

A Great Advantage "SPLITS" OF Apollinaris

Are now supplied by Western Dealers.

APOLLINARIS is bottled ONLY at the Spring, Neuenahr, Germany, and ONLY with its own NATURAL GAS.

HEBREW CITY EMPLOYEES ASK NEW YEAR VACATION

Mayor Mitchell and City Commissioner Clarke Puzzled by Jewish Argument

Day of Atonement Also Near
and if They Work Must
Toll on Empty Stomach

WHETHER Hebrew employees of the city are entitled to a vacation during the celebration of the Jewish New Year is a question that is puzzling Mayor Mitchell and city commissioner Clarke. The Hebrews state that other employees of different religions secure a holiday on their feast-day, and inasmuch as they should have the same privilege.

The Hebrew New Year Rosh Hashanah, begins at sun down today and lasts until sundown Friday. The Hebrews for convenience fix the hour of beginning at 6:30 p. m. On behalf of the employees of the city of Jewish faith, H. H. Conner, president, and E. Goff, vice president, visited Mayor Mitchell and Commissioner Clarke yesterday morning to urge that a holiday be granted the Hebrew employees of whom there are said to be quite a number.

What complicates matters a little is that there is a Jewish holiday, the Day of Atonement, which is not a public holiday, but a day of fasting and prayer, and it is not apparent that a heavy day of work should be expected of any man on an empty stomach so the appeal for a holiday is based on something other than religious reasons for the Day of Atonement at least.

The commissioner told the gentlemen that they would take the request under consideration.

USE OF ASPHALT PAVEMENT
ON HILL NOT DECIDED

Commissioner Clarke Bothered
by Question of Paving On
Edmonton Trail Hill

Too Late to Get Vitrified Brick,
Which Costs Nearly Twice
as Much as Asphalt

The question of whether or not it is advisable to use asphalt with a concrete base in paving a street on a hill with a grade running from 6 to 8 per cent is worrying Commissioner Clarke.

The Commissioner is pushing the paving of a portion of the Edmonton trail extending from the foot of the hill at the junction with Fourth street, east, to the top of the hill past First avenue, east. The bylaw providing for the improvement of the street for paving was passed some time ago and the preliminary work of grading is about to be started.

It is desired to have the work completed before winter. Otherwise more consideration might be given to a proposition to pave the hill with vitrified brick but there is still another objection to the brick, it will cost almost double the amount required for the asphalt pavement on a grade running up to 6 and 8 per cent is that it is hard on horses, especially in the winter time, when it is difficult to secure a footing on the smooth, frosted surface.

Preparations also are going forward rapidly for the paving of the Morley hill in Hillhurst, the bylaw for which was approved some time ago.

RAISE SIDE WHISKERS

George Ade Says Style of 1830 is Revived in London.

New York, September 10.—An invasion of America by the British whiskers of the style of 1830 (they have already returned to vogue in England) was predicted by George Ade, who returned today after several weeks abroad.

"Side whiskers are coming to America just as fast as the fastest ships can bring them," he said. "I am going to raise mine at once and I shall therefore be ahead of the hot polka. I have been informed that if I remain a month in seclusion and am attended by a specialist I shall be ready to come forth into the world resplendent in whiskers."

Almost any one can grow a crop of the old trailing arbutus style of whiskers in the raising and care of the new-fangled fire escapes. These new ones are not so new after all. They are of the crop of 1830 and the London dandies have already resuscitated them beyond the danger of a relapse.

"Next to whiskers the thing that made the most powerful impression on me in England was the weather. It rained all the time in city and country."

James A. Patton, Chicago wheat king, was another passenger on the Olympic. Asked what he thought of the weather and his chances, he said: "Don't get me all riled. Let's talk about something more pleasant. I'll bet it is by saying I'm an optimist and don't think any one man can spoil the country's prospects."

Mr. Patton said Europe would be a heavy buyer of American wheat this year because seven weeks of heavy rain had ruined crops there.

Many lost articles have been promptly returned to their rightful owners as a result of the Wanta.

