FARM LOANS for SOLDIERS

The Soldier Settlement Act

Purpose

To assist ex-service men who desire to make farming their permanent occupation, and who, it is considered, are qualified to make a success of the farming business.

Procedure

The returned soldier who seriously intends to adopt farming as his life work, and desires financial assistance to purchase land, live stock, and equipment, may receive full information and instructions how to proceed from the representative of the Soldier Settlement Board in the district in which he resides.

Financial Assistance Available

Loans may be granted qualified settlers, according to their needs, on the following basis—

- (1) Up to \$4,500 on the purchase of land for agricultural purposes or the discharge of encumbrances;
- (2) Up to \$2,000 on the purchase of live stock, implements, and other equipment;
- (3) Up to \$1,000 on the erection of buildings.

Interest at the rate of five per cent. will be charged.

Who Are "Qualified"

The qualifications of all applicants are investigated by an Agricultural Qualification Committee, composed of men of superior standing, who understand the farming business. All applicants are required to appear in person before the Committee in their district.

Military Service.—Any person who served with an honourable record:

- (a) In the Canadian, Imperial, or British Colonial forces in an actual theatre of war, or (except in U.S. or Bermuda) outside of the country in which he enlisted;

- (b) In the forces of any of His Majesty's Allies in an actual theatre of war, if he was a British subject resident in Canada before the war;

- (c) In the C.E.F. in Canada only, if he is in receipt of a pension for disability occasioned by such service.

These benefits are also granted to widows of such men.

Other Qualifications.—After an applicant's eligibility, from the standpoint of military service, is determined, the Committee will investigate his physical condition, general fitness, and agricultural experience. An applicant must satisfy the Committee that he is aware of the individual responsibility resting upon those who would engage in farming successfully, and that he has the required energy to carry on farming in a successful manner. A Qualification Certificate is issued to qualified applicants. Agricultural training is available for men who fail to receive a Qualification Certificate only through lack of sufficient practical farming experience.

All Qualified Men Assisted

The applicant, after securing a Qualification Certificate, may then apply to the Loan Advisory Committee for financial assistance. Should he desire to purchase land he may indicate the particular parcel of land which he desires to acquire. The Committee will appraise the land with regard to its agricultural possibilities, and if it is satisfactory and its value is in keeping with the soldier's ability to comply with the financial requirements of the Act, the land may be secured.

Equipment

The Loan Advisory Committee also determines the amount of loan to be granted to the soldier settler for the purchase of live stock and implements, and the erection of necessary buildings in keeping with the settler's absolute need. The Soldier Settlement Board has made arrangements to secure these needs for the settler at specially low prices.

Supervision

The Soldier Settlement Board has a staff of agricultural advisers, whose duties are to promote the prosperity of the soldier settler by timely advice and assistance. It is also enlisting the co-operation of experienced and successful farmers, located near at hand, who will direct and assist the settler to make a success of his undertaking.

Special Transportation Rates

The Railway Companies of Canada have offered special rates to soldier settlers who travel for any of the following purposes:

- (a) First trip to appear before Qualification Committee, to work with farmer, to attend an agricultural school or to look for land;
- (b) To return to his home for the purpose of transporting his family or goods to his farm.

The rate will be allowed on the production of a certificate issued by the Soldier Settlement Board.

HAWK NO MATCH FOR CROWS

Cunning Creatures, by Clever Strategy, Stole Titbit From the Claws of Bird Prey

Travelers in the Orient have much to say about the Indian crow, a bird that for uncanny knowings and pranks and audacity has perhaps no equal.

Corvus splendens—thus have ornithologists labeled him; but a famous naturalist who knows the breed at first hand has called them "hundreds of Satan, cinders from Tartarus." To give these impish creatures their due, however, it should be said that life in India is not a little enlivened by their presence. Here is a characteristic incident in this relation:

A small hawk had seized a little bird and perched on a leafless branch to devour his prey. The spectacle drew two crows to the spot. They hopped and flapped from branch to branch, noisily discussing the strategy of their intended raid.

Then one of them quietly slipped away through the surrounding foliage. At the same time his mate flew in front of the perching hawk, and hovering steadily within a foot of his beak maintained a bustling menace of snatching the titbit.

