

Synopsis of Canadian North-West Land Regulations

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 80 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

"Water, Water, Everywhere," And Comfort for You and Your Wife

In the stables, in the house, in the garden; clean, pure, fresh water at all times, summer or winter. No more heavy lifting and pumping for yourself or your wife. No more unsanitary attic tanks. Water any place on the farm—without work—without trouble—with little expense.

PEERLESS WATER SYSTEMS

save time, labor, doctors' bills, and inconvenience; they bring city comforts to the farm, make bath rooms, laundries and running water in any part of house, barn or fields possible. Compact, strong, simple, require little attention and cost almost nothing to operate.

Water is pumped from source of supply to tank located in cellar, outhouse, or underground. Then held under air pressure which purifies and forces it to wherever you run the pipes in house, barn or garden. There's no cost of operation beyond the filling of the tank, and when desired the engine used for this purpose can be used for driving cutting box, churn, separator or other machines on the farm.

Aylmer Scales

Always Ready—Always Steady—Always Right

A farmer can get along without scales just about as well as he could get along without bushel baskets, quart, gallon and peck measures. A farmer without scales—really accurate scales—is absolutely in the dark as to the accurate value of the things he buys or sells by weight. Guessing at weight is poor business. AYLMER SCALES are built and sold on the square. Very strong, they outlast others. Their accuracy is guaranteed—Government stamp on every one. We are making special offers on all kinds of scales—small ones, and all the way up to ten-ton scales.

Send for a catalogue. Ask for our new prices and special terms for cash or time payments.

The Help Problem

in the farm is solved by the telephone. It enables the farmer to obtain help when it is needed, a very important necessity these days. We have a very interesting bulletin, "A Telephone on the Farm." It explains how every farming community can build and own its independent telephone system cheaply. It tells you how to get market and weather reports, the latest news, etc. It will be sent free if you write for Bulletin No. 1011.
