

MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sicknesses and ailments seem hardly to shake off than formerly as the heart and nerves are not as steady as they were in the younger days.

Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpaired should use

MILBURN'S HEART AND NERVE PILLS

Mrs. M. O'Connor, Whiteside, Ont., writes:—"I have been troubled most of my life with shortness of breath, palpitation of the heart, and fainting spells. I was advised by a friend to try Milburn's H. & N. Pills, which I did, and at once found relief, and I have never had a really bad spell since. I am 80 years of age and I always keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

For sale at all druggists and dealers.—Advt.

A FAMOUS MAN.

The originator of Dr. Pierce's Golden Medical Discovery for the blood, as well as the "Favorite Prescription" for women, was Dr. J. C. Pierce, a practicing physician in Western Pennsylvania, right after the Civil War. He early moved to Buffalo, N. Y., and established The Invalids' Hotel, then he put up his home remedies in the World's Dispensary, where they were carefully prepared from roots, barks and herbs, and placed them with druggists all over the U. S. and Canada.

For over half a century, Dr. Pierce's Discovery, for the blood, has been sold in larger quantities by druggists than any other medicine. It is a tonic in its effect on the stomach and digestive apparatus; an alternative in its action on the blood, liver and skin. It increases the appetite, stimulates the digestion, cures constipation, clears the skin of eruptions and pimples, and makes both men and women feel as they did when they were young and care-free.

Ask your nearest druggist for Dr. Pierce's family medicines, in tablet or liquid form, or send 10 cents for a trial package of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ont.—Advt.

THE GUMPS—HO HUM!

I WONDER HOW THAT OLD BLIZZARD IS GETTING ALONG UP NORTH— I'LL BET THAT ICE IS TWO FEET THICK ON LAKE GENEVA— IT BREAKS MY HEART WHEN I THINK OF THOSE POOR PEOPLE UP THERE FREEZING— THINK OF POOR GEORGE DRYDEN IN THAT BIG HOUSE— ON THE COAL BILLS HE MUST BE PAYING— I CAN HEAR THOSE OLD RADIATORS POUNDING THE ANVIL CHORUS AND SEE THE MERCURY DIGGING INTO THE BOTTOM THE THERMOMETER LIKE GEORGE HODGINS MUST CALL UP BILL DICKY AND ASK HIM WHAT SUN-BURN LOTION HE USES—

I GOT A LETTER FROM GEORGE MASON— POOR GEORGE— HE SLIPPED ON THE ICE SIDEWALK AND RUINED THE SILVER HAIR-TONIC FLASK I GAVE HIM FOR CHRISTMAS— WELL, IT WAS HIS OWN FAULT— WHY DIDN'T HE COME DOWN HERE WHERE HE COULD PUT SOME SAND UNDER HIS FEET— THEY DON'T APPRECIATE ICE UP THERE— THOUGH— I DON'T KNOW HOW VALUABLE IT IS— SO SCARCE DOWN HERE THEY USE BROKEN GLASS IN THE COCK-TAILS—

AW, WHAT A FRAID OF WE DIDN'T HIT THE MOUNTAINS! THE 'INGIN' MADE THE HOLE TO GO THROUGH!

New All-Metal Dirigible For Transatlantic Trips Will Be Built For States

Three-Day Service Between London and Detroit Planned.

BACKED BY FORD
Special Duralumin Covering Six Times Stronger Than Fabric.

Special to The Advertiser.
By Staff Correspondent.
Detroit, Feb. 9.—A new type of rigid metal dirigible to be made for the United States government at the Ford Motor Company plant at Dearborn is the initial move in a plan to establish a three-day passenger air service between Detroit and London, the Aircraft Development corporation announced today.

The government, it is said, will sign a contract within 30 days for construction of the new ship. The Airship Development Corporation, of which Edele B. Ford is a director, will fabricate the dirigible at Dearborn. It will be assembled at Scott field of the army air service at Belleville, Ill.

The metal ship will have a "skin" of special duralumin plates only eight one-thousandths of an inch thick, which will be six times stronger than the present fabric coverings of dirigibles.

It will be fireproof, weather-proof, navigable in practically any kind of weather and highly economical in the use of buoyant gas and ballast. One of the principal difficulties in the commercial use of fabric airships is the high expense of valving helium gas when it is desired to descend in daylight, when the warm gas is expanded, and at maximum buoyancy.

The new metal ship, it is said, will be durable and permanent in structure beyond anything heretofore attempted. It will be of 15,000 pounds displacement and have an approximate capacity of 200,000 feet of helium gas. The length will be 150 feet and the diameter 53 feet.

