GOD SAVE THE KING.
WHEN I HAVE TIME.

When I have time so many things I'll do
To make life happier and more fair,
For those whose lives are crowded
Now with care, I'll help them from their low despair.
When I have time.
When I have time the friends I love
So well, shall know no more the weary tolling days,
I'll lead their feet in pleasant paths
And cheer their hearts with sweetest words of praise.
When I have time.
When you have time the friends you hold so dear
May be beyond the reach of all your sweet intent,
May never know that you so kindly meant
To fill their hearts with sweet content.
When you had time.
Now is the time, Ah, friend, no longer wait
To scatter loving smiles and words of cheer,
To those around whose lives are now so dear
That may not meet you in the coming year,
Now is the time.

HAD WEAK and FAINTING SPELLS

Those feelings of faintness, those "weak" and "giddy" sensations, which come over some people from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their cases become deep rooted and perhaps hopeless.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Miss Mary McVoy, Algoma Mills, Ont., writes:—"I was awfully troubled with fainting and weak spells, and I could never get my doctor's medicine to help me. One day a friend of mine was at the house when I took one of these pills, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

For Rough, Wrinkled, Freckled, Pimpled Skin

As March winds, flying dust and dirt, are apt to injure any complexion, this information will be of special value right now. If you have a complexion that is not perfect, don't use paint, powder or anything else to cover it up. Two of the only remedies that will actually remove freckles, pimples, moles, patches, sallowness, red or yellow blotches or any other skin blemishes, are the active ingredients of a certain cream, which is sold in a small jar, and which is brought wholly to view, ask the druggist for one of these jars, and use this like you use cold cream. Squeeze in morning with soap and water. Many who have tried this simple, harmless treatment report astonishing results.

If bothered with wrinkles or furrows, a wash lotion made by dissolving in a couple of ounces of water a half pint of which has been proved wonderful.

ALL TRIMMINGS ARE USED IRREGULARLY SAYS PARIS; SKIRTS AND TUNICS UNEVEN

The Present Skimpy Dresses Are Vastly Improved by Embroidery or Rows of Buttons—A String of Pearls Remains the Favorite Ornament—Overblouses Are Worn by the French.

Styles are a little alarming if one may judge by the evening dresses, which are short, skimpy, decollete, and becoming only to the young and pretty. Long dresses are also being made and many that are short in front show trains behind. The love of the dither is still apparent; some of the newest frocks are all in gold or silver tinsel and are worn with turbans to match and a floating mass of black, brown or grey tulle over them; but they are hardly in accordance with good French taste. Nor is the very short untrimmmed tunic sleeve which is being worn in afternoon dresses entirely happy; it will probably not last long.

Black and white are still popular and are seen in some of the best dinner dresses. They are in many shades and distinctions. White net may be embroidered in black beads to form stripes or straight and crosswise bands; or such a dress may have a tulle note of color in a sash of tulle. Dresses are also made in ivory satin embroidered in black, and the other way round; and the simple form of the present skimpy dress is sometimes improved by embroidery. All trimmings, embroidery, or fringe are used irregularly, just as the skirts and tunics are never even.

For the afternoon there may be a little dress in black satin with short sleeves and open neck, and over it a long black tulle coat. The hat may be one of the new ones with a brim much wider in one part than another, and encased by a bunch of feathers, or more regrettably aggressive. Dresses

and coats are straightwaisted and some dresses have becoming draped neckbands. Tunics are popular, as they allow of economical arrangements. Gloves are almost all gauntlets, and boots have cloth tops or are in suede.

DO YOU KNOW THAT—

Bread dough in the pans is ready to bake when it has risen to nearly double its original size?

A layer cake can be spread with jelly and sprinkled with sifted rice and prepared coconut?

Ventilators covered with cheesecloth solve the question of fresh air for a great many homes?

The six absolute necessities for health are cereals, fresh vegetables, fruits, sugar, fats and milk?

