Political Items.

Mr. Howley, a Reformer, has accepted the offer to stand for Montreal West as the workingmen's candidate.

Mr. Godson, of the Revenue Department, has gone to organize that service in Prince Edward Island, under Confederation.

The resignation of Col. Robertson Ross as Adjutant-General of Militia has been accepted, and is to take effect from the 15th of September.

The Governor-General is now at Minto River, where he will remain some time salmon fishing before proceeding to Charlottetown and Halifax.

The Chatham Banner dubs Rufus Stevenson "The Tilbury Fraud." Happy thought! We hope it won't make Rufus swear—swear to another affidavit, we mean.

Wednesday being the day appointed for the meeting of the Huntingdon Committee, at Montreal, much interest is felt in political circles there as to what course they will adopt under the Queen's disallowance of the Oath-Bill.

The Ministerialists are jubilant and openly boast of Sir John's cunning in knocking the investigation on the head.

W. Wallace, M. P. for South Norfolk, after having drawn his thousand dollars for doing nothing in the Commons for a couple of months, has again resumed work in the House of Commons. He keeps regular office hours in the Intercolonial Railway office, as do the other clerks, and seems likely to remain until the 15th of August enables him again to develop into an M. P., and give strictly independent votes for Sir John.

Mr. Charles O'Brien, the Hon. Allan's railroad engineer, the "Credit Mobilier" man.

The Hon. A. Campbell's friends resigning the position of Postmaster-General in a few days. He will be appointed Minister of the Interior.

Mr. James Cowan, of Galt, has been elected chairman of the Board of Dominion Arbitrators, in the room of the late Hon. Philip VanKoughnet.

New Grand Trunk stock to the amount of \$7,500,000 has been subscribed in the London market, and the balance of \$2,500,000 is reserved, with the anticipation that it may be placed at a higher price in eighteen months.

Among the things to happen on the first of July, are the coming into force of the clauses of the Washington Treaty, hitherto in abeyance, and the formal admission of Prince Edward Island as part and parcel of the Dominion.

The stringency of money has imposed some check on importations into the United States as well as here. From January to April, the imports were \$52 millions, against \$34 millions last year. Meantime the exports have largely increased, being for the same period \$53 millions, estimated in gold and currency mixed, against \$74 millions last year, reckoned only in gold. Besides these exports, \$5 millions of live cattle were sold in the States, and by three times that amount of other securities. The effect of these movements on the American money market has been most favorable, and they are the salutary results of the monetary stringency which is so loudly complained of.

Old Shoes.—You probably think that if you look very sharply at an old shoe when you throw it away, you will know it again if it ever comes back to you. But that doesn't at all follow. One of these days you may button your dress with an old pair of slippers, comb your hair with a comb, or grasp a cast-off gaiter while at your dinner. You don't see how this comes. Well, we'll tell you. Old shoes are made to account by manufacturers in the following manner. They are cut into very small pieces and kept for a couple of days in chloride of sulphur. The effect of this is to make the leather hard and brittle. Next the material is withdrawn from the action of the chloride of sulphur, washed with water and dried. When thoroughly dry it is ground to powder, and mixed with some substance like glue or gum, that causes it to adhere together. It is then pressed into moulds and shaped into buttons, combs, knife handles, etc. So you see how it may come to pass that you will comb your hair with a boot, and fasten your clothes with a slipper.

THE LION! THE LION!

GREAT COMMOTION IN THE DRY GOODS TRADE

and a Tremendous Rush at our Mantle and Millinery Rooms.

On all hands we hear of dull trade: "Nothing doing," says Tom, Dick, and Harry, but it is not so at THE LION. Still great bustle and activity at the leading house. This spring trade is opening beautifully, thus encouraging us to greater endeavors in the public weal; and the reason of our success is apparent. Our Goods are all direct from the manufactory, and none can do a successful business only those who buy from first hands, for which our Establishment has long been noted, and has raised the standard of our fashions (combined with the energy of the proprietors of the firm) to the present proud position, and more especially for the last two years, so that our daily sales are almost equal to the combined trade of the same character in the Town of Guelph.

OUR MILLINERY DEPARTMENT

Our Millinery is a complete success this spring, the taste inherent displayed by Miss McDonald is captivating all hearts, and places her high in the ranks of first-class Milliners. Combined with the genuine popularity of Miss Sutherland, thus making our rooms the centre of attraction.

\$1,000 WORTH of New Plain and Shot Silks, lovely shades, combining all the latest tints, amongst them will be found many of the new azorean green, real gems in color and brightness.

2 cases New Dress Goods this week from Bradford, Eng.; 2 cases New Fresh Black Goods.

Another arrival of 500 pieces more of the best Prints, light and dark, worth 16 cents: we will sell them off at 12 1/2 cents.

CHANCE & WILLIAMSON.

SOUTH ONTARIO.

As far as heard from, at noon, Gibbs about 100 ahead.

Whitby.—At one o'clock the poll stood a tie here.

Oshawa, June 30, 2.30.—Gibbs' majority 255.

The Nouveau Monde is jubilant over the progress of the papal Zouave Colony of Popolis, on the shores of Lake Megantic, founded in 1871. It says Popolis is already a Parish; above fifty settlers have lots there, thirty with families, and all are at work with great emulation clearing and building. A saw-mill has been in operation a month; another is building; and a third on a large scale is expected to be built by an American capitalist.

The retiring editor of a Kansas paper "valedicts" himself as follows: "If I have said anything through the columns that I am sorry for I am glad of it. To my friends I thank you for your liberality, to my enemies you may go to the devil."

A young man in Utica exclaims: "I did not marry that girl on account of her father. I like that girl well enough, but she did not—Did he have anything to say to me? Why, rather. He had his right foot against me two or three times one evening, and I never went there any more."

Notice has been given of a lockout of certain factories at Staleybridge, at the end of next week. Several thousand workmen will be thrown out of employ.

It is now proposed to build a double track railway from New York to Chicago, to be devoted exclusively to freight traffic. Parties interested in its construction are anxious to get a subsidy from the United States Congress, and a bill for that purpose is being introduced.

A new and improved Martigan has been patented by a brother for the last 20 years. It is a cap in his house, in Montreal. Two years ago an action was instituted to compel his removal to the States, but the court decided that it had no jurisdiction in the case. Martigan is well-pleased and has a bed of shavings.

DIED

Staleybridge, on the 29th June, and 30th of the same month, William Nicholas, hotel keeper, aged 77 years.

The funeral will take place from his late residence, Woodrich street, on Tuesday, the 1st, at one o'clock, p.m. Friends and acquaintances are requested to attend without further notice.