Thomas A. Edison and the Edison Laboratories have made the new craft lighting proof.

Drop in today and see the delicious Malaga Grapes dipped at the Laura Second shop, 159 Dundas street, near Richmond street.—Advt.

WILL CHALLENGE BACK DOOR TARIFF

To Demand Discussion of Safeguarding of Industries Act.

Associated Press Despatch.
London, Feb. 9.—Sufficient domestic legislation to occupy the House of Commons for six months, will confront the house when it opens tomorrow.

Right, Hon. Stanley Baldwin has a majority of 215, counting four Liberals who accept the Conservative whip's leadership. This should make the ministerial bench feel fairly comfortable, but nevertheless there are some obvious signs of slight.

Of all the Conservative ministers, Hon. Arthur Neville Chamberlain, minister of health, has most reason perhaps, to fear that the session may have in store for him. He will be called on soon to give an account of the progress, if any, that has been made towards a solution of the housing problem, especially regarding inquiries as to the merits of the steel and wooden houses which are at present being experimented with.

Quite recently Mr. Chamberlain, one of the mildest-mannered of men, found the circumstances too much for him; nevertheless there remains a possibility of the minister of health's head falling over this most thorny matter.

The Liberals will early in the session demand a discussion of the safeguarding of industries act sponsored by the government, which guarantees protection to British industries who can show they are suffering unfair and abnormal competition, and which has been denounced by former Premier Ramsay MacDonald and the Liberal press as a species of "tariff by the back door."

The House of Lords will next week discuss the long standing question of the Singapore naval base. Incidentally the entry of the new Earl of Oxford, H. H. Asquith, into the House

Wealthy Motorist To Serve Prison Term For Killing Man

Special to The Advertiser.
By Staff Correspondent.
Detroit, Feb. 9.—Spencer A. Riden, Mount Clemens manufacturer, was sentenced to from 6 months to 15 years in the Detroit House of Correction today for having left Edward Dunn, whom he ran down and fatally injured, to die in the ditch by a country roadside last November 10.

Judge Guy A. Miller of circuit court, in passing sentence, declared he was making the penalty light because of Riden's good character and the fact that the accident itself was not the manufacturer's fault. He recommended six months.

"Your only fault," the judge said, "was in running away after you had injured the man. The fact that he would have died anyhow does not lessen your culpability in fleeing."

of Lords would be immediate. Several preliminaries in connection with his establishment as a member are still incomplete.

The British Empire Exhibition at Wembley—its unliquidated liabilities of last year and its potential liabilities of the coming season—are likely to provoke an early debate in the House of Commons on the matter.

Bills sponsored by private members depend, of course, largely on the luck of the ballot.

Conservatives Ask Levy.
A group of Conservatives proposes to introduce a measure concerning the trades union political levy, making it necessary for a member of the union to first signify his desire to pay a levy, whereas, now he signifies if he does not wish to subscribe.

Another bill proposes to give equal rights to mothers in the guardianship of children and a measure is also to be presented to legitimize children whose parents subsequently marry.

Many Reasons for Using Laxatives

Obesity, Rheumatism, Torpid Liver and a Host of Conditions Yield More Readily to Stuart's Calcium Wafers.

Constipation has an odd way of affecting people differently. Some get violently sick with headache, others merely get fat, still others are apparently just lax, others get melancholy, while most "people take" odds and ends from bad to worse.

The best all-around laxative, and that is what every family should always have on hand, is Stuart's Calcium Wafers. They are very small, so do not upset the stomach, and yet their action is wonderfully complete. They thoroughly remove all accumulations and have an influence in the blood that tends to relieve the causes of rheumatism, eczema, torpid liver, headache, nausea and a host of other symptoms. For overfatness they are highly recommended.

Their influence is quickly observed in a healthier color to the skin and the disappearance of pimples and such blemishes usually due to constipation. They are sold almost everywhere at 60 cents a box, and a ten-day test will bring very delightful improvement in many ways. Try Stuart's Calcium Wafers as the very best all-around laxative medicine.

Send your name and address to F. A. Stuart Company, 767 Stuart Building, Marshall, Mich., for a convincing test trial package.—Advt.

Rheumatism

Let St. Jacobs Oil end the pain at once. Rub it on. For 65 years it has brought quick relief to the millions. You know it must be good. Use it for lumbago, lameness, backache. Don't suffer an hour when a soothing oil can take the pain right out.
