Ex-Governor Sulzer

Has Entered on a Vigorous Campaign to Get Into the State Legislature.

(Canadian Press Dispatch)

NEW YORK, Oct. 23.—William Sulzer last night entered upon the campaign which he hopes will result in his return to public office as an assemblyman in the state legislature.

he announced, he would ask Murphy a given question, which he requested Murphy to answer. John A. Hennessy, who acted as special investigator for Sulzer, Governor, resumed his speech-making in a series of speeches in the sixth assembly district, where he is the candidate on the Progressive ticket.

GERMAN EMPRESS IS DEEPLY INTERESTED

In the Endeavor to Combat the Scourge of Tuberculosis—Takes Active Part in the Work.

(Canadian Press Dispatch)

BERLIN, Oct. 23.—The deep interest taken by the German Empress in the endeavors to combat the scourge of tuberculosis was displayed to-day when she attended the formal opening of the International Tuberculosis Conference here at which delegates from twenty two nations are in attendance.

human body and the results of the study of consumption. Dr. Hans Much, of Hamburg, director of the institute for the investigation of tuberculosis, declared that the conclusion he had come to was that immunization against tuberculosis by cultures of living bacilli or by vaccination with dead matter was rarely successful because of the composite character of the tuberculosis bacilli.

ENQUIRY INTO THE ESCAPE OF H. THAW

NEW YORK, Oct. 23.—Twenty witnesses were under subpoena to testify before the Supreme Court jury, which met to-day for an investigation of the charges of conspiracy in connection with the escape of Harry K. Thaw from the state hospital for criminal insane at Matteawan on August 17th.

residents of Matteawan and New York, through whom Mr. Jerome hoped to show a conspiracy existed. Counsel for Thaw on the other hand were prepared to make strenuous efforts to prevent an indictment on the ground that he is insane and therefore could not be called to trial. This stand will be the basis of Justice Seabury's recent ruling that Thaw was an insane person, when called as a witness in the recent investigation of charges against John N. Anhalt.

South Bruce Contest

Mr. Weichel, the German Member of Parliament, Makes a Patriotic Speech.

WILDMAY, Ont., Oct. 22.—Arguments in favor of the Government's naval policy were vigorously presented by Hon. Martin Burrell, Minister of Agriculture; W. G. Weichel, M. P. for North Waterloo; and Hon. Geo. Crae, M. P. for South Waterloo, at a large meeting here last evening, at which many electors of German extraction were present. Arguments were lustily applied. So was the rebuke handed out to those who have been seeking to oppose opposition to Mr. W. D. Carvell, the Conservative candidate for election as member for South Bruce, by representing the Borden policy as an effort to arm Britain against Germany.

Mr. Weichel first outlined the cause giving rise to a bye-election, namely the promotion of Mr. J. J. Donnelly, South Bruce's former representative in the Commons, to the Senate. He then spoke of the naval question, "I am proud to be of German birth. I am proud of my E. W. D. U. P. E. I am prouder still to be a Canadian and a citizen of the Empire." Mr. Weichel said that Britain's aim was to promote peace and that she required a large navy, just as Germany required a large army. Germany needed a great land force because she was surrounded by possible foes, so he asserted, Britain cannot stand still, or we shall suffer the consequences.

The Midway meeting was held in the Town Hall, which was decorated with streamers. It was attended by several hundred people, although a heavy rain fell all day.

Mr. R. E. Truax, the Liberal candidate, spoke at Ripley on behalf of Mr. R. E. Truax, the Liberal candidate. The Midway meeting was held in the Town Hall, which was decorated with streamers. It was attended by several hundred people, although a heavy rain fell all day.

MANY MINERS ARE ENTOMBED IN MINE IN NEW MEXICO

A Cave-in Followed an Explosion—Brave Men are Hard at Work in an Effort to Rescue Them.

(Canadian Press Dispatch)

DOWNSON, N. M., Oct. 23.—Between 200 and 250 men were still entombed early to-day by a cave-in, which followed the explosion yesterday in the No. 2 shaft of the Stag Canon Coal Mine.

depths for the rescuers to go on. The federal rescue train which started from Denver is due here at noon. Another is coming from Rock Springs, Wyo., and a third from Pittsburgh, Kan. Before they arrive, however, it is expected the volunteer rescuers organized here will have reached the entombed men.

During the night 14 dead and 22 injured men were taken from the mine. During the all night fight with the debris, the rescuers penetrated to the fourth level, about a mile into the side of Black Mountain and they yet were far from the remaining victims. The 23 who were rescued before daylight were picked up along the levels in ones and twos and could only point the way onward to the

1500, composed for the most part of Italian miners. The news of the explosion carried over the Buttes and Arroyos of the mountains gathered most of the settlers and ranchers within 50 miles and when morning broke to-day thousands filled the town eager to help the 300 or more miners who had worked in the depth of the mountain in short shifts all night. From the hour of the explosion until nearly midnight gas filled the levels, making it sure death to enter without an oxygen helmet. After midnight the air which had been steadily forced into the mine began to gain and it was possible to increase the rescue force.

