SSrd YEAR.

ONE of the most important features of the Wirkess during the year 1879, will be its course of free lectures on agriculture, by W. F. Clarke, of Lindenbank, Guelph, late editor of the Canadian Farmer. Those lectures already delivered by Mr. Clarke have been met with the greatest approval everywhere. The the gretest approval everywhere. within the past few months, been greatly enhanced.

The Witness is devoted to temperance, being the principal organ of that cause in Canada, and to all other sanitary and mostal reforms, as well as the furtherance of Evangelical religion.

Another special feature of the Witness during 1879. will be the attention paid to its engravings, which already are numerous and important. Portraits of the prominent men throughout the world will be given, and the paper will contain numerous illustrated articles of much interest and value, as well as selections from the humerous art of the day.

The fullest attention will be paid to news, so that the Witness may retain its present reputation as a newspaper.

The household and general literary departments of the Witness have aiways been a prominet feature of the paper, and they will be continued on the same plan as heretofore, giving the ladies much valuable information about everything necessary to make the household bright, pleasant, and prosperous.

The price of the different editions of the Witness is as follows:—

Dailt Witness, \$3.00, cir., 14.800

the Witness issue the Northern Messenger, a semi-monthly illustrated family
journal, which is regarded with great favor

of over 50,000, testifies. In homes remote
from postal accommodation, it supplies the
whole family reading, which in cities,
towns, and villages everywhere, it is the
favorite of the young people, whe find it
an endless source of enlightment and
employment. Its price is 30 cents a year,
including postage. To Sunday-schools
and clubs it is sent at the following

You deserve to suffer, and if you lead a miserable unsutaffscuory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. The proceedings of the brigands in Macedonia are such as to create in some districts a panic among the inhabitants. At Monastir the alarm is as stated, has reached such a pitch even in the town itself that the shops are all closed, and everybody keeps within doors from an hour before sunset. The number of outlaws and brigands, who are the terror of the country side, are estimated at not fewer than 1,030. They spread far and near over the district, and not a single place is free from their depredations. Whole villages have been brought to ruin by their levies of ransom money, and they occasionally commit atrocious crimes.

Physicians Know That functional derangement of large organs, as the etomach, liver, heart, &c., will invite escapelless, and is attended with many serious complications; and while it may in many instances be put a sympton, among others, of an irritable and exhausted nervous system, if not assisted, and nutrition increased, it may prove the forerunner of serious changes in the brain or spinal cord.
