Urgently Wanted. The people and press of Canada are in urgent need of some arrangement by which we can get promptly such cable news as is of real interest to us without having to depend upon American press agencies. Events of great pith and moment may happen across the ocean, but we do not hear of them by cable unless sufficient American interest attaches to them to secure their publication in the New York papers. The Mail's alleged cable specials are many of them forty-eight hours behind time. For instance, the Mail of yesterday (Thursday) had among its pretended specials some important items of news that appeared in the New

York Herald Tuesday morning. The Herald, having the new Mackay-Bennet cable at its command, and taking advan tage of the difference in time, publishe news from London up to five (5) o'clock the same morning. This is enterprise, and for cable news the Herald beats them all. An independent Anglo Canadian cable has been talked of, and the dominion gov ernment would be acting in the true spirit

of national policy were it to give liberal aid to such an enterprise, or better still, undertake it jointly with the home government. But, perhaps, we may have to wait a while for that,

Meantime, the Canadian morning press in the principal cities might combine to establish an agency in London, which would send us, up to the latest hour, such items of old world news as are of special interest to the people of this country. We have no cable of our own, but without doubt the Mackay-Bennett company, or the old company for that matter, would be

SELECTIONS FROM THE WEEK. Canadian efforts for a renewal of the city treaty." These beggarly coun-MENRY GEORGE IN ENGLAND. selors of ours would make us appear as a Cosmopolitanism is the order of the day nation of beggars, if they could. Yet it is difficult to understand on what To do its readers justice, the Globe ought principle Henry George is allowed to carry

to give conspicuous place in its columns to on an agrarian agitation in Great Britain. section 6 of the Canadian tariff act of 1879, POLITICS IN MUNICIPAL AFFAIRS. In vain, at Mr. Manning s meeting, did which reads as follows :

which reads as follows : Any or all of the following articles, that is to say—animals of all kinds, vegetables (in-cluding potatoes and other roots). plants. trees, shrubs, coal and coke, sait, hops, wheat, peas and beans, barley, rye, oats, In-dian corn, buckwheat, and all other grain, flour of wheat and flour of rye, Indian meal and oatmeal, and flour or meal of any other grain, butter, cheese, fish (saited or smoked), and lumber—may be imported into Ganada provided by this act, upon prodamation of the grovernor-in-council, which may be issued wheaver it appears to his satisfaction that the chairman try to exclude politics : in vain did Mr. Manning himself show his de-sire to avoid them : they were soon dragged in ; and the chief transgressor was the late mayor, who was personally bound by more than one consideration to act with reserve and delicacy on the occasion. college RESIDENCES. Having no professors it is not properly speaking a university at all, but merely an examining board. Mere examination is unsatisfactory. The feeling is perfectly well founded ; for that which an ordinary governor-in-council, which may be imported interver it appears to his satisfaction that nikar articles from Canada may be imported to the United States free of duty, or at a to the United States free of duty, or at a tudent can take into an examination room is but a small part even of the knowledge

rate of duty not exceeding that payable bit the same under such proclamation when import-dinto Canada. For now nearly six years this offer has been kept standing, but our neighbors de-cline to "see it." It is our standing offer to renew the old reciprocity treaty, which is but a small part even of the knowledge, much more of the mental training, which he acquires in the classroom under an able teacher and amidst intelligent classmates. The social advantages of the university, the friendships which are formed in it, and the espirit de corps which it produces are of course totally sacrificed to the non-resincluded natural products only ; and it is dent system. SCIENCE AND RELIGION.

perfectly fair and equal to both sides. Oberve, further, that it admits of a selection Agnosticism tells us that, so far as know or have any hope of knowing, this life is all. In that case, to prolong this eing made from the articles named, should it not be desired to take the whole life as far as possible must be the first of all objects, and science, on the same ist. "Any or all of the following arti-

late appeared in any American paper. to the believer in religion this life is not The writer evidently favors reciprocity of ome kind, and he mildly advises the loucester fishermen that they do not contitute the whole American people. Nevertheless, he did Canada a special bit f injustice, which should not be allowed

