Our Economical Government.

Editor Evening Telegram.

Dear Mr. Editor,—You published on Saturday, a list of payments made to sundry supporters of the Government during the year 1913. The omission of any comment was eloquent. It is perfectly astounding that we have in power a Party, so many members of which cannot in any sense of the word be termed independent. Here we had six members of the Legislature and one would-be member receiving over Seventeen Thousand Dollars in 1 1/2 years: an average of \$2,500 each.

Twenty or thirty freemen are endeavoring to exist on \$450 a year. A universal agitation is required to give them even a promise of an increase. Just two or three thousand is sufficient to satisfy them. But no! We have first to keep the wolf from the door of Mr. Bennett. He only gets \$2,000 a year, and a little interest in a business we must give him another \$1,800 for a few days' work arbitrating on some poor man's land.

We must take care of Mr. Gibbs. He only has a precarious living as a lawyer. Let him work for a month or so on the Arbitration Awards; \$2,419.43 will save him from starving.

Some Postmasters get \$3 a year, paid monthly I presume (they could not possibly wait for such a magnificent sum longer) and others get \$10 a year and some (oh, the luck of some people!) actually get \$20 for delivering and taking care of letters for a year. It's a monstrous waste—but it's true! The Premier would not accede to Mr. Coaker's proposal that a vote of thanks be sent them and still less did he favour an increase of \$5 a year each. Oh not that would make them too independent! We must make Mr. Goodison and Mr. Winsor (Billy) happy first. Not an ounce of fish must they lose! For a few weeks' holidays we allow Mr. Goodison \$2,788 and Mr. Winsor \$2,400. We breathe freely to think that these gentlemen could, with a little economy, manage a cigar now and again. But a poor man with one arm down in Greenspond feasts lux-

uriously on \$50 a year and sends his children away to college on his savings and what he earns by knitting twine with one hand and his mouth!

Then Mr. W. R. Howley only gets \$4,600! But then he did his duty well. He stood for the East End and had the worry of a campaign! I expect he says with Jordan M., that "it's better not to be elected—you get more out of it." True. There are many suffering in the city this winter, and for lack of funds a charitable organization cannot relieve anyone. But this is no business of the Government. Oh no!—They must keep Mr. R. A. Squires warm, and see that Mr. C. H. Emerson does not suffer. The former gets \$2,100 and the latter \$401.50. There must be some mistake about Mr. Emerson. But I forgot this is only for 1913.

In 1 1/2 years, \$17,000. Seven men! Don't the figures seem to burn into your very brain, Mr. Editor. And I don't hesitate to say that the combined work of the seven men won't cover a period of 18 months. And these are the men who will rant to their constituents of all they will do if elected. They will solemnly assure the people that their own interests will come last where the people's interests are concerned. And here they will take money—not needed by them, or in any way necessary for their livelihood—without a murmur sufficient to give a substantial rise to all the miserably paid postmasters (\$8, \$10, \$15 a year!) in the country.

Do they consider it honest? I do not. Morris is bringing in a Bill with reference to combines and the undue prices of some articles. A very necessary step. But why not start near home? Does he say that Hon. M. F. Gibbs only got a fair price for his work on the Railway Arbitration Awards? Did he reckon up the percentage of profit that Mr. R. A. Squire made on his \$2,100?

A laboring man is paid by the hour. If he loses an hour, he loses his pay for that hour. If he idles an hour, he is looked on as a robber of his master's time and money. If he idles all the year he may earn \$500. Now see what this "People's Party" does.

Sir Edward Morris, with one hand gives the labourer promises, with the other he hands Mr. Goodison \$2,788 for a few summer trips in Trinity Bay!

He sympathises with the lot of the policeman and slips in the hand of Mr. Howley \$4,600 for a few months' work. No matter under what law or custom they draw this money. What kind of returns are they giving for it? Is it any wonder that the poor and the rich are antagonistic?

Free Education would cost the Colony \$30,000. The Premier said the country could not afford it. Yet here we have more than half this amount practically given away to seven men \$17,000 among seven men! And this is only a small part. If these men had the Colony's interest at heart they would not have accepted these thousands of hard dollars. They have put personal gain before economy of the people's money.

Sir Edward quoted Shakespeare no long ago in the House. I would advise him to go back a little further turn up his Gleaner, where he will find this maxim: "Economy is of itself a great revenue."

Yours truly,

THEOBALD.

SOCIABLE AT HOTEL.—The ladies and gentlemen boarders of the new Tremont Hotel held an enjoyable entertainment last night. An excellent programme was gone through after which supper was served. Speeches followed and the affair concluded with dancing, and was kept up until an early hour this morning.

Buried Treasure.

By GEORGE FITCH,

Author of "At Good Old Sivash"
Buried treasure is one of the most interesting topics of speculation for men and dogs.

All dogs are interested in buried treasure which is natural because they bury it themselves. The dog is an abstracted and absent-minded creature because he is always trying to figure out the locations of the last eleven bones which he has buried.

