

WORLD'S DEBT TO CANADA

A Wonderful Achievement

Discovery of "Fruit-a-tives" has meant health for all

Canada's fame does not rest solely on her furs and wheat fields. Her rise in the esteem of the world is not due to her Cobalt mines. It is the work of her great men that has made her great. A graduate of McGill University has won lasting renown for his original researches in the realm of Physics. Everyone knows that fruit is wholesome, when eaten judiciously. Physicians generally recognize the fact that fruit juices have a beneficial effect on the various organs of the body. It remained for a Canadian physician to discover a process whereby the medicinal action of fruit could be so increased as to make the intensified juice a wonderful cure. "Fruit-a-tives" is this combination of fruit juices and tonics. Since its introduction to the public, "Fruit-a-tives" has met with a success accorded to no other medicine in the world. The reason is plain. "Fruit-a-tives" is the one remedy that is actually made of fruit, and is the only remedy that naturally cures Constipation, Biliousness, Indigestion, Headaches, Rheumatism, Neuralgia, Backache, Kidney and Skin Troubles. At all dealers at 50c. a box, 6 for \$2.50, or trial size, 25c., or from Fruit-a-tives Limited, Ottawa.

BOLD ATTEMPT TO WRECK C.P.R. TRAIN

Disaster Was Averted By the Fortunate Trip Of a Section Hand Car

Ottawa, July 13.—C. P. R. detectives went to Kirk's Ferry Station, on the Gatineau line, to investigate what appeared to be a dastardly attempt to wreck the train bearing the returning Orangemen from Cantley, where they had been celebrating the day. Preceding the train, which had about 500 passengers on board, a hand car passed along about five minutes in advance. A mile outside Kirk's Ferry Station, the hand car was derailed by an obstruction of the track.

An inspection shows that horse shoes had been cleated to the ties for a distance of 30 feet, with the evident intention of wrecking the train. Fortunately the train was delayed at Blue Sea Lake for nearly an hour, through the breaking of a piston rod, thus giving time for the section men to give notification of the obstruction. But for the fortunate trip of the section hand car in advance of the train a disaster would have occurred, probably involving a great loss of life. The horse shoes were placed on a rock-cut where the light was dim, and the engineer would have been unable to see them.

ST. STEPHEN'S BANK

It is stated that tenders for the St. Stephen Bank were opened last week, and that the bid of the Bank of British North America was the highest.

ROYAL ADMITS PURCHASE OF UNION

Assets Secured Subject To the Approval of Shareholders and Treasury Board

Montreal, July 13.—The Royal Bank of Canada gives out the meagre statement tonight that the assets of the Union Bank of Halifax have been purchased by the former institution, subject to the approval of the shareholders and subsequently the treasury board. Messrs. William Robertson, President, and E. L. Thorne, General Manager of the Union, have from the first refused to see any newspaper men, and have consequently been very much surprised to find themselves so often in print. These two gentlemen will leave for home tomorrow evening. They first intended leaving in the morning, but will stay over for the Ocean Limited.

An official of the Royal Bank stated this evening that the Union office on Hollis Street would probably be kept open by the Royal, as both buildings will be required for some time yet. It is believed, however, that if both can be sold to advantage the Royal will build a fine home in Halifax, worth of the Banks proportions and of the city of Halifax.

CANADA'S NEXT CENSUS.

The next census of Canada will be taken under date of June 1st, 1911, and will embrace the subjects of population, mortality, agriculture, manufactures, minerals, fisheries and dairy products.

Population will be recorded under the heads of residence and personal description; citizenship, nationality and religion; profession, occupation and trade or means of living, wage-earnings and insurance; education and language spoken, and infirmities.

Every person living on 1st June will be entered on the schedule of population by name, as member of a family, institution or household, together with place of habitation, sex, relationship, to head of the family or household, and whether single, married, widowed, divorced or legally separated. The month of birth, year of birth and age at last birthday will also be recorded.

Entries will be made for each person to show the country or place of birth, year of immigration to Canada if born elsewhere, year of naturalization if formerly an alien, and also racial or tribal origin, nationality and religion. Every person of alien birth who has become a naturalized citizen is a Canadian by nationality; and every British subject with residence in Canada, as well as every native of Canada who has acquired citizenship by birth or naturalization, is also a Canadian by nationality. But there is no Canadian by racial or tribal origin, unless the Indians are so counted.

Every person having an occupation or trade will be entered for it, but if employed in the census year at some other occupation for part or whole time he will be so recorded also. If the person is working on own account, the entry will be so made. An entry is also required to be made showing where the person is employed, as on farm, in woolen mill, at foundry shop, in drug store, etc.

Wage-earners are entered to show the number of weeks employed in 1910 at chief occupation or trade; at other than chief occupation if any; the hours of working time per week at chief occupation, or at other occupation if any; the total earnings in 1910 at chief occupation; the total earnings at other than chief occupation; and the rate per hour when employed by the hour.

Entries are required to be made for each person showing the amount of insurance held at date of the census upon life, as well as against accident or sickness; together with the cost of such insurance in the census year.

Under the heading of education and language records will be taken for every person of five years of age and over showing the number of months at school in 1910, and if the person can read and write, and the language commonly spoken by each person. The cost of education in 1910 for persons over 16 years of age at College, Convent or University is also called for.

The last question on the schedule of Population relates to infirmities. It calls for a record of each person having an infirmity. If blind, deaf and dumb, crazy or lunatic, idiotic or silly, a record thereof will be made in the proper column, and the age at which the infirmity appeared is required to be specified.

STRICKLAND'S GENEROSITY

A caller at the Mayor's office at St. John was Harvey Strickland, formerly of Fredericton, and now an inmate of the Provincial Hospital. Mr. Strickland had evidently been reading about the fire and about the sufferings of the people. While at the Mayor's office he wrote out a check for \$10,000 and handed it to the Mayor, telling him that if he needed any more to inform him. The check, of course, was worthless, but it showed the good-heartedness of the man.
