

THE ACADIAN

(Established 1883)

Published at Wolfville, N. S., every Friday by
DAVIDSON BROS., Printers and Publishers
Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per year. - To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, and necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

In Wolfville last year, according to the town statement, the total amount collected on account of dog taxes was \$42.25. The tax charged for keeping a dog in this town is four dollars for a male and six dollars for a female. In the town of Liverpool where a uniform dog tax of two dollars is charged the revenue from this source last year amounted to \$98.00. Liverpool is a town of about the size of Wolfville. The inference is that the people of that town are either more fond of the canine species or more particular in the matter of gathering the taxes.

The decision arrived at by the Board of Governors of Acadia University at the meeting held last Friday morning was not unexpected and quite in harmony with the expectations of the friends of the university in this vicinity. The proposition to remove Acadia from Wolfville, it is safe to say it was never seriously considered, and we are confident that it would have been turned down by the Convention last summer if an opportunity had been given. When the action of the Board will have been ratified by the Convention, and there is very little doubt but that it will be, the element of uncertainty with regard to the future of the educational policy of the Baptists of the Maritime Provinces will be dissipated and Acadia will enter upon a new era of prosperity. New undertakings will be set in operation which will make for the still greater advancement of the university and the spirit for which it stands.

The recent intimation that existing economic conditions in the British Isles has caused a large number of officials now retiring from civil and military service in India to cast their eyes toward Canada, and particularly the Maritime Provinces, as a desirable place in which to make their home has caused more than a ripple of excitement to this valley. Transportation arrangements for one hundred of these new settlers and their families, who it is said are expected to arrive here during the first week in April, are now being made. In view of the desirability of the newcomers it is no wonder that the Antipodean Government should have made most attractive advances to induce them to settle in New Zealand, and it is gratifying to know that they have given the preference to this country. The settlers possess an average capital of \$30,000, are cultured people and would make a very valuable addition to the population of this valley. We have much to offer them and should get busy at once in the presentation of our claim. Conditions in Wolfville and vicinity ought to appeal strongly to these new settlers as our splendid educational advantages would furnish a strong inducement to people of this class. Our town government should take immediate steps to get in touch with those who are directing this movement and in such an undertaking we are sure they will have the full support of the people of the section generally. There should be no delay in a matter which may mean so much to the welfare of the community.

DAIRYING A WORLD INDUSTRY

The international character of the dairy industry is responsible for the organization of the World's Dairy Congress Association. Under the auspices of this body and of the government of the United States a World's Dairy Congress has been arranged to be held in Washington from October 2 to 5 this year. The vast extent of the dairy industry and its international status are recognized by those responsible for the congress. Scientists, health officials, government officials, social welfare workers, and producers, manufacturers, and distributors of milk and milk products will contribute to the discussions. These will relate to improving the quality and reducing the production and handling costs of dairy products and improving national health through their more general use. The international aspect of the commercial side of dairying has not been overlooked. It is recognized that the movement of surplus dairy products from Australia, New Zealand, the Argentine Republic and South Africa northward profoundly affects prices in Canada the United States and Western Europe. The Congress is called together by President Harding, who has been authorized by Act of Congress to invite foreign representatives to attend.

An inspector had made a special visit to a certain elementary school in a big provincial town, and from his point of view good results had been obtained. "Well," he said, "is there any lad who would like to ask me something?" "Yes, sir," cried a voice. "What time does your train leave?"

"THE LITTLE DOG ANGEL"

"The Little Dog Angel"—author unknown; yet bless his pen!—expresses a sentiment that is ours:
High up in the courts of heaven today
A little dog angel waits.
With the other angels he will not play.
But he sits alone at the gates;
"For I know that my master will come," says he,
"And when he comes he will call for me."
And his master far on the earth below,
As he sits in his easy chair,
Forgets sometimes, and he whistles low
For the dog that is not there.
And the little dog angel cocks his ears,
And dreams that his master's call he hears
And I know when at length his master waits
Outside in the dark and cold,
For the hand of death to open the gates
That lead to those courts of gold,
The little dog angel's eager bark
Will comfort his soul in the shivering dark.

The Use of Your Telephone Will Put Life Into The Dead Month

February has a bad reputation in the business world. It's known as the "dead" month. Too many of us have got the habit of hanging around hands in pockets, watching the corpse! It is said "Give a dog a bad name and then hang it!" The unenviable reputation attaching to February has been so generally accepted and acted on that little life seem left in it. But there's no real, earthly reason why February should not be as lively as any month in the calendar. Only give it a chance.

The easiest, quickest and most economical way for you to give it that chance is to sit down to your Telephone and go nosing round among your customers in the Province over the Long Distance Lines, telling them what you have to offer and learning what they want. The returns will gratify you.

Folks need goods in bleak February just as much as in the leafy month of June.

Monarch Ranges

Before making your final decision, it will repay you to inspect our line of ranges.

The Enterprise Monarch leads them all for Quality, Service and Appearance.

The linings are made from pure grey iron selected and blended to stand up under the most trying conditions. The walls are constructed of heavy copper fused steel which will not corrode or rust. The fire box is made extra large which makes the Enterprise Monarch a great fuel saver as it burns both the coal and the gas from it.

The cooking surface is extra large as the pipe is connected at the back of the warming closet.

As in the other qualities the Monarch range is unsurpassed for beauty, and is a credit to a well kept kitchen.
