STOCK MARKETS. H. C. Becher, broker, Bank of Com-merce building, received the following by private wire from Bartlett, Frazier &

Carrington today: New York, March 18-Noon.-The trength was again apparent in the stock market today, and the professional eleent is extending a very liberal invita-on to everyone to come in and buy. The tuation may warrant the bullish feelng, but the extreme generosity with market is very apparent, but there is a lack of outside interest, and commission buying is not largely distributed. Among the active stocks today were Pennsylvania, Union Pacific, Steel, preferred, and Brooklyn Rapid Transit.

Lyeryone and his relatives had the fip by morning to buy Brooklyn Rapid Transit. There is no limit set on the present the tip to buy is being done with the artistic excellence. Both Pennsyl-and Union Pacific were well suped very well. The market is now steady, with a good undertone. Sales to noon
