## "DO IT NOW!"

With natural gas at reasonable rates, there should be a great future ahead for Chatham, especially as a desirable place for the establishment of industries. Chatham has, now, a good lot of thriving industrial concerns, but there is always room for more. No city can have too many. They promote prosperity, in every sense of the term. They increase the wealth of the city as regards taxation; they bring in new families, who have to either rent or build houses; they increase the business of the retailer, and through them more money is put in circulation—and everyone wants to be where the most money is passing around.

With natural gas as an asset, Chatham should be in a position to offer inducements to new industries, which cannot be equalled by many cities in the Dominion. If there ever was a time in the history of this city when a strong, united effort should be made to land factories, it is NOW. The only way in which this will be successful is done is through the medium of a real, live, up-to-date Board of Trade. The Council cannot do it all, and if it is worked properly, a Board of Trade could be made to work in conjunction with the Industrial Committee in a most harmonious and profitable manner.

The time for action is not tomorrow. If steps were taken today to wake up the Board of Trade, it could be re-organized and placed in working order by the time that gas for heat, light and fuel, is delivered at our doors, and everything would be in readiness for a flying start.

Other cities are after—and are getting—advantages, and few of them have advantages to offer equal to those possessed by Chatham. Here things seem to be going by default because there is no one to make it a business to advertise Chatham and her exceptional possibilities.

## A WRONG RIGHTED.

The Supreme Court has done the country a service by sending back the Halifax, N. S., election petition for trial. The hearing of evidence at Halifax went on long enough to show that the election of Messrs. Carney and Roche, and the defeat of Mr. Borden were accomplished by a perfect carnival of corruption. One of the trial judges stated that enough had been shown in the first few hours to unsettle both members. The common impression was that the evidence placed them in great danger of personal disqualification. When that stage was reached Attorney General Drysdale succeeded in convincing the Court that it had no jurisdiction to try the case. Judge Russell had made an order extending the time of trial beyond the statutory period as the Court is may do in certain circumstances. At the trial, however, he decided that his own order was invalid. The sitting members were thus confirmed in the possession of their ill-gotten seat.

An approval was taken to the Supreme Court of Canada and was then heard on Thursday of this week. Rather it was not heard, for the Supreme Court judges unanimously allowed the appeal on the face of the record without asking the appellant's lawyer to make any argument against the Halifax decision. They heard a long argument in favor of the decision of the trial judges, and without calling upon Mr. Lovitt, counsel for the petitioner to reply, they sent back the case to Nova Scotia to be tried. It is therefore as good as settled that Messrs. Roche and Carney will lose their seats and that another election must take place in Halifax.

The Court also heard the appeal against the decision of the trial judges in the election case against Hon. Mr. Fielding. This appeal asked that the trial Court be ordered to hear the evidence touching the payment made by Mr. Fielding between the last election and the one before it, to reimburse Mr. Farrell, Speaker of the Nova Scotia Legislature, for money which he claimed to have spent in the previous campaign. The purpose of this inquiry was to furnish ground for Mr. Fielding's disqualification. He is already unseated.

Do you appreciate what a splendid tonic you have in

## Abbey's Effervescent Salt

You can depend on it to take away the bad effects of fatigue, brain fog, poor blood and build up a run-down system.

25c. and 60c. bottles. At Druggists.

ed for corrupt practices by his agents and has not appealed against that decision.

## Build Up Chatham!

Wake up the Board of Trade!

By the time natural gas is delivered in Chatham for light, heat and fuel, the Board of Trade and the Council should have industrial propositions waiting to be voted upon.

There never was a time when Chatham had such excellent advantages to offer manufacturing concerns. Everybody doesn't know this. Why?

Hon. Mr. Hyman, Minister of Public Works, should visit Jeannette's Creek, and see what a mess was made of the new Government dock, and then he would resign.

The new Government dock at Jeannette's Creek is falling to pieces before it is completed. Work is stopped, for the mere reason that experts say that if the dredging of the channel were continued—even enough to allow a boat to land at the dock—the whole structure would fall into the river. If Mr. Hyman succeeds in convincing himself that it is all right to hold his seat—even if it is stolen—we would like to direct his attention to this matter.

They have queer ideas of justice across the lines. Negroes are permitted to pass the examinations for the bar, but are not protected in their rights in court. A case in point: Miss Annie Thomas, said to be a cousin of the president, was fined \$10 in a Washington city court for refusing to answer the questions of a negro lawyer. She said that she would not reply to a darkey, and after paying the fine left the courtroom laughing. The negro was a duly qualified attorney, and the girl should have been kept on the stand until she answered him. —Straitsford Bessons.

