### FIREMEN CONTRIBUTE BOARD TO CONSIDER SPLENDIDLY TO THE WELFARE ASSOCIATION

At Dinner Wednesday Night.

"What shall I give, and on what erms?" is probably the most vexing problem confronting the citizens of Lonon deeply interested in the Welfare Fund campaign. Profiting by experi-ence gained in last year's drive, the Welfare Fund Association has sought o answer the question for everyone by a table of estimates posted in the in-side of the cover of a booklet disributed by them throughout the city.

The table was prepared by a special committee, which considered carefully every angle of the problem as it faces each class of wage earners. For wage earners, including factory hands, clerks and laborers, the committee would suggest that a day's pay should be given. The payment of this amount could be spread, if it were so desired, over a period of several weeks. An interesting outline of the procedure and business of the Lambeth Con-ference, attended by the bishop last year, was given. The importance of church unity overshadowed everything else at the conference, the bishop said "Thoughtful men have recognized that the great nations of the east cannot be onverted by a divided Christendon Thus recognizing the urgency of the times, and that God was calling us now as never before to go forward, we en-tered on our labors with fear and trem-bling, and in humble dependence on God that he would guide us in the right way, and we believe that he an-swered our prayers, and with the result that we issued the appeal for Christian unity. This unity is not visible in the world today. We are organized into different groups, more or less antagonistic to one another. The causes of our division lie in the part, and were largely political, and in most cases due to causes which have long since passed away." said the bishop.

We do not desire the elimination of all difference; we do not desire uniform of Miss M. A. Barrons as consumptive nurse is expected to be presented to the board of health at its regular meeting this afternoon. The only other business of any importance that will come to the board's attention is the appointment of a sanitary inspector. Four applications for this position are in the hands of the city clerk.

ROUTION BUSINESS.—Unless some-ROUTINE BUSINESS.—Unless something unforeseen happens, only routing business will be dealt with by No. 2 committee of the city council when it meets at 8 o'clock this evening. A deputation of citizens is expected to be present in connection with the opening of Woodman avenue. There is also likely to be a number of petitions regarding local improvements.

NOT A MERCHANT.—As the result of an action brought into the supreme court of Quebec, it has been determined that a tailor is a manufacturer, and not a declares that if the members of parlianat is not wna we are seeking. But we look to the time when communions which have lived apart for centuries, often as bitter opponents, will at last perceive that after all they are brothmarked will be content to live side by ehs and will be content to live side by there, and the Government gives side in the one church, each making a winks and nods which suggest that contribution which only itself could give given a chance after the general elec-

The divine institute, sacraments of baptism and the holy communion, as expressing for all the corporate life of the whole fellowship in and with Christ. The first three of the above four will probably be readily acknowledged by most of the re-tormed communions. The appeal marks unioy. The Anglican Church has shown what it is prepared to do for the sake of putting an end to the divisions. It is now for others to say what they do."
