## THE NEXT THEATRICAL EVENT

A contemporary says of the attraction to be at the Curriers Rink for two nights Tuesday and Wednesday July 25 and 26.

From beginning to end there is a piquancy about "The Real Widow Brown," now at the Grand, which is delightful and refreshing. It is full of good things, and there are so many of them that it is difficult to pick out those which are better than others. The piece is full of bright and witty dialogue, there are songs and dances of the latest without number. The members of the company are all good in their various parts; in fact, the show is one of the best seen at the Grand during the present season. Last night there was another good house, the show proving to be an excellent drawing card.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36

## NEW HOSPITAL.

Project Being Favorably Considered.

### COMMITTEE AT WORK.

Citizens to Have an Option of Purchase After Ten Years.

The committee appointed to consider the hospital proposition held a meeting Tuesday evening in the Baptist vestry. A basis of agreement was arrived at and submitted to a meeting of the Orange Order for approval last night.

The new plan gives the citizens the option of buying out the Orange interests after ten years for the money they have put into it and the building to be kept insured by both parties.

Another meeting of the committee will be held to-morrow evening for final consideration of the scheme in committee.

A public meeting will be held shortly for discussion of the whole matter.

## FREDERICTON BRIDGE

Two Spans Entirely Destroyed by Fire—Loss About \$10,000.

The Fredericton highway bridge was badly damaged by fire Saturday night and its usefulness destroyed for the time being. Two out of the ten large spans and one pier near the centre of the structure were completely wrecked and it will take at least \$10,000 to repair the damage. How the fire originated is a matter of conjecture, but it is supposed that a lighted cigar stub carelessly thrown on the plank did the mischief. Robert Cochran of Gibson and some others discovered the flames about 8.30 o'clock while crossing the bridge and hastened to the city and rang an alarm from box 34. The heavy pine timbers were as dry as tinder and the flames seemed to spread among them with lightning rapidity. The bridge was erected twenty years ago by Hon. A. G. Blair. The Western Union Telegraph wires and wires of the New Brunswick Telephone Company, which crossed the bridge, were destroyed, and communication by wire with Nashua and Miramichi points shut off.

## A NEW RECORD.

Sydney to Montreal in 22 1/2 Hours.

### 43.6 MILES PER HOUR

Still Montreal People Claim the St. Lawrence Route is the Faster.

Montreal, Que., July 14.—The special train from North Sydney with the Allan liner Virginian's English mail on board arrived at the Grand Trunk station at 8.23 o'clock this morning, having made the run from Canada's easternmost seaport to Montreal, a rail distance of 931 miles, in 22 hours and 38 minutes actual running time.

The actual running time for the entire distance was 43.62 miles per hour, which is a record run over the I. C. R. between the two points. The best running time on the journey was between Levis and Montreal. Upon the arrival of the train there early this morning I. C. R. engine No. 98 was immediately coupled on with a fresh crew and away they came. The train pulled out of Levis at 4.44 this morning and pulled into the station at Montreal at exactly 8.23, making the actual running time between the two points three hours and 39 minutes, an average of 44.65 miles per hour. On this run three stops were made for water and oiling purposes. They average between Levis and Montreal was better than any other stretch of the run.

The time made by the train is hours faster than that of the Ocean Limited, while the ordinary express running time between Montreal and Sydney has been beaten by no less than ten hours.

The interesting question now arises as to whether anything has been gained by getting the mails off at Sydney, in place of allowing the Virginian to take the usual summer course through the Straits of Bell Isle, and the general opinion is that the experiment has lost time rather than gained it.

Had the Virginian followed along the usual summer course, which would have been done under ordinary circumstances, she would have saved 195 sea miles over the ordinary route. Then must be added three hours of time lost was the amount she was diverted from her usual course in order to make Sydney harbor. This gives a total of 260 knots, or a clear 15 hours run at a speed of 17 knots per hour. To this must be added three hours of time lost in discharging the mails at Sydney, making a clear loss of 18 hours at the least.

Montreal, July 14.—The Virginian passed Martin River at 5.40 a. m.