Mr. R. L. Borden has written the Ottawa Free Press, one of the few Liberal newspapers—that have connected his name with the western land deal, in the following emphatic terms:

"The statement or suggestion that I had any connection with, or that I benefited by the alleged arrangement between Mr. Fowler and Mr. Ryan is an unqualified falsehood, and there is not one word in the evidence which would warrant your correspondent in making any such assertion. I never heard of that arrangement until it was recently mentioned in the public press. Your statement that I received a check from Mr. Fowler for \$1,000 is also untrue. I never received any such sum from that gentleman nor any sum whatever for my personal use or benefit."

## Better than a Bank.

There are many temptations to draw money from a bank account.

An Endowment Policy in The Mutual Life MAKES you save. You pay small sums in—you get big sums out.

**The Natural Life OF CANADA**

invests in nothing but non-speculative securities; and being mutual, the policy-holders benefit from every gain.

In 1905—the INCREASE in assets was \$1,075,560.70—in income, \$231,210.01—in surplus, \$179,928.25—and the death rate averaged only 57% of the expected.

For particulars, write the Head Office, Waterloo, Ont.

**GEO. H. REDPATH,**  
GENERAL AGENT, CHATHAM

## AULD LANG SYNE

FROM PLANET FILES OF HALF A CENTURY AGO.

From The Planet files from Aug. 17, 1865, to Aug. 24, 1865.

"We observe that Mr. Nelson Killam, son of Mr. Killam, of the Township of Chatham, formerly printer in this town, is associated with Mr. S. Robinson, dealer in fancy and staple dry goods, etc., Clarkburg, West Va."

"A. T. Stewart has pulled down one of the finest residences on Fifth avenue, New York, and is replacing it with another, which the New York Herald says is to cost \$1,200,000, and is destined to be one of the finest, most perfect residences in the world."

Horace Greeley was reported to have no longer any control over the New York Tribune. In an evil hour he transformed it into a joint stock company, and he was afterwards crowded out by outside influences, said the report.

The program for the Chatham fall races was published. The racing events were to take place in the Mineral Springs Driving Park. Sheriff John Rogers issued the regulations governing the various events, and the following were the stewards: Messrs. David Walker, A. G. Mess and T. R. G. Ratley. Among the trainers who were preparing the horses for the track were Mr. Seth Blair, Mr. W. McQuigan, and Mr. Bryan Brady. For the convenience of the public arrangements had been made to run a steamer from Rankin's dock to the race course on both days of the races.

An old prophet wrote a letter to The Planet stating that there would never be any oil found up London way and that there was no use in drilling for the fluid in that direction. He said that the best oil land would be found from the vicinity of McKays Corners, and on towards the lake, and along each side of the town line between Howard and Harwich.

The steamer Meteor of the Lake

Superior line took fire and was scuttled and sunk.

"The Oil Springs Gazette says that good laborers can make \$1.16 a day in Enniskillen, C. W., and mechanics are not to be had at any price."

"By the arrival of the steamer Moravian we have European dates to the 14th inst. This latest news from the telegraph cable is to the 2nd inst. at noon. The Great Eastern had paid out 1,200 miles of cable when communication with Valencia was again broken. She had proceeded two-thirds of the distance to Newfoundland—1,050 miles—and at the time her signals ceased to reach the shore, was in the deepest part of the ocean."

A Planet representative paid a visit to the Bothwell of fields, and an enthusiastic article on the future of the oil industry in this county appeared in the G. H. J.

"Troops have been sent from Halifax to Charlottetown to enforce submission among the tenantry of Prince Edward Island."

Wheat was selling in some of the Eastern Ontario markets at \$1.03 a bushel.

"He'll Never Set The Tenase on Fire"—Very few know the origin of this common phrase. Many years ago before machinery was introduced into flour mills for the purpose of sifting flour it was the custom of the miller to set the tenase on fire. The tenase or sieve, which was provided with a rim, which projected from the bottom of it, was worked over the mouth of a barrel into which the flour was sifted. An active fellow set the rim of the tenase on fire, by force of the friction against the rim of the flour barrel; so that in fact this department of domestic employment became a standard by which to test a man's will or capacity to work hard, and thus of the fellow, or one deficient in strength, it was said, "He will never set the tenase on fire."

## NEARLY BURNT OUT

Fifty Houses, Two Churches and Public Building At Summerside, P. E. I., Go Up In Flames—Loss \$200,000.

Summerside, P. E. I., Oct. 12.—Fire did \$200,000 damage here yesterday, and insurance only \$50,000. The electric light station, jail, court house and 50 residences were destroyed, besides the Episcopal and Baptist churches. The fire is supposed to have been incendiary, and cut a path through the town a hundred yards wide and a mile long.

