

THE T. EATON CO. LIMITED

STORE REFORM!

CLOSING AT 1 O'CLOCK SATURDAYS!
CLOSING AT 5 O'CLOCK OTHER DAYS!

When great things are done the wonder is they were not done sooner. Years ago, when we inaugurated Early Closing every day in the week and Saturday half-holidays during July and August, wisacres wagged their heads and said we were foolish. To-day the idea is generally commended, and sales-people everywhere are reaping the benefit of shorter work-hours. But there's more good in store for them. Life and work and business have been changing for the better these many years, and now we've reached a point where the store can afford to

CLOSE AT 5 O'CLOCK INSTEAD OF 6

during the Summer months, in addition to the Saturday half-holidays. We know of no such thing ever being tried before. We're not waiting to know. In many classes of ways we've done Toronto a good service, and in emphasizing the possibilities of Early Closing the store proves its devotion to the welfare of salespeople and the interest of shoppers. The two are one any way you look at it, and with the organization more ambitious and the service super-excellent, customers will be apt to waive all objections and regulate their shopping to meet the new conditions.

Until further notice the store will close at FIVE O'CLOCK every day, except Saturday, when we close at noon.

Four Surprises:

How are we to convince you that such goods never sold as cheap before? Nothing we have ever done in Linens and Cottons begins to compare with these values, and we prove it by refunding money where goods are not entirely satisfactory. We offer:

—Ready-made Bed Sheets, at 60c a pair.
—Ready-made Pillow Cases, at 25c a pair.

and defy anyone to produce their equal for the money. Easy enough to use cheaper cotton and poorer work, but quality considered, you'll find nothing anywhere anything near as good.

In the same section we're selling:

—20 different patterns in Flannel, regular price 60c, special at 33c.
—Large size Huck Towels, with plain tape border, good quality, per dozen at \$1.20.
That ought to crowd the department all next week. We never advertise meagre lots, and customers are pretty sure to get here what they come for. Mail orders filled promptly. Send at once!

Dirt Cheap!

You'll say so when you see them. Perfectly new and seasonable Gloves, in just the styles you want, are

THE SITUATION AT OTTAWA.

Yesterday brought a lull in the political situation. Next week will see a revival of the excitement. Both Mr. Laurier and Mr. McCarthy intend to move motions of want of confidence, based on the Manitoba School question. As we pointed out yesterday, the Government have irrevocably committed themselves to introduce within six months a Remedial bill on lines of which the House and the judgment of the Privy Council, should they fail to effect a satisfactory settlement in the negotiations about to be opened between the Dominion and the Manitoba authorities.

The Government attach great importance to the matter of negotiation, and they are asking their supporters in the House who do not believe in Remedial Legislation, and who will vote against it when introduced, not to vote want of confidence in the Government for such negotiations have expired. They may succeed in persuading the dissentient Conservatives into withholding an immediate expression of disapproval, especially if the Opposition fail to take a stand on this vexed question. Mr. Laurier has been dumb, though he has had a hundred opportunities of expressing himself. We do not believe he will do so when he moves the vote of want of confidence, which he has given notice of. Conservatives opposed to the declaration of the Government to introduce Remedial Legislation have good reason to more than suspect the Opposition. The school law completed at Ottawa has been in constant counsel with the Liberals of Winnipeg, and these working jointly, have used the school Government at Ottawa, and if possible, force them to resign. Having ignominiously failed in their criticism of the Conservative trade policy, the Liberals are seeking office on the chances of race and creed struggle. This view of the case was well brought out by The Hamilton Times, when the present crisis was at its height, namely, on Thursday. It then said, in the course of a long article: "The Liberals of Canada can trust Mr. Greenway and the Province of Manitoba to do the fair thing by the Catholic minority of that province, just as soon as the threat of coercion from Ottawa shall be withdrawn. If the Liberal Government should be defeated this week, the Manitoba school question could then be promptly settled. If the warring elements in the Tory party patch up a truce to last until next January, their joint defeat will come in good time. The country is weary of Tory corruption and dishonest protection, and the majority will vote to remove the ministers out on account of the evil they have done." Conservatives are not willing to allow their opponents on the trade policy to overturn that policy by a side wind if there is any reasonable way of preventing it.

