OTTAWA, Dec. 10.-The statement is again made by the newspapers that Sir simply confirmed his previous state-

Judge Malhiot to-day gave judgment that the Sons of England society was not under the Dominion insurance act and luashing a contrary judgment of the Hull magistrates.

Considerable speculation was indulgin to-day relative to Hon. Clark Wallace's course now that the decision of the Manitoba government on the school question is announced. Mr. Wallace left suddenly for the West last night, and it is understood will be at home at Woodbridge to-night. The Premier was asked this evening if there had been any change with reference to Mr. Wallace's position, and he said there was nothing new.

Inspector McNab has forwarded specmens of what is believed to be a new variety of salmon discovered in British Columbia waters. Professor Prince will report on them.

An order-in-council promoting Captain Evans to be Major in the Royal Canadian Dragoons has been passed. The next Militia General Order will announce his promotion to the command

of B squadron, Winnipeg. Mr. G. G. Foster, counsel for Shortis, the Valleyfield murderer, accompanied by Mrs. Shortis, is again in the city on behalf of the criminal. The fate of Shortis will be decided probably at a council meeting on Friday. Polling in West Huron will take place

on January 14. OTTAWA, Dec. 11.-The Capital shares

the political prisoners. A number of ment over the reported resignation of petitions had come in from friends, out- Mr. Wallace. It is the one theme of conthemselves. There were fifteen prisoners again questioned respecting the pre-ers left. The proper petitions had come valing rumors about Mr. Wallace, and while stating that he had not received The President first read two petitions a formal document from him the inference was freely drawn that the Premier was expecting it. Indeed it is said that during the day Sir Mackenzie Bowell had received a telegram from Mr. Wallace stating that his resignation was on its way to Ottawa. That the Controller should have stepped out just now inclined to the belief that it will not materially affect the result of the election. Attention is drawn by the action of Mr. Wallace to the anomalous position he has been occupying as controller for months past. Students of the constitution agree that his position since July has been an untenable one. In February last he consulted Dr. Bourinot as to the degree of responsibility attaching to him for ministerial action, and it is learned that the Clerk of the House prepared an elaborate opinion setting forth exactly the position in which controllers. were placed. Summed up in a few words Dr. Bourinot's opinion was as follows: The controllers are not members of the cabinet, which alone is responsible for the policy of the government on every public question. Once the policy of the government has been declared it. is the duty of the controllers, who are members of the government but not of the cabinet, to support like all public officers that policy and neither directly nor indirectly to place any obstacles in the way of that policy being carried out. If the controllers have any objections to the government policy it is their duty immediately to place their resignations government on the Manitoba school question, and four days later at. an various creeks in this locality. Every day, and Thursday afternoon opened up blue jackets are to be sent back to the blue jackets are to be sent back to the securing Chinese laborers in China inmade such a declaration it is contended that he should immediately have stepped out of the government. Instead of that he held on, and on July 31 at Halifax the Grand Sovereign emphasized his position on the school ques-tion. It may be that he had hopes of Manitoba settling this question, and that as Mr. Greenway's declaration of Monday last showed that this was now impossible, the Controller has stepped out at the earliest moment after these specific declarations have been received. There is no denying, however, that Clarke Wallace would, from his own point of view, have been a far The annual meeting of the Tulameen the medicine himself.
