Two Little Savages

By **ERNEST THOMPSON SETON**

Author of "Wild Animals
Known," "Bird Portraits"

THIS is Mr. Seton's latest and best book for boys, telling in story form just how to camp out, how to build dams, how to know the animals and birds, how to make and shoot bows and arrows—and all the other facts of "woodcraft" which the author has learned in his lifetime of outdoor work and study. It is an interesting and permanent work. The details of the book have been designed by Mrs. Seton, and it is altogether original and practical. *Over 300 illustrations by the author.*