SIR WILFRID WELCOMES PREMIER BORDEN

OTTAWA, Sept. 9.—At the luncheon to Premier Borden today after he had opened the local exhibition, Sir Wilfrid Laurier took occasion to welcome the premier back from Europe in these terms: "I avail myself with very great pleasure of the opportunity given me, because it gives me an opportunity to tender the welcome of His Majesty's opposition to the Prime Minister on his return from England. The prime minister and myself do not always see eye to eye, but I trust that the differences in the future will not be so great as in the past. I am glad the prime minister is back in such good condition as he seems to be in and so able to fit for battle. He seems to have survived the dangers of the suffragist encroachments."

To Test Election Act

Moore Jaw, Sask., Sept. 9.—The first attempt to test the Saskatchewan election act will be taken tomorrow when Robert Radcliffe, Qu'Appelle, will receive his preliminary hearing on a charge of perjury, he thought a non-resident, voted in the constituency where he was merely a visitor. Evidence will be given that he was superintendent of a government road gang.

As There is much controversy over certain clauses in the act the case will cause much interest throughout the province.

BRITAIN DISPLEASED BY
PARISIAN'S TREATMENT

London, Sept. 10.—In spite of the determined rejection of the act of the Louvre, Mr. Harold Rathbone is still convinced that his "La Gioconda" is the actual picture that was formerly one of the treasures of the national collection.

Mr. Rathbone has returned to England, and is staying for a few days in London, before leaving for his home at Llandudno. He is not at all pleased at the way in which he was treated in Paris, and he does not propose to make any further overtures to the Louvre.

Mr. Rathbone's theory as to the robbery of "La Gioconda" from the Louvre is that it really took place in June last year, when a copy which had been prepared was placed in the frame by one of the workmen, who was the actual thief. When the substitution was not discovered after a couple of months, the original was disposed of, the copy was removed.

MYSTERIOUS GERM WHICH
KILLS HORSES DISCOVERED

Lincoln, Neb., Sept. 9.—State bacteriologist H. H. Waite, of the University of Nebraska, has discovered the germ which causes the mysterious disease that has been killing horses in Kansas and this state, according to a statement given out by Gov. Aldrich today.

The germ is said to enter the horse's head through the mouth or nostrils and thence find its way to the brain. The germ is supposed to diffuse itself through the atmosphere as well as hay or other provender.

A state conference of veterinary surgeons will be held Wednesday to discuss the situation. Invitations have been sent to nearly a hundred practitioners in all parts of the state.

IT WAS COSTLY PROPOSAL

Young Louisianan Escapes From Near-
Marital Entanglement at Cost of
\$8000.

Pittsburg, Penn., Sept. 10.—Mongol Lieber, of Natchitoches, La., today finally escaped from his near-marital entanglements with Miss Rose Rubin, a beautiful young woman of McKees Rocks, at the cost of \$8,000 and one broken leg.

Lieber, after being arrested on complaint of the bride-to-be for breach of promise, led an indignant family party to the residence of a rabbi to effect a settlement.

There he examined himself for a few minutes. Next heard of him he was found in the yard of the rabbi's home with a broken leg. He had jumped in an unsuccessful effort to escape.

The settlement was made today at the office of an attorney, following a conference between the principals and wealthy relatives of Lieber, who came here from Shreveport, La. Lieber paid his betrothed that was \$8,000.

Attorney Stein today said: "The case has been amicably settled. For reasons best known to himself Lieber has decided to break off the engagement and settle all disputes between Miss Rubin and himself. The suit will be discontinued."

MOOSE AND ELEPHANT
COMBATING DONKEY

Portland, Me., Sept. 10.—The Bull Moose and the G. O. P. elephant are yoked together and pulling with all their combined might to bring Maine back into the Republican column at Monday's election.

The Bull Moose, running alone, failed to make any appreciable dent in the Democratic vote in Vermont. Here the Bull Moosers are trying different tactics.

Music for Every Occasion—Any Time, Anywhere, if you own a

Victor-Victrola

THAT marvellous musical instrument which produces the actual voices of the world's greatest singers such as Caruso, Melba, Tetrassini, Amato, Gogorza, with the same effect as if they were actually present. "His Master's Voice" dealers everywhere will gladly give free demonstrations. Victrolas are from \$20 up. Sold also on easy terms as low as \$1.00 per week. Make your home happier with a Victrola.