Last year certain gentlemen, duly ccredited as representatives of coal, iron and railway interests over the border, visted Ottawa to ascertain what our governway, nent would say to a proposal of limited eciprocity, to include coal and iron ore nly. The minister of finance barely sug ested, without the slightest appearance f demanding it as a condition, that sal and lumber should be added. The Amer-

can deputation perfectly understood this and left Ottawa satisfied that if reciprocity n coal and iron ore were all they wanted, they could have it any day, their own government consenting. Yet in reference o this circumstance, the New York Times

tr, such special the Canadian idea of reciprocity was further illustrated by the agitation regarding coal and iron in the earlier months of the year. Cana-dian ore is adapted to the making of Besse-mer steel, and could replace that now im-ported from Spain and Africa. New England could also use Nova Scotian coal to advantage, and Ontario and Quebec could profitably buy their coal at Buffalo. The advantage of the trade was somewhat on the side of Canada. Yet when an association of capitalists opened appy to accommodate us on reas Net when an association of capitalists opene he topic in official circles in Canada the were met with the calm proposal to add lun ber and salt to the "reciprocal" arrangemen This is misrepresenting in an important point what actually happened. The American gentlemen who came to Ottawa were Perhaps the most extraordinary success that informed most distinctly that such limited eciprocity as they proposed was at their ervice any day ; the mention of salt and umber being a mere suggestion. Our government stood ready to carry out, both n spirit and to the letter, section 6 of the N. P. act above quoted, which saysderstood, and they so expressed themselves before leaving. The Times should bserve that it has on this point done us n injustice. The American national board of trade opens its annual meeting at Washington on Wednesday, Jan. 28, just one day before the opening of parliament at Ottawa. important news from Europe should be Twice already has the national board passed a resolution to the effect that, the old treaty having been abrogated by the action of the United States, any proposals ooking towards a new arrangement should

CORN PANACEA CAUSES FITS. Scotch Doctor Has Bad Luck in Adopt d Country. From the N to York Herald.

Dr. George B. H nn, a canny Scot, who has for a year pract cel his profession in Business of all Companies in Waterbury, Conn., : ught Father Riordan in Castle garden and poured his troubles into the priest's sympathetic ear.

"I graduated in medicine in Glasgow university," sighed the physician, "and I have other diplomas. I've traveled all over Africa and South America, and I can speak several languages. Finally I settled in Waterbury, but no success attended

"'Tis a pity," observed the father feel

ingly. "Tis true," returned the physician. "Although I left my coal-hole open and never swept the snow from my sidewalk, where such the preak their legs in people were sure to break their legs in front of my rival's house. I tried the effi front of my rival's house. I tried the effi-cacy of orange peel and banana skins with-out avail. I put up a patent medicine that cost me ten cents a gallon, wrapped it in red, white and blue labels, and advertised it on all the fences and blank walls around Waterbury as 'Faugh-a-Ballaugh's Inimit-able Panacea for Corns and .Sick Head-ache.' I sold the first bottle. The buyer took a dose of it and died in a fit." took a dose of it and died in a fit."

"You alarm me," exclaimed the priest. "Just my luck. He was an old toper entirely unaccustomed to the use water

engaged there from the first as addistant bookkeeper. My parents leaving Dublin had nothing to do with politics, business troubles being the cause. My father was a respectable hotelkeeper in that city for over twenty years, and was no relation of Jas. Carey whatever. In fact, never heard of him until as an informer. THOMAS CAREW CAREY.

cles," is the expression used. And thereby hangs a tale. The New York Times of Dec. 30 had one of the fairest and most reasonable articles on "Canadian Reciprocity" that has of NEW YORK, Jan. S .- Cotton dull and nchanged. Flour-Receipts 23,000 bbls, eply will be that perhaps the information may prove to be obtainable in some other way, but that in any case he is in the

terms. The cost should not be very much, for it would not be necessary to send all the news, but only news of special British. or Canadian interest, for which American press men do not very much care, and The World would be very happy to stand its share of the expense incurred for so desirable an object. Taking our morning contemporaries in² other cities all together there are surely enough of them similarly inclined to make the proposal a feasible

