

Parliament Will Not Convene.

Imperial Government Can Cope With Industrial Situation--Motor Lorries as Strike Breakers.

AMENDMENT REJECTED.
WASHINGTON, D.C., Oct. 2. Taking its first action on committee changes in the Peace Treaty, the Senate to-day rejected an amendment by Senator Fall, Republican, of New Mexico, to eliminate the United States from membership on the committee to determine the boundary between Germany and Belgium. The vote which generally was accepted as a test of the Senate's attitude towards more than thirty other committee amendments of similar nature, was 58 to 30.

PARLIAMENT WILL NOT BE CALLED.
LONDON, Oct. 2. The authorities have decided that Parliament will not be called together in connection with the industrial situation. A demand to this effect was telegraphed Prime Minister Lloyd George by William Adamson, chairman of the Labor Party and Leader of the Opposition in the House of Commons, yesterday, but the Government has determined to abide by the original date of meeting, October 22.

BACK TO WORK.
NEW YORK, Oct. 2. All the longshoremen who walked out in Brooklyn yesterday are now back to work. Oliver Morton, financial secretary of Local 968, of the International Longshoremen's Association, announced this to-day. The men thought their demands, instead of being referred to the National Adjustment Commission, had been flatly rejected, and struck on that understanding, Mr. Morton said.

CINCINNATI WINS AGAIN.
CINCINNATI, OHIO, Oct. 2. The Cincinnati Reds tightened their grasp on the World's series to-day by defeating the Chicago White Sox by 4 to 2. As they also won the opening game yesterday, they need but three more games to land the series. The game yesterday was safely stowed away in the fourth, and when that innings arrived to-day the fans emitted a roar in demand of an encore. In a measure the Cincinnati batsmen responded, but the person who really took the demand to himself apparently was Claude Williams, the Sox left hander, who was on the mound. He

passed three batsmen and three scored.
GOVERNMENT FIGHTING TRADE UNIONS.
LONDON, Oct. 2. Every motion picture screen to-night will exhibit the following message from Prime Minister Lloyd George: "The Government are not fighting Trade Unions, which are a recognized factor of the industrial life of the country. The Government are fighting to prevent extremists of any industrial body from gaining their ends by attacking the life of the community and so bringing untold misery upon thousands of innocent people." Sir Eric Geddes met a very hostile reception when proceeding from the Ministry of Transport to the conference in Downing Street this afternoon. Great crowds of strikers hissed him the whole length of Whitehall. The police cleared a passage for the Minister through the crowds.

FIGHTING THE STRIKE.
LONDON, Oct. 2. Additional motor lorries have been brought back from France by train ferry, and one hundred have already arrived. It is estimated that the transport depot at Slough will deliver for use three thousand lorries within the next three weeks. The petrol supply is also satisfactory; the Board having on hand thousands of tons of this supply, the sale of which has been stopped. One editorial opinion of the situation states that "the battle of Verdun was won by motor lorries, and the battle of food will be similarly won." The Government has devised a scheme of out-of-work donations for the relief of the sufferers of the strike, apart from the strikers themselves. This relief varies from twelve shillings per week for women to 25 shillings a week for men. Most of the perishable goods in transit on the railways when the strike occurred have been cleared. The stock of bread and flour remain practically the same, while the usual supplies of fish are being received.

RACE RIOT.
LITTLE ROCK, Ark., Oct. 2. A special train is being made up here to take five hundred troops from

Camp Pike to Elaine, Ark., where a race riot is said to be in progress. Three white men were shot from ambush near Elaine, last night.

WILSON NOT SO WELL.

WASHINGTON, Oct. 2. Despite a fairly good night's rest, President Wilson was not so well this morning, and Rear-Admiral Grayson, his personal physician, has called in consultation Dr. F. X. Dorcun, neurologist, of Philadelphia.

OPPOSITE OPINIONS.

LONDON, Oct. 2. The Central News this afternoon sent out an item in which it declared that prospects for an immediate settlement of the railway strike were exceedingly hopeful. From railway men there came shortly before five o'clock a statement of rather the opposite tenor.

TREATY RATIFIED.