Many men are also interested in buried wealth. But they are not the men who buried it, as a rule. Men do not bury much treasure nowadays. Wall Street, society and the automobile make it possible for a man to dispose of any amount of money without borrowing a spade and a lantern. The men who are interested nowadays are the ones who are trying to discover where some other men planted his fortune, and the men who planted said fortunes were mostly pirates who flourished before the seas were as well policed as they are now.

Burying treasure was the one great amusement of the pirate. After he had accumulated a chest full of doubloons or pieces of eight he was not happy until he had lugged the chest ashore and had buried it on some deserted island, nine pieces east and four south of the point where the line between three tall palms and the volcano peak crosses the shadow of the sun at noon on Candlemas day. After he had planted a few chests he usually got himself hanged, thus removing the money effectually from circulation, and encouraging future generations to mess up vast numbers of desert islands in vain attempts to find it.

The pirates fought very hard for their money and were very foolish to stick it away in the sand at a time when the world was very un-healthy for them anyway, and even with prompt action they could hardly expect to get all of it spent before they died of acute throat trouble. But they were not half as foolish as the man who accumulates about \$20 worth of treasure a week and trades it for one good-sized jar on Saturday night. If he were to bury his \$20 each week as the dog buries his bone and forget all about the location, he would be better off in the long run.

Badly Ulcerated Leg.

Zam-Buk Cured Her When So Bad She Had to Use Crutches.

For varicose sores bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amherst St., writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or so I did not need it, but it got so hot that I could hardly walk. I sent for my doctor, and he told me that I would have to lay up with the wound for three weeks. At the end of that time the ulcer healed a little but I could only move about by using crutches."

"The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year. This, I knew, was impossible, as I had a family to attend to."

"My son had cured a bad cut on his leg by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I was able to move about and do my work."

"I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as good and strong as ever. To any person suffering from ulcerated sores I would say try Zam-Buk."

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, bruises, eczema, eruptions, and all other injuries and diseases. All druggists and stores sell box, or Zam-Buk Co., Toronto, for prices. Beware of harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c. tablet.

Twice Proven Cure for Nerves

Irritable, Hysterical, Sleepless, Dr. Chase's Nerve Food Restores Health.

There is a message in this letter for thousands of women who are suffering from broken-down nervous systems. "Sleepless nights, much irritability over little things, spells of dizziness and nervous sick headaches are among the symptoms."

"You may not realize the nature of your ailment until nervous prostration comes upon you. But, in whatever stage you find yourself, Dr. Chase's Nerve Food is ready to help you."

Mrs. W. J. May, 88 Annette street, Toronto, writes: "Some years ago I suffered from nervous trouble, and took Dr. Chase's Nerve Food, which completely cured me. About six months ago I received a shock which again shattered my nervous system to such an extent that I was irritable and hysterical, and could not sleep nights. I tried to take the Nerve Food again and was not disappointed. Improvement was apparent from the first box, and now I am entirely well."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers.

Affairs at Belleoram.

Editor Evening Telegram.

Dear Sir,—Kindly publish the following: In a recent issue of your paper, there appeared an article from Fortune Bay, re: the Civil Service in this bay, particularly Belleoram and St. Jacques. There are signs of improvement at least in one branch, Weights and Measures, inasmuch as the Inspector has gone as far as to make tubs and test the measure in which coal is sold, and found it to be about 300 lbs. short per ton.

This is a step in the right direction, and although moving slow, will, it is hoped, continue to receive the attention of our friend "the Inspector" and in so doing ensure the consumer a fair play in coal and vegetables. A sudden rise from \$5.25 to \$6.50 per ton here is a very strong reason for demanding lawful weight. While the price was \$5.25, customers did not mind a gain of a few tons per one hundred in favor of the seller, nor was there much notice taken of a gain of a few bushels per hundred on produce, but in view of the sharp advance in both these necessities, together with the poor quality in some cases of the latter, it is plainly evident that consumers must insist on getting lawful weight.

With regards to other branches, we are looking forward to an early reform, as evidently the Government has just woken up to the fact of our Civil Service being overmanned, since the Finance Minister admits so. Incompetent and ignorant officers should be removed, whether they be Tory or Liberal; also there should be less ports of entry. For instance in this district, there is no need of a customs house east of St. Breton, besides Belleoram. However, we have good men enough yet to see that old Newfoundland won't sink entirely, and to bring her through in spite of her enemies.

All the bankers have been at Rose Blanche for a week, but owing to stormy weather only one set has been secured; vessels getting about 150 minutes each.

Both mail steamers are laying in harbor storm bound, Esperero at St. Breton and Gloucester at Basin. While to one expects the Gloucester to get along in such weather, she having to go against it, we all think the Esperero would come here from St. Breton. People are wondering whether it is not women dressed in men's clothing who command these boats, since the mail service is so much worse than formerly. I believe there are lots of women who could do better. What about Aunt Jane? It is rumored that Farquhar, of Halifax, is negotiating for a steamer to run on the South Coast next summer in connection with that port. This will be a great benefit, and it is hoped the Government will do all they can to encourage it.

Yours truly,

PRO PATRIA.
