#### ATHLETIC ANGLICANS

Move to Form a Baseball League From Church Teams.

London may have a baseball league this summer composed entirely of teams chosen from the Anglican congregations of the city. A move was made last year to form such a league, but the season was too far advanced to permit of its being accomplished.

Those in favor of the league are not going to be caught in the same position this year, however. The first meeting in connection with the matter will be held on Monday evening next, at Christ Church, the young men of the other Anglican churches will be held in the near future, and the organization of the league completed. The churches which were to be represented in the league are St. Paul's, St. James', St. John's, St. George's, and the Memorial.

#### THE CHURCH CENSUS

Arrangements Progressing—Secretary Yellowfives Coming.

Another step toward completing arrangements for the canvass to be made on April 7 will be taken tomorrow afternoon, when the committee appointed to allot the supervisors and visitors to the various parishes, will meet to do its work. The secretary, Mr. McDonald, has received word from Mr. Yellowfives, provincial secretary for the church census, that he will be present at the meeting of supervisors to be held on March 31, and will be pleased to instruct them as to their duties. The supervisors will be in a position to give all necessary information to the visitors for their respective districts.

The proposed movement is growing in favor, as its objects are becoming better understood. Rev. W. H. Clairs, of the Southern Congress of the Church, in expressing an opinion concerning the advantages of the movement, stated that it was worthy of the church, and that it would remove a cause of complaint on the part of some of those who were neglected, the neglect being due not to any fault of the church, but to lack of information. It would assure the churches that an effort was being made to reach every person in the city. It would give every person a definite idea of the extent of his responsibility by indicating that families that had a preference for the church, and yet some of whom he had not known about.
