

# An Index to Profitable Buying and Selling in 1917

Here we are, face to face with another year. Let us make the most of 1917—the most of our ability to produce big crops—the most of the sources through which we can sell to the best advantage, and the most of a varied market in buying our farm needs. But through all this, let us not forget that each transaction made either helps or hinders all other farmers, as well as ourselves, to obtain the greatest benefits through co-operation. "Co-operation" is merely another way of saying, "The Grain Growers' Grain Company Limited."

## Farm Machinery

- Plows
  - Walking
  - Sulky