PARIS, Oct. 2. Chamber of Deputies to-day ratified

the German peace treaty by a vote of 373 to 55. The Franco-American and Franco-British treaties were unanimously ratified.

DEPLORES THE CALLING OF STRIKE.

LONDON, Oct. 2. (Reuter Despatch).—An appeal signed by the Bishop of London and Cardinal Bourne, deploring the suddenness with which the strike was called and the oft-heard opinion that such a struggle has been inevitable and must be fought out. It is stated that there is a strong public desire that the condition of industrial workers must be alleviated, but declares that this should be secured by reason, and not achieved by coercion, which alienates public sympathy and engenders passion. The situation to-day is still critical, but a new spirit of statesmanship has been manifested at the Caxton Hall conference. It is regarded as possible to-day that a settlement may be effected on the lines that a tribunal or commission would be immediately appointed to examine the whole war wage question, taking the case for railway men first. As a result of the conference yesterday in connection with the distribution of food, the Government and private traders have taken enormous strides in organizing the food distribution of the whole country. All the corporations dealing in foodstuffs have voluntarily placed all their resources at the disposal of the Government. The whole country has been divided into twelve areas, the local commissioners of which have been given full power for dealing in foodstuffs. Huge Government storehouses for food have been established and are able to make up a shortage in any district. Convoys are run regularly between the clearing houses and the warehouses, thus though the closing down of many industries has resulted in a considerable crowding of cities and towns, no hardship will result. A curious reversal to old times is seen in the wholesale driving of flocks of sheep from the grasslands of the Midlands to the populous towns of the north. In this connection it is interesting to note that there are some twenty-five thousand more bullocks on grass than usual. Thousands of these have already been driven in stages of twenty miles daily, resting on the grasslands at night until they reach their destination. The Minister of Food announces that one hundred and fifty-three thousand gallons of milk were brought to London yesterday. Stocks of butter and cheese are reported satisfactory. No difficulty is expected in maintaining the present ration of meat.

WILL PUNISH PROFITEERS.

LONDON, Oct. 1. (Reuter's).—Chairman McCurdy, of the Central Profiteering Committee, at its first meeting, declared that drastic action would be taken to punish profiteers.

PRICE TO MAKE VIT.

NEW YORK, Oct. 2. (Associated Press).—A despatch from Washington to-day says, "The Prince of Wales, who is touring Canada, will come to Washington in about a month for a visit of three days, but he will not make a tour of the United States." Mayor Babcock of Pittsburgh, has just been informed by Chairman Porter, of the House Foreign Affairs Committee.

BLOODSHED PREVENTED.

WASHINGTON, Oct. 2. Intervention by American naval forces at Trau, Dalmatia, prevented bloodshed, "which would perhaps have resulted in a state of actual war between Italy and Jugo-Slavia," according to reports from Admiral Knapp, commanding the United States' naval forces in European waters, transmitted to the Senate to-day by Secretary of the Navy Daniels.

New Drug Store.

In the seventies, eighties and up to the death of the popular Proprietor, John T. O'Mara, the name of "O'Mara's Drug Store" was a household word, not alone in St. John's, but throughout the whole island. The late John T. O'Mara started business in May, 1874, and continued with success until 1893, when he passed away. He was a President of the Benevolent Irish Society. And now the familiar name of O'Mara's Drug Store is revived, his son, Leo A. O'Mara, having commenced business in the well-known drug store of McMurdo, Rawlin's Cross. We may here mention that near the same site was conducted the popular Drug Store by his late father, John T. O'Mara. Leo A. O'Mara served his apprenticeship with the old established firm of McMurdo of this city, and after a time was sent to Grand Falls, where he became manager of the Grand Falls Drug Store. In 1914, shortly after the first shot resounded throughout Europe, Mr. O'Mara offered himself for enlistment, but was pronounced physically unfit. After spending his four years at Grand Falls he returned to St. John's, and became manager of McMurdo's Drug Store on the Cross, where he has now struck out for himself. He is a very popular, trustworthy and experienced young man, one in whom the late respected Thomas McNeil had every confidence. The familiar name of O'Mara's Drug Store, and the well-known locality in which it has been