The fire began in a railway shed, and was fanned by the heavy gale. The town had only two hand engines and one steamer to fight the fire. The firemen and engine from Charlottetown saved the Presbyterian church. Summerside has a population of 3,000; has a cabinet factory, three saw mills and several shipyards. Eggs, oysters, produce and sheep are exported largely.

Of the population of 4,000 many would be homeless were it not for the hospitality of those who fortunately escaped the destroying flames. The whole town had a narrow escape from destruction. A fortunate change in the wind saved it. There were no fatal accidents, but James Kenny had his arm broken by being run over by a team.

## WHAT COULD CANADA DO?

Lord Dundonald Asks Question in Writing On Imperial Defence.

London, Oct. 12.—(C.A.P.)—Commenting on A. B. Carman's article in "Canada" on Canada and Imperial Defence, Lord Dundonald, in a letter to "Canada," says: "If anything in this world is worth doing well, if it is at any rate worth doing well, if the empire, therefore, is worth defending, it is necessary to inform those specialists who are entrusted with the preparation of schemes for its defence, exactly how many troops will be available on the outbreak of war."

"These troops, if they are to be of real value, must be ready, not only in willingness to serve the empire, as every Canadian is ready, but only in spirit, courage and endurance, qualities which, from having had Canadian troops under my command in war time, I know them to possess to the fullest possible extent; but ready in arms, equipment, in food, in the supply of ammunition and material of war, with a personnel under the command of highly-trained leaders."

"How many men Canada could, at once on the declaration of war, put into the field under this latter condition is known to those who are responsible for her military defences and her place amongst the nations, and should be known and considered by every patriotic Canadian."

## DISQUALIFIED FOR SEVEN YEARS.

Supreme Court Dismisses Mr. Dan Gallery's Appeal With Costs.

Ottawa, Oct. 12.—The Supreme Court yesterday gave judgment in the St. Anne's case in dismissing the appeal of Mr. Dan Gallery, ex-M. P. for St. Anne's Division of Montreal, against the judgment of the court below. This confirms the disqualification of Gallery for seven years from sitting in the Dominion Parliament, or voting or holding any office in connection therewith. The statute does not disqualify as far as provincial or municipal affairs.

When the Supreme Court met, Chief Justice Fitzpatrick said that the judgment of the court was that the appeal should be dismissed with costs.

## JAPAN TEA DRINKERS

YOU REALLY MUST TRY

## WAS INACCURATE

Desires Mr. Wilson, K. C. Before Insurance Commission—Altogether "Have to Get After Somebody."

Toronto, Oct. 12.—The story unfolded by Matthew Wilson, K. C. before the Insurance Commission yesterday, of the sale of the Union Trust Co. last June to himself, E. E. A. DuVernet, acting for English capitalists, and Messrs. Gurney and O'Grady, of the Crown Bank, was the distinct feature of the sitting.

Mr. Wilson, together with Mr. DuVernet, took \$500,000 worth of stock in the new Trust Co. of Lake Ontario, understanding that this stock was to be distributed among English capitalists at a profit of \$25,000 to him.

A mysterious cheque given to Mr. Wilson, and the gift of \$2500 to him by Mr. DuVernet, was the subject of earnest examination by Mr. Shepley. Mr. Wilson could not remember who signed the cheque, and whether he had been given the \$2500 the same day as he endorsed the cheque.

Mr. Wilson had not yet put up any money for his stock, and does not know who is financing the game. He had been offered the management of the company at \$10,000 per annum, but did not want it and took the presidency at \$5,000 salary with \$2500 extra that Mr. DuVernet was putting out of his own pocket. Mr. Wilson was asked to produce the cheque and other documents.

Pope and Fowler Option. Mr. Shepley, when the session opened, took up the Pope and Fowler option. Mr. Wilson explained that the syndicate first bought a one-half undivided interest, the other half to be financed by a syndicate composed of Pope and Fowler and some others. This would not work for the other syndicate could not get together on certain points, with the result that the Foster syndicate took over the whole option. Mr. Wilson objected strenuously to assuming any more liability, but Mr. McGilivray suggested that the Union Trust Co. finance the whole business, and Mr. Foster said that if it was a good thing the Union Trust ought to get a chance to make some money out of it.

Commissioner Kent asked the witness if he thought when a trust company borrows from a bank it would make any difference if a majority of the directors of the Trust Co. were also directors of the bank.

"If the transactions were above board and concurred in by the other directors it would make no difference," was the witness' answer.

The Chancellor Inaccurate. Counsel dealt with Chancellor Boyd's version, that he was given to understand that the members of the syndicate, including Wilson, were putting up equal shares, and that the Union Trust Co. was only a partner.

Mr. Wilson said that Sir John Boyd's recollection was inaccurate. He had explained the transaction in full to him twice.

