regularly and know what a valuable paper it is to have in your home. Perhaps your neighbor does not take it. If he does not, point out to him that he can secure the paper every week of the year for only \$1.50. Tell him what you think of it yourself, and you will have no difficulty in securing his name. Send us the names and money and choose your own premiums.

### Saving Money

Observe the following illustration of two ways of saving money—which is the better?

A wage-earner placed \$25.00 in the Savings Bank, intending this deposit to be the first of many. A few weeks afterwards he died, and his widow received the \$25.00, with a trifle of interest.

A fellow-worker also deposited \$25.00—but in Life Insurance. He died—and his widow immediately received \$1,000.

Life Insurance offers the surest way of providing for dependent ones, and the *ONLY* way within the reach of the great majority. The Great-West Life Policies provide such Insurance on most attractive terms. Rates are low, and profit returns to Policy holders are remarkably high.

### HOW TO BUILD A GOOD FENCE

Everyone intending fence building should send for our folder on Erecting Fences. It's full of valuable information on fence building, tells how to erect woven wire fencing quickly and substantially, describes the manufacture of fence wire and has an article quoted from bulletin of U. S. Dept. of Agriculture on concrete post making, showing how these durable posts can be economically made at home. Don't fail to write for a copy. It's free.