That effectively compelled the attention of the hawk. His prey grasped firmly beneath his feet, he angrily hissed and lunged at the hovering nuisance. So lively was the skirmish that the human onlooker forgot the existence of the second crow. But now that wily bird reappeared some distance in the rear of his destined victim.

With stealthy steps and short, noiseless flights he drew near. Then he made a swift dash, seized the hawk's long, barred tail by the tip, hung on with his full weight and toppled the luckless hawk in a complete back somersault from the branch. The released titbit was instantly seized by the first crow, and the clever pair bore off their booty with much triumphant cawing.

Students Adopt French Orphans
To the progressive students of the St. Thomas Collegiate Institute go the honors of establishing another British precedent by their commendable action in adopting four French war orphans since the termination of hostilities. One of the little unfortunates has been adopted by the patriotic organization of the school another by the Girls' Club and the other two by the Boy's Club.

This will enable four more fatherless French children to remain under the care of their mothers in place of being sent to institutions. The pupils of the Collegiate will each contribute certain amounts monthly for their little cares and will make the amount large enough to cover immunity from hunger and privations both for the children and their mothers.

Hydraulic Cartridges
It is often difficult and sometimes dangerous to use ordinary explosives for mining and excavating in confined spaces, a fact that has led to the development of the hydraulic mining cartridge.

The cartridge consists of a steel cylinder containing numerous small pistons that move at right angles to the axis of the cylinder and expand when water is injected into them. A hand pump, after drilling a deep enough hole the workmen insert the cylinder and then set to work to the hand pump.

The tiny pistons expand until their free extremities bear against the mass of rock with constantly increasing force and the rock is gradually fractured under tremendous pressure. The operation, it is not only cheaper than the ordinary blast but disintegrates a larger area of rock.

Ald. Clement is Honorably Acquitted.
No further evidence was submitted by the Crown in the case of Ald. J. Harvey Clement in the Brantford Police Court yesterday morning the defendant being charged by George Tomlin with the acceptance of bribes to procure exemption for Tomlin, Magistrate Livingston recorded an honorable acquittal in the case.

J. V. Bowley, J.C., appeared for Tomlin three quarters of an hour after court opened, and protested against the decision, but was told that he was telephoned to and should have been on hand if he had any further evidence to offer or objections to raise. Magistrate Livingston declared that it was an outrage that a charge of such a nature should have been permitted on the evidence which he had brought before him.

The defendant Ald. Clement himself took the stand and made specific and absolute denials of the statements made by the complainant, Tomlin. He stated to the court that he had not received any money from Tomlin on any occasion.

After the case had been disposed of Mr. Bowley stated that, in his opinion there had been a gross violation of justice. "He has not been heard of it," he declared "as I shall institute a proceeding against Clement to recover 700 dollars."

THE HUI

"This Picture Was Made"

I AM six months old today, and I thought I would have my picture taken. Hope you will like it. I ought to be good, as I have had a bath, finished drinking a glass of milk, and now I am lying in bed, so what more could a five-dred pound youngster ask? My mother thinks I'm pretty whether any else does or not, and she ought to know as she has known me ever since I was born. I am so fat and my legs are so short, that when I lie down I feel just like lying there forever, never getting up anymore. But mother says I must take exercise, or I'm grown I won't have a graceful form like hers, and that would be awful, wouldn't it? My complexion is a sort of a reddish-pink, and I am millions of tiny bumps all over my skin, that you might think was the measles, but they are not as everybody in our family has them, so I leta call them "beauty spots," and

THE JUNIOR COO

CORNMEAL MUSH

Three cups of water.
Three-quarters teaspoon salt.
Put in a two quart pan and boil to a boil.

Just before the boiling begins, w the bubbles are ready to dance from the bottom, shake in very slow One cup of yellow cornmeal.

Stir till smooth and then cook ten minutes over a slow fire.

The success of this cornmeal depends on adding the cornmeal gradually just before the water boils, done right the mush will be smooth and delicious.

Serve at once with cream and brown sugar.

This makes a nourishing dish, lunch or supper and is very quick prepared. This amount serves large dishes.