The land transactions were gone into briefly. Witness said that he was very much surprised that Pope and Fowler had retained 7,000 acres of the selected land, and that the Great West Land Co. had bought an additional 9,000 acres to make up the 200,000.

"I do not say that Mr. Fowler is a dishonest man, but he should have given up all the lands selected under the option. If that statement is correct we ought to have that 7,000 acres, and we will have to get after somebody and get them back," he said.

Mr. Shepley questioned Mr. Wilson further on the negotiations that resulted in the formation of the Great West Land Co. at the afternoon session.

Mr. Fowler Has Arrived. (King's and Albert) has arrived. He reached the city last night from Winnipeg. No sooner had he registered at the hotel than Mr. Ross, secretary of the Insurance Commission, advanced and served him with a formidable legal document, which required him to appear and testify before the Insurance Commission this morning, and also to show cause why he should not be fined or imprisoned for contempt.

"Isn't it cheap?" was Mr. Fowler's rejoinder.

## Wife is a Canadian Girl.

Kenosha, Wis., Oct. 12.—Mary Harriet Forrester, wife of E. L. Forrester, a contractor, who disappeared from her home in this city on Sept. 5, has been located at Cleveland, where she is working as a seamstress in an hotel. She would not make a statement as to her departure, and says she is waiting for her husband for Cleveland Wednesday night, and will make an effort to get his wife to return with him and her children. Mrs. Forrester was formerly Mary Harriet Moore of Sudbury, Canada.

## ARE YOU LOSING LOOKS OR STRENGTH?

Once you were robust, bright and happy. To-day you are dull, worried, failing in vitality and appearance. Just when you should be at your best you're played out and need a cleansing, bracing tonic. Your blood will soon return, your vivacious spirit will soon return, you'll be yourself again if you regulate the system with Dr. Hamilton's Pills. A truly wonderful medicine. It searches out disease, positively drives away headache, weariness, and lack of vital force. Give yourself a chance. Use Dr. Hamilton's Pills and watch the result. Sold everywhere in 25c. boxes.

## Had His Skull Fractured.

Peterboro, Oct. 12.—John Fraser, an employee of the Portland Co. of Lakefield, had his skull fractured yesterday while working at Little Lake, near the city. A steam pipe burst and a piece of the flying metal hit Fraser on the head. His recovery is doubtful. Several other workmen had a narrow escape.

## MEN RULE BY FORCE WOMEN BY CHARM.

And yet, because they live less strenuously, women neglect the early evidences of failing vigor. The wise woman will not permit her charms to go robbed by ill-health. When she feels appetite failing, nerves get ting on edge, color fading, the takes Ferrozine. How it sharpens the appetite! How quickly it restores the cheeks! How it restores color to the cheeks! How it restores vitality! Better try Ferrozine. You'll feel like a new being, with new vigor and ability to confront life's difficulties. You are sure to bless the day you commenced Ferrozine. Sold everywhere in 50c. boxes.

## Killed by Rejected Lover.

Cleveland, O., Oct. 12.—In the presence of 40 pupils in the South Euclid School Wednesday afternoon, Harry Smith, 25 years old, shot and killed Miss Mary Shepard, a teacher, aged 22 years. Brought to bay behind the barn in the rear of his home in Warrensville, two hours later, Smith shot himself through the head, dying instantly. Disappointment in love is said to have been the motive. Smith, who was a fourth cousin of Miss Shepard, had wooed her for some time, and recently was rejected.

## DOUBLED UP WITH CRAMPS.

Stomach feels like an internal machine and you want relief mighty quick. Nothing does the work half so soon as Polson's Nervine. Why? It kills the pain instantly. If your bottle is empty, get another. Polson's Nervine keeps the doctor bill small because it cures little ills before they grow big. No bing for indigestion, heartburn and cramps like Polson's Nervine. Large bottles for 25c.

## She Will Get a Fortune.

Toronto, Oct. 12.—Where is Clara Porter, alias Spafford, who served term in the Mercer Reformatory 20 years ago. City Relief Officer Taylor is looking for her. She has been left a fortune of about \$5,000 by a relative in England. She was an English clergyman's daughter.

Woman is often referred to by man as "doubbling his joys and halving his sorrows." That may be complimentary, but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, she expects his wife to share half his burden. And there's more truth than poetry in this presentation of masculine selfishness. Most don't appeal to the fact that the strain of motherhood alone is a burden bigger than all the loads that rest upon male shoulders. They see the wife grow thin, pale, nervous and worn, and a thought that she is over-burdened. Among the faint letters received by Dr. Pierce are those of a husband who has walked up before it was too late to the crashing burdens I lay upon the wife, and in the search for help have found in Dr. Pierce's Favorite Prescription a restorative, which has given back to the mother the health of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and almost always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

## The soldiers fight and the kings are barons.

Minard's Liniment cure: Dandruff
