Friday Last of Sardine Interests in Maine—Matters of Importance Discussed.

A conference of the sardine interests of Maine was held at Bangor on Friday last. The United States food administration was represented by Dr. Loomis, of Washington, and Dr. Merrill, of Orono, Me.; the Canadian food board by R. E. Armstrong, of St. John. Matters relating to the sardine industry were discussed by both fishermen and packers. After a protracted discussion it was agreed to recommend the adoption of the hoghead as the standard unit of measurement, ten tubs to the hoghead as prevails in Canadian waters, and seventeen and one-half bushels to the hoghead. The bushel measure has been in use in western Maine, but hitherto only fifteen bushels have been required to a hoghead. It was resolved to recommend that contracting for the catch of sardines should be prohibited. An attempt was made to agree upon a fixed price for the season, but the views of packers and fishermen were so divergent that no decision was reached. The fishermen wanted \$35 per hhd., while the average the packers expressed themselves willing to pay was \$20.18 per hhd. The matter was finally left to a committee of five packers and five fishermen, with two representatives from Canada. The conference agreed to stand by any figure that the committee might agree to recommend. It is the intention to call the committee together when the views of the Canadian Food Board have been obtained.