For the most important news of the last four or five days relative to the present "any or all of the following articles"-and grave crisis in England, we have had to was ready to add iron ore; if desired. All vai for the arrival of the New York this the American gentlemen perfectly un-Herald by mail. It has been possible for us to know some time on Wednesday what was published in New York on Tuesday morning; but which does not appear in

Canadian papers till Thursday. At this time, when prospects of great events are looming up in the eastern hemisphere, it is of the utmost interest to Canadians that known here as soon as in New York. And it is further very desirable that we should have our own agency for sending from London just those items of news that Canadians take the greatest interest in. The time seems to suit well for taking action in this matter.

University Consolidation. To-day the governing bodies of Trinity. Victoria, Queen's and Toronto universities consider the scheme of consolidation approved by the recent conference. The World trusts that each body will discuss it in as good a spirit as prevailed in the conference.

Wheat on the Rise. There is joy in Mark Lane, so we lear from the New York Herald of Wednesday, received in Toronto about noon yesterday During the past week American wheat advanced nearly 10 cents per bushel in London, and the large operators are as happy as if they were going to be hung, and a good deal more so. Harris Brothers who do a large grain business in both Liverpool and London, say: "Yes, there is little doubt of a further considerable rise in wheat very shortly. Dealings have been very large." Won't the honest Canadian farmer feel "cocky" over the news, which he will be sure to find in the weekly

Globe and Mail of next week, but not sooner

Beggarly Counselors

There are those amongst us who advise that Canada should go on her knees to the great republic and beg for reciprocity. Our beggarly counselors are not nearly as We would advise old country merchants numerous as they pretend to be; they are only few in number, after all, but they have the Globe to speak for them, and the Globe does its best to help on the little howl. Yesterday it set forth that reciprocity is necessary for Canada, and for

the hundredth time charged that the friend," George Augustus Sala, does not dominion government is to blame for our speak well of Canada. On his arrival at not getting it. No wonder that it should New York the other day he was promptly be said on the other side, as a Buffalo interviewed, and among other question paper said not long ago, that "as the time asked him was that whether he had any approaches for terminating (the fishery panacea for the distress prevailing in Eng clauses of) the treaty of Washington, the land? To which he replied: "Yes, em Canadians begin to whine and cry over gration to New Zealand; America does the good thing they are about to lose." not want any more Englishmen, and Ca And no wonder, either, that at nada gives them so cold a shoulder that an anti-reciprocity meeting at Gloucester, they are glad to get away from her.' Massachusetts, recently, one of the speak. Well, we don't owe George much of anyers said that he "would keep his eye on thing, anyhow,

come from Washington; and possibly it may have something to say in the matter three weeks hence. The Globe had better give us a rest on the reciprocity question until we see what the other side has to say on the subject.

The Monroe Doctrine ' Gone Up.' It really looks like it. For this is what was said the other day by a German paper, under official inspiration, as the cabl informs us :

informs us: "The day is now near at hand when the Panama and Nicaragua questions, which are essentially of international conference like that now regulating the Congo. In all that concerns Panama and Nicaragua Ger-many has quite as important interests at stake as England or France." Vork. Probably the British foreign office just now finds itself heavily enough taxed with work coming upon it from other quarters, without shouldering the Nicaragua trouble oo. If this be so, it may safely enough eave that particular business in the hands of Bismarck, who will be apt to give our too touchy neighbors all the interference they have stomach for, and more too.

The Liverpool Chamber of Commerce has sent a memorial to Sir John Maclonald, asking him to make a governmen neasure of the insolvent act introduced last session at Ottawa, but which was thrown out. Failing this, some legislation

for the distribution of insolvent estates, and preventing fraudulent preferences that, if they were not so very eager to sell goods to every Tom, Dick and Harry in

Canada, in order to beat the N. P., they would make fewer bad debts here. Our portly and well-preserved "fa
