A Substitute for Malt
PRORIA, Ill., Oct. 4.—The Tackamine
process of distillation, which has been on
trial here for some weeks, is a success. The
yield where that process has been on trial
has averaged 20½ quarts to the bushel of
corn. The cost of production is reduced
about 40 per cent. The process is so much
cheaper than that in which malt is used
that is success will simply mean the entire
abolition of the old method of fermentation.

Nineteen Years for Manslaughter.
New York, Oct. 4.—Burton C. Webster, the slayer of Goodwin in the Percival flats, Aug. 1, 1891, was yesterday sentenced to nineteen years' imprisonment. Webster was twice tried for the crime, the first trial ending in the disagreement of the jury. On Monday he was convicted of manslaughter in the first degree. Webster pleaded self-defense. Goodwin had insulted Webster's wife, and he went to Goodwin's room to ask him for an explanation. Goodwin attacked him with a cuspider, when Webster drew a revolver and shot him dead.
