The condition of the colliers in England is becoming daily more serious. In almost all coal districts many men are idle, and others are working on notice of leave; while the wages of these who remain are being reduced. In the County of Durbam alone between 10,000 and 11,000 are reported to be idle, and the screenary of their Union has made an appeal on their behalf.

The Khedive of Egypt has signed the

peat on their behalf.

The Khedive of Egypt has signed the decree making Colonel Gordon Governor-General of the Soudan. The Colonel has written home to England that he is astounded at the powers placed in his hands; that it will now be his own fast if alavery does not cesse, and if the vast central regions of Africa are not opened to the world. Colonel Gordon is also Governor of the Propince of the Equator and the littoral of the Red Sea.

The Princess Ida Wrede, a handsome women of 23, whose ancestral castle is on the Grotensee in Germany, was recently married to a wood cutter who can neither read nor write. The Princess is a remarkably intelligent woman, who speaks six languages and is very cultivated. She is now living on a little place on the Salzburn-Ischl road with her husband. She has donned a peasant garb, and goes with him to the country church every Sunday.

Sentimental suicides are becoming

church every Sunday.

Sentimental suicides are becoming very common in the United States. About a fortnight ago a young lady, who was engaged to be married and apparently happy, committed suicide in Marion, lows. A few mornings after the funeral, her hore called a young lady cousis to his room, and, remarking that he was going to his sweetheart, shot himself in the heart. A brother of the dead girl went to the home to see her lover's remains, and, eatching eight of the pistol, seized it and did his best to shoot himself, but did not succeed.

A French Company has been organ-

self, but did not succeed.

A French Company has been organized with a capital of \$6,000,000 to supply Europe with fresh meet from Buenos Ayres. A new refrigerating process has been invented, and a successful trial-trip made between Rouen and Beenos Ayres by the steamer Frigorifique. Other, steamers are to be put on, and a factory is to be established on the Platte. The pampas of Buenos Ayres, it is said, can turnish, 2,000,000 of cattle and sheep a month to feed Europe. The Argentine Republic now has herds aggregating 100,000,000 head.

He has given explicit rules for the treatment and preservation of the spiritual and moral man, but He is silent in all matters relating to the physical man. It would be an unwarrantable detraction from His hapeform, where the suppose ters relating to the physical man. It would be an unwarrantable detraction from His beneficent character to suppose that He has afflicted the greetest portion of humanity with an incurable disease. The day of plagues is past.—The God of Christianity is a God of Love, of Mercy, His message is "good will to all men." The earth and all contained therein was intended by the great Designer to supply man's wanta, and surely he has no greater wanta than remedies for his infirmities. Science is rapidly groying that the earth is fitted to supply man's untermost need. New nedicinal plants are constantly being discovered and new properties developed from those already known, For Catarth, the most potent remedy yet discovered in Dr. Sage a Catarth Remedy. Its efficacy has been tested in many thousand cases with uniform success. Cases that had been repeatedly pronounced incurable, readily yielded to it. In confirmed, or obstinate cases, Dr. Pierce's töden Medical Discovery should be taken in connection with the use of the Catarrh Remedy. Full particulars in Pierce's Memorandum Books.