You can save rice water to make pudding with, and cook the pudding all day in the tireless cooker?

When paraffin is taken off the top of jelly, etc., it should be melted at once to free it from the fruit?

You must heat raisins before storing them? They can then be easily split and the stones removed.

A white stocking drawn over a sleeve board makes an excellent cover, which requires no tacks to keep in place?

MODES OF THE SEASON.

It is predicted that organdies will be worn more than any other summer fabric next season. Heavy silks used for sport skirts are worn with blouses of sheer material, with the collars and cuffs of the skirt material.

Blouses of the palest pastel yellow are shown in Georgetown. Flowered and figured Georges are very much liked for the early spring dresses.

Very small scarfs of fur will be worn with the early spring suits. Fisher and sable will be the furs preferred.

Linings will continue to be the brightest note in relation to the new suits. The prettiest pink crepe fingerie has no self-trimming.

Golden yellow is used for the vests on navy blue suits. A dark blue silk umbrella has a round gray wood handle.

Most of the new spring shades are light and rather dull. The new "calico hat" is made of silk printed in calico design.

The high, plain black toque is popular for afternoon wear. Ribbons will be much used on the spring millinery and dresses.

The Paris overblouse is shorter than that of domestic origin and is also slightly fitted and unbelled.

Surf satin will be one of the well thought of materials for the spring wash skirt. Fine embroideries are combined with Georges for some of the newer blouses.

If sugar is to be added to cooked dried fruit add it after the fruit has cooked a half-hour, else it will cause the fruit to become hard?

Chocolate butter icing is made of one-half cup butter beaten to a cream, one-half cup of honey beaten into one cup of sifted confectioner's sugar and two ounces of chocolate melted over hot water?

A chop suey dressing is made of equal quantities of dates, figs, raisins, nut meats and almonds chopped; then blended with maple syrup and marsh-mallow paste and allowed to stand to ripen?

REST FOR CENTRAL ANYWAY. A cruel hoax was perpetrated on the women of St. Louis the other day. Some practical joker called scores of them up on the phone and in an official manner notified them that the board of health had decided to blow out all the telephones in town, and ordering them to place damp towels over the receivers to prevent the germs from spreading. The cause of the strange silence that prevailed for hours was finally discovered and freedom of speech restored to indignant subscribers.

BRINGING UP FATHER.

GO GET DRESSED—I'M GOING TO START TAKING SINGING LESSONS AND THE TEACHER WILL BE HERE ANY MOMENT.

ARE YOU SURE AT ALL OUR NEIGHBORS?

I'LL LOCK THE PIANO AND THROW THE KEY AWAY—HELL NOT GIVE HER A LESSON IF I KIN HELP IT.

WELL—ARE YOU READY FOR YOUR LESSON?

YES, INDEED!

OH! IS THAT THE TEACHER?

WHERE DID I THROW THAT KEY?

TO MOTHERS! Nothing else "works" the nasty bile, the sour fermentations and constipation poison so gently but so thoroughly from the little stomach, liver and bowels like harmless Cascarets. While children usually fight against laxatives and cathartics, they gladly eat a candy Cascaret. Cascarets never gripe the bowels, never sicken. Each ten cent box of Cascarets contains directions for dose for children aged one year old and upwards.

ANNA CASE TO BE HEARD IN CITY

I. O. D. E. and Other Patriotic Organizations Assisting With Sale of Tickets—Plans Made at Meeting Yesterday.

St. John is to have the privilege of hearing a singer of note, Anna Case, a member of the Metropolitan Opera Company. This is to be made possible through the efforts of the G. W. V. A., who are arranging for a concert at which Miss Case will give a recital.

Members of the I. O. D. E., St. Monica's Society, the Y. W. P. A., and the Soldiers' Wives' League were called by Kenneth Christie of the G. W. V. A., to attend a meeting held in the veterans' rooms, and each representative took tickets to sell for this musical treat. Mr. Christie provided and told of the arrangements made for the concert.
