

Announcing New Series Model 75-B

Overland
TRADE MARK REG.

\$890

Roadster \$870

f. o. b. Toronto

This newest Overland is the world's most powerful low-priced car. It has a $31\frac{1}{2}$ horsepower en bloc motor that is a perfect marvel for speed, power and endurance. By increasing the bore of the motor from $3\frac{1}{8}$ " to $3\frac{3}{8}$ " we are able to offer a power plant which at 1950 R.P.M. develops full $31\frac{1}{2}$ horsepower.

Tests under every condition in all parts of the country demonstrate that it easily develops better than 50 miles an hour on the road.

Speed of course varies under different conditions, but in practically every instance it has been getting fifty miles an hour and with ease. We have scores of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual.

The performance of this car is almost beyond belief.

Take any other low priced car on the market. Pit it against this new Overland. Compare them for sheer speed, for abundance of

power, for riding comfort and economy, and you'll find this car will back anything else clean off the boards.

That's a strong statement, but a fact nevertheless.

Try it yourself and see.

Here are more important facts.

It has four-inch tires which are more than generous for a car of this size.

Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body.

Catalogue on request. Please address Dept. 582
