

CASE

"Better Be Safe Than Sorry"

When buying power farming machinery, take no risk. — Invest your money safely — Buy Case Machinery.

When you select a Case Tractor or Thresher you are buying a product that is built honestly and carefully — a product that is built to uphold a name, one that is built right; that is neither too small, too light, nor too cheap. You are buying a product that is the choice of all thinking and studious farmers.

The Case 10-20 Tractor, like all other Case Tractors, holds top place in the Tractor field. Its motor is especially Case designed and Case made. The Case 10-20 is simple, efficient, economical and noted for its constant responsive power. It is adapted to all farm work—drives a 20x36 Case separator or hay baler, hauls, operates a silo filler, etc., etc.

A Case 10-20 Tractor with a Case 20x36-inch Thresher forms an ideal combination. The all-steel construction of Case Threshers that make them fire, wind and water-proof; the ease of operation, the strength of the cylinders that enables them to handle damp and tough grain, together with the fact that Case Threshers get the greatest amount of grain out of the crops, have made farmers who seek capacity, durability and easy running qualities, prefer them to all others.

Case builds five sizes of tractors and seven sizes of threshers.

There is a combination suitable for every size farm.

Their efficiency and simplicity make it desirable for every farmer to own a threshing outfit.

Engine Owners, Attention!

The Crouch Vaporizer with Kerosene Attachment

Why use expensive fuels? Use kerosene or distillate. More power units, half the cost, less danger, and longer life to the engine. Converts nearly all classes of the gasoline engine for the use of these heavier fuels.
