It often becomes clogged and rusty; imperfections and breaks occur which call for prompt attention, else large leakages are the result and our important capital flees away. Note some of the breaks and leakages—overworked, restless brain; nerves weak and unstrung; headaches, imperfect circulation, meisancholia and morbidness, as well as dyspeptic troubles. To be held SATUR-DAY, JULY 11, at Ex-hibition Grounds. Re-GRATEFUL-COMFORTING EPPS'S COCOA BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many beavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunnreds of auble maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