Montreal, July 14.—The question of whether any advantage was gained by landing the mails at Sydney is causing a great deal of discussion, and the opinion of steamship people is that in that connection the experiment was a failure. Diverting the Virginian from her usual route cost about 18 hours, and if she had come straight on she could have landed the mails here at least two hours ahead of the train. On the present trip of the Virginian her mails were landed here about 4 a. m. on Friday.

Halifax, July 14.—It is reported to-day that the turbine Virginian is to give Halifax a mail and passenger trip test. Of course coming to Halifax would take the ship considerably off her St. Lawrence route, but the idea is to give a practical test of the fast line possibilities via Halifax.

## TO CARLETON

The Excursion was a Grand Success

### BEAUTIFUL WEATHER

Chas. Marcell, M. P., Deputy Speaker of House, Addressed People

The excursion on the Lady Eileen to Carleton was a big success. The day was all that could be desired as far as the weather was concerned and nearly five hundred excursionists took advantage of the cheap rate and altogether a very enjoyable day was spent. The 72nd Battalion Band of Chatham under the leadership of Arch. McEachran furnished excellent music for the occasion.

Chas. Marcell, M. P., Hon. C. H. LaBillois, John Hall Kelly and Thos B. Clapperton delivered eloquent addresses at Carleton.

The Lady Eileen arrived at her wharf here about 8.30 in the evening.

### SETTLER'S EXCURSION

From Montreal to Matapedia and Paspébiac.

The Colonization Society of Montreal, in connection with their representative at Matapedia, Dr. J. A. Pinault is organizing an excursion from Montreal to Matapedia and Paspébiac. A great reduction has been granted by the I. C. R. at this occasion. The rate from Montreal to Matapedia will be as follows—1st class return ticket, \$4.75, and class \$5.60; from Quebec to Matapedia, 1st class return ticket, \$4.30, and class \$3.65. From Matapedia to Paspébiac one single 1st class fare.

This excursion will take place on July 21st and tickets will be good for 15 days after the date of their issue on any passenger trains on the I. C. R. Many excursionists are expected from United States and all the different points of Montreal and Quebec district.

As this period of summer season is eminently favorable to enjoy the splendid vegetation as well as to admire the grand and maybe the finest scenery of Quebec Province, we have no doubt but that a large number of people who take interest in Colonization will profit by this exceptionally cheap excursion.

## DROWNED.

John J. Jardine, of Cambridge, Mass. Sinks while Swimming.

Word was received here on Tuesday of the drowning of John Jardine, son of Mrs. Jardine who formerly conducted the Waverly Hotel here. The unfortunate young man was born at Newcastle and was twenty-three years of age.

The Boston Post has the following particulars:—

While attempting to swim across the Charles River, near the Western Avenue bridge, Brighton, about 5 o'clock yesterday afternoon John J. Jardine, of 77 Prospect St Cambridge, became exhausted in mid stream and drowned before aid could reach him.

In company with several companions he had gone to the river late in the afternoon to enjoy a plunge. It was soon proposed that they swim to the other bank. Jardine was in the rear and had reached the middle of the river, when, without uttering any outcry, he sank from view.

Not until they reached the other bank were his companions aware of what had happened, they dived immediately in an effort to locate him, but failed.

The body was later recovered and arrived at Newcastle on the Ocean Limited Tuesday afternoon and the funeral was held from the home of his brother J. T. Jardine at 2.30 yesterday afternoon.

The mother and family have the sympathy of the entire community. Carmin, Rev Dr Henderson, Rev Professor Riddell and F. C. Stephenson, M. D., from the west, and a number of leading gentlemen and ladies.

Hours of Session—From 8 to 10 p. m. on Monday; from 3 to 10 p. m. on Tuesday; from 9 a. m. to 10 p. m. on Wednesday; from 3 to 10 p. m. on Thursday; from 9 a. m. to 10 p. m. on Friday and from 9 a. m. to noon on Saturday. Liberal intervals will be had between the sessions.

The usual rates of travel in connection with such gatherings will be afforded and can be learned upon inquiry. Board at reasonable figures can be secured.

The School will afford opportunities for questions, literature and other modes of obtaining the best available information relating to Christian Missions.