Berliner Gram-o-phone Company LIMITED MONTREAL.

Double-Faced Victor Records are 90¢ FOR THE TWO SELECTIONS

OVER 5000 RECORDS TO CHOOSE FROM

SEND FOR A FREE COPY OF OUR 300 PAGE MUSICAL ENCYCLOPEDIA.

VICTROLA XVI. Mahogany or Oak \$250. Circassian Walnut \$300.

VICTROLA IV \$20.

VICTROLA VI \$32.50.

VICTROLA VIII Oak \$52.00.

Mason & Risch, Ltd

Our store is the place everyone comes to when they desire the latest and best in music. Why? Because we are the largest dealers in "Victor" Victrolas and Gramophones in Canada, and in Calgary we uphold this reputation by carrying the largest stock of Victrolas, Victor Gramophones and Records. You may enjoy hearing any of your favorite songs or any of the world's best music by simply coming; you are welcome whether you purchase or only wish to hear, come any time.

710 Centre Street

BOYS TRAINING CORPS NEWEST ENGLISH PLAN

London, Sept. 10.—An interesting project which has lately been initiated is the British Boys' Training Corps, of which Prince Alexander of Teck is the president. Its main object is to provide efficient military and industrial training for boys from the age of 14 years and upwards, by which means it is hoped that not only will a considerable number of superior recruits be forthcoming each year for the army, but that the numbers of those boys who enter "odd alley" occupations will be greatly reduced.

WHITE SLAVE DEALERS
And Liquor Interests Blamed for De-
fect of Woman Suffrage

Washington, September 10.—Mrs. Betsy A. Lockwood, one of the leading advocates of woman suffrage in the United States, and former candidate for president, attributes the defeat of the woman suffrage amendment to the Ohio Constitution to the old slavery sentiment which she says still exists in the southern part of Ohio.

"The failure of the woman suffrage amendment in Ohio," said she, "was a temporary setback on the cause of equal suffrage, but it is too great a movement to be affected by a momentary setback of this character, and we shall keep right on organizing in all of the states where women do not enjoy the ballot, including the state of Ohio where the fight will be renewed next year."

Mrs. Anna Hendley, treasurer of the District of Columbia Woman Suffrage Association, and organizer of the Anthony League, expressed a different view.

"In my opinion," said she, "there is no doubt that the Whiskey Trust and the promoters of white slave traffic were responsible for the defeat of the woman suffrage amendment to the Ohio Constitution."

Still another view was advanced by Mrs. Ellen Spencer Mussey, one of the foremost suffragists of the District of Columbia. She thinks a lack of education on the subject was the prime cause of the failure of the amendment.

PROPELLER SLEDGE MAY
CHANGE DESERT TRAVEL

Paris, Sept. 10.—An interesting invention—a propeller sledge—is about to be tested in the Sahara. The results already obtained have been so successful that it is promised, in its perfected form, to supersede the camel and the aeroplane as a means of rapid transport across the desert.

The idea originated with Corporal Mechanic Cros, of the military aviation centre at Blagnac, in Algeria, in the form of a sledge driven by a 4-horsepower aeroplane motor, capable of carrying three persons and of travelling easily over sand dunes with a gradient of one in five at a speed of twelve to twenty miles an hour.

WAGNER MONOPOLY
MAY BE CONTINUED

Berlin, Sept. 10.—The "Friends of Richard Wagner," who recently held a national convention at Leipzig, are organizing a nation-wide campaign to perpetuate the Wagner family monopoly of "Parsifal," which expires by limitation in 1913. Herr Hermann Pahr, the distinguished novelist and playwright, has volunteered to "run" the country in behalf of the movement to have the Reichstag pass a law extending the "Parsifal" copyright for an indefinite period of years.

PHYSICIAN HAS RETORT.
COURTEOUS FOR ARTIST

Paris, Sept. 10.—Monsieur, the famous French painter, was asked recently for an unusual fee by a doctor. The painter sent hurriedly for the doctor, who was greatly annoyed at his arrival to find that his patient was not Monsieur, or a member of the family, but a pet dog. But he swallowed the slight and billed him time until the question of fee arose. Then he quietly depreciated any suggestion of taking the artist's money. "No," he said, "my garden gate wants painting; come and do that."