The Stag Canon Mine was considered a model of coal mine engineering but the disaster that befell it yesterday has staggered this town of

VERY ENCOURAGING ARE CROP REPORTS FROM THE WEST

Manitoba Records Decidedly Better Results as to Quality--Saskatchewan in Best Position of Her History.

(Canadian Press Dispatch)

WINNIPEG, Man., Oct. 23.—Awaiting reports from 76 points, Manitoba has a good average crop as to yield and decidedly more than an average crop as to quality. Threshing is complete, a very large amount of grain has been moved, the weather has been good throughout and no delay. The coarse grains are not so satisfactory as wheat. There are yields of from 25 to 30 bushels per acre, nearly all in the north where the acreages in wheat are not so large as in the south and centre. In the south and centre are found 13, 14, 15 and 16 bushel acreage. So far as Manitoba is concerned, her grain is safe, being all threshed, a large percentage shipped and the balance in store, either in home granaries or local elevators. Not only is the crop of 1913 safely gathered but

preparations are well completed for early seeding of the crop of 1914. Fully eighty per cent. of the fall ploughing is done. There was a large percentage in summer fallow and also an addition of about 3 per cent. newly broken land. At about 15 points, elevators have ceased to ship wheat and are filling up for winter storage. The spread between the street and the track price has averaged about 3 cents which is considered not an unreasonable spread when there is any question of not getting the wheat to lake ports before the close of avigation.

to-day than ever before in her history in regard to threshing operations, movement of the crop, condition of the labor market, and supply of transportation facilities, according to statistics received at the provincial department of agriculture. Figures show that the amount of grain shipped out of three Western Provinces during the months of September and October is more than double the amount shipped last year. Conditions which prevail in other provinces are also evident in Saskatchewan, where with a crop that composes fifty per cent of the entire Western shipment, the situation is reported to be favorable in the extreme. Telegraphic reports received from correspondents of the department throughout the province show threshing is nearly completed. From only a very few points is there any report of any shortage of cars and the condition of the labor market is also of a most encouraging nature.

CONTINUES TO DIG GARDEN WHILE HOUSE READY TO BURST IN FLAMES

(Canadian Press Dispatch)

LONDON, Oct. 23.—The London morning newspapers devote much space to Chancellor Lloyd-George's land scheme, which is vaster and more far-reaching than had been anticipated. It is expected to involve an appeal to the country as soon as the Home Rule Bill is safely through the final stages at the next parliamentary session.

astros effect of land monopoly and of the divorce of the people from the soil. The Daily Mail speaks of Mr. Lloyd-George's "wild promises," which, it says, are now at a heavy discount in the public eye. It adds, has not forgotten that the Chancellor's land taxes, which were to have provided funds for old age pensions and drought-reliefs, yet actually yielded a dead loss to the nation of \$5,845,000 in four years.

lady's land campaign as an effort to distract attention from the gravity of the situation in Ireland. It declares that while the problems of rural England are of the deepest interest to all, any Minister who deliberately concentrates attention on such problems while Ireland steadily draws nearer the verge of civil war must be mad, adding: "Mr. Lloyd-George yesterday resembled a man who continues to dig his garden when his house is on the point of bursting into flames."

PRESIDENT WILSON BUSY

With Regard to the Attitude of John Bull Towards Mexico.

(Canadian Press Dispatch)

WASHINGTON, Oct. 23.—Developments attending General Felix Diaz's attempts to campaign for the Mexican presidency and the latest turn in the situation between Great Britain and the United States over the former's attitude towards Mexico, engaged the attention of President Wilson and Secretary Bryan in conference during the day. The disposition of all officials here to maintain absolute silence with regard to the inquiries by Ambassador Page at London indicated that the whole affair was handled in the quiet realm of diplomacy and no expressions of policy were looked for on the subject either from London or Washington. There was confidence that further and more intimate discussion of details would result in a friendly understanding, but in the meantime every effort is being made to envelope the incident in secrecy.

approach, the administration here is in a waiting mood. Huerta's attitude towards the alleged interview with the late president, belied another announcement from the American Government pointing to the inability of his government to conduct a free and fair election may be accepted. Meanwhile constitutionalists are reported to be making every effort to establish a civil government so as to strengthen their claims for recognition or at least to moral support for their cause.

Upon advice from the embassy at Mexico City of the arrest of Faniel and Evaristo Madero, brothers of the late president, Secretary Bryan today directed Charge O'Shaughnessy to use his good offices with the Huerta Government to obtain a fair trial for the two accused.

A Blanket Indictment

(Canadian Press Dispatch) NEW YORK, Oct. 23.—A blanket indictment charging Harry K. Thaw and others with conspiracy in connection with his escape from the Matteawan State Hospital for the Criminal Insane, in August, was returned by the grand jury here this afternoon. It will be used as a weapon by William Travers Jerome in his effort to extradite Thaw from New Hampshire.

minister in Guatemala. Should the United States object to what he is credited with saying, it is pointed out that the usual course would be for Washington to inquire from the American representative in Mexico as to the accuracy of the report before making representations to this country.

