

# One Home in Five

Has Someone Cured by Liquozone. Won't You Try It—Free?

We judge from our records that one home in five, the country over, has some one whom Liquozone has cured. Some have been cured of little ills; some know that their lives have been saved by it.

These homes are scattered everywhere. Your neighbors and friends live in some of them. If you will only ask about Liquozone there are plenty to tell you about it. It is wrong to stay sick with a germ disease while millions know that Liquozone can cure it.

And any sick one, anywhere, may try it at our expense. We will gladly buy the first bottle—a 50c. bottle—and give it to any sick one free. You don't need to rely on those who were cured by it. You may test it, without a penny of cost, for yourself.

Won't you—for your own sake—do one or the other? Won't you let your friends tell you how it cured them, and how it constantly keeps them well? Or, won't you let us buy you a bottle and see what it does for you?

## What Liquozone Is.

Liquozone is a product which in the past two years has sprung into worldwide use in the treatment of germ diseases. It is now used by the sick of nine nations; by physicians and hospitals everywhere. It is constantly used in millions of homes in America.

The virtues of Liquozone are derived solely from gas, made in large part from the best oxygen producers. No drugs, no alcohol—nothing but this gas enters into it. The process of making takes 14 days, and requires immense apparatus. At the end of two weeks we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used. The attainment of this product has, for more than 20 years, been the constant subject of scientific and chemical research.

The main result is, to get into a liquid, and thus into the blood, a powerful, yet harmless germicide. And the

product is so helpful—so good for you under any condition—that even a well person feels its instant benefit.

## We Paid \$100,000

For the American rights to Liquozone, and the rights in other countries have sold for proportionate sums. We mention this fact to indicate the value of Liquozone—the value to you. Men have never before paid such a price for any discovery used in the cure of sickness.

We need not tell you that we proved Liquozone well before buying it. For years it was tested through physicians and hospitals, in this country and others. It was employed in every stage of every germ disease; in all the most difficult cases obtainable. With thousands of sick ones, considered incurable, we proved that it did what medicine could not do. Then, and then only, did we pay the price.

Since then we have spent nearly \$2,000,000 to make Liquozone known. We have bought the first bottle and given it free to every sick one we learned of. These people told others, and the others told others. The result is that Liquozone is now more widely employed than any medicine ever was. And no one can doubt that it is doing more for sick humanity than all the drugs in use combined.

## How Liquozone Cures.

The greatest value of Liquozone lies in the fact that it kills germs in the body without killing the tissues too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. For that reason, medicine is almost helpless in any germ disease.

Liquozone is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. Yet it is not only harmless, but of

wonderful benefit—better than anything else in the world for you. No one is so well that he cannot be helped by it.

The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter. To the human body Liquozone is exhilarating, vitalizing, purifying—the most needful, the most helpful thing possible. But to germs it is certain destruction; and these facts are true of nothing else in existence.

## Germ Diseases.

These are the known germ diseases; all due to germs or to the poisons which germs create. These are the diseases to which medicine does not apply, for drugs cannot kill inside germs.

All that medicine can do for these troubles is to act as a tonic, aiding Nature to overcome the germs. But those results are indirect and uncertain, depending on the patient's condition. A cure is always doubtful when drugs are used, and some of these diseases medicine never cures.

Liquozone alone can destroy the cause of these troubles. It goes wherever the blood goes, so that no germ can escape it. The results are almost inevitable. Diseases which have resisted medicine for years yield at once to Liquozone. "Incurable" diseases are cured by it. In any stage of any disease in this list the results are so certain that we will gladly send to any patient who asks it an absolute guaranty.