Two Former Bankers Give Evidence at Kingston

They Are Now Serving Time and Make Suggestions as to Improvements in the Penitentiary at That City.

(Canadian Press Dispatch)

KINGSTON, Ont., Oct. 23.—Two ex-bankers and a former real estate agent, at present doing time in the penitentiary, were called by the Royal Commission yesterday with a view to getting the convicts point of view on how conditions in the penitentiary could be improved. There was striking unanimity of opinion on the desirability of allowing the men to use a stipulated amount of tobacco under reasonable restrictions.

got a little of the "weed" occasionally, and it was a common practice of the guards to give the convict a small amount in spite of the regulations. Commissioner Downey was apparently impressed with the severity of the rule against tobacco and expressed the opinion that it was too stringent. The witnesses were all good conduct men, expecting to be paroled sooner or later, and they would not voice any complaints against the administration. One convict told of having seen one man strapped on the striggle and being whipped. He did not think the punishment very severe and he had been told, he said, by a convict who was so whipped that it did not hurt much.

Asked about the use of the hose on convicts he said he did not think it was ever used as a means of punishment, but might be utilized to compel refractory inmates to come out to prevent the convicts from getting tobacco. And some of them used to break any rule and risk almost any punishment to get a chew of tobacco. In fact he went so far as to say that it was impossible to get satisfactory work out of the inmates unless they

In answer to a question by Dr. Edwards, M.P., witness F 173, surprised the commission by giving Deputy O'Leary a splendid recommendation. He thought he was just the man for the job combining "dignity, kindness (Continued on Page 6)

FIVE KILLED AND SEVEN INJURED IN BIG RAILROAD SMASH-UP

(Canadian Press Dispatch)

NORTH BAY, Oct. 22.—Five were killed and seven injured on the C.P.R. main line near Weyland station, west of Chapleau, yesterday, when a work train returning to a gravel pit collided head on with an eastbound freight train, piling engines and cars up in a mass of wreckage, in which were entangled the crews of both trains. The following are dead:

Two laborers of the work train. E. J. Moore, conductor of the work train; Foreman Johnston of the work train crew; and Fireman G. Stewart are badly injured and may not recover. Four others, laborers, are injured, but will recover. The dead and injured men resided in Chapleau. The accident was caused by a misunderstanding of orders on the part of the work train crew. The approach of the second section of the freight train having been ignored after the first section had passed.

Big Addition To Natural Gas Supply

Mr. Lowry, general manager of the Dominion Natural Gas Company, with headquarters at Buffalo, is in the city. He announces that their pipe line will be completed through to Brantford from the new western field near Tilbury within three weeks. This added source will serve to give practically an unlimited supply to Brantford, so that there should be no trouble this winter.

STATUS OF TEACHER MOTHERS

Subject is Under Consideration of New York Board.

(Canadian Press Dispatch)

NEW YORK, Oct. 23.—The status of the teacher-mother in New York public schools is still under consideration by the board of education, with the report current that ultimate dismissal of all teachers of this class is the aim of the board members. From a list of fifteen teachers who had absented themselves from school to become mothers since January last, it was found that nine had already presented resignations and only two of those named are now in the schools.

The lists made up by the various district superintendents at the request of the board after the recent dismissal of Mrs. Bridget Peixoto because she became a mother, names Mrs. Helen L. Becker, wife of Charles Becker, the convicted police lieutenant, as one woman who absented herself from school for maternal reasons. Her child did not live and Mrs. Becker is one of the two teachers reinstated.

BRITISH MILITANT SUFFRAGETTES

Set on Fire and Destroy a Sport Pavilion.

LONDON, Oct. 23.—An "arson squad" of militant suffragettes today set fire to and destroyed the sports pavilion of Bristol University. They left the usual tall-tale suffrage literature scattered about the grounds. The public prosecutor decided today that he would not proceed against "General" Mrs. Flora Drummond, who was taken ill in June last while proceedings were in progress against her for infringement of the malicious damage to property act.

Spanish Crisis

Situation Has Never Before Been Quite So Complicated.

(Canadian Press Dispatch)

NEW YORK, Oct. 23.—A cable from Madrid says: Both in government and political circles it is admitted that the situation has never been quite so complicated as at present. The King arrived yesterday from Biarritz, where he underwent a slight operation, and had a long conference with Premier Romanones. It is generally believed that a Cabinet crisis will certainly supervene before the end of the week, the efforts made by the King having failed to reconcile the factions of the Liberal party. What the solution will be even the most experienced politicians fail to foresee.

The Opening Concert

The opening concert of the Borden Club will take place to-night, the program including singing, recitations and instrumental music. This will be a most enjoyable evening without any doubt, and are cordially invited.

LONG FLIGHT

BERLIN, Oct. 23.—The German aviator Schlegel yesterday made a flight of 911 miles, carrying a passenger, in landing at Lubau, in east Prussia, in a three-flop, the nose of his aeroplane was broken.