It may be that Mr. McCarthy will not reach his motion this session, but in some shape or form a full discussion of the school question in its constitutional aspect will take place at the next session. The question has never yet been up in Parliament in all its phases. A discussion without a vote will be of great service. It will place the public in possession of all the facts. It will let the public judge of the contention that Dr. Wedderburn, in these columns, that interference by the Government is neither compulsory on the Government that issued the order nor consonant with sound public policy. His argument is that the Government were bound to issue the order, but not bound to make the law.

Parliament is free to act in the case as it sees fit. Parliament is not bound to act in any jurisdiction assigned to it. Parliament is restrained in many directions, but in no way is it forced. We believe that this contention is sound, and a discussion of it in Parliament will enable the public to reach a sound conclusion on the agitation, which will now begin throughout Ontario, the North-west and the Maritime Provinces against the passage of any law next session. We believe that no such bill can be carried. We believe there will be such an uprising against the Liberal Cabinet that, while they may redeem their pledges to introduce the law, they will be defeated by Conservative votes when they attempt to carry it. The administration one and all have committed themselves to such a law notwithstanding the protest of nearly every Conservative daily paper in Ontario, notwithstanding the dangers pointed out by The Montreal Gazette, and in opposition to what is known to be the unchangeable opinion of the great bulk of the Conservative voters in the North-west. They have chosen to stake their political life on the stand they have taken. They are like men who have locked themselves in a cell and thrown the key out by a cracked window, to Mr. Greenway of Manitoba, who is taking directions from Mr. Laurier of Ottawa. It is not likely that they will unlock the door, but it is on their heads that the blame will rest if they hope to avoid a conflict with their followers from Ontario and the Maritime Provinces. Ontario will never consent to a law that will coerce Manitoba. Neither will the Maritime Provinces consent to such a law, for if it is ever passed there will be a new election next session for a law coercive of New Brunswick, and then right through those provinces which now see fit to get along without Separate Schools. Dr. Sir Macdonald Bower and his colleagues know where the road they have chosen leads to.

FREE PROTECTION FOR THE ISLAND.

Yesterday morning about 4 o'clock a fire broke out in a small cottage at the

Island, near the Sick Children's Hospital.

Several of the residents were attracted to the scene by the flames, but having no fire-fighting appliances they could do nothing but look on and see the building consumed. Had the wind been in the opposite direction it is not impossible that the hospital might have been set afire. The Island residents have on several occasions told the council that if they were supplied with an engine of some kind they would organize a brigade and see that it was used on occasions such as happened yesterday morning.

We understand there is an old hand-engine and hose lying at Parkdale, and not being used by anyone. It has been suggested that this be repaired and transferred to the Island. The very fact that a hospital is located on the Island, containing numerous sick and helpless children, is sufficient reason why fire protection of some kind should be afforded. There should be at least two hand-engines procured, one located at a point half way between the lighthouse and the Island Hotel, and the other at a central point in the eastern half of the Island. A small expenditure of money now in this direction may save the city from a vast conflagration over the Island, and a hand-engine would be an efficient means for subduing almost any fire that might occur there. Without it, however, a fire, when the wind is favorable, is liable to sweep away half the cottages on the Island.

THE EARLY CLOSING MOVEMENT.

The early closing movement is bound to make another big stride forward by the action of the T. Eaton Company to close their store every day during July and August at 5 o'clock, and on Saturday at 1 o'clock. A company that can afford to take this risk must feel that they have a firm grip on the market.

Sam Hughes' Forecast.

Lindsay Warder.

The proposal to defer action on the case in order to consult with Manitoba has caused the greatest indignation of the majority of the members and of the right-thinking men of the community. But for a Government to make such a promise as to call a meeting for another session and passing Remedial Legislation in case Manitoba refuses to come to terms is certainly weak. Those opposed to Remedial Legislation may justify their position on the assurance that Manitoba will settle the question and thus prevent its coming into the arena of the Parliament of Canada. The Liberal Government has committed itself to the right thought of the people.

So far as we are personally concerned the Government has forfeited our support on that important question. They have failed to rise to the proper level of the situation. The result is easy to foresee. Manitoba cannot retreat from her position, and January next will witness the defeat of any Government that dares to impose upon the people of Manitoba the will of a decaying Federal Parliament.

I.O.F. Excursion.

A large number of the representatives of the Supreme Court, which meets in London, Eng., leave Toronto by the steamer Clippewa at 2 o'clock p.m., on Thursday, the 18th inst., connecting with a special train at Suspension Bridge, which will take them direct to Philadelphia, arriving there early in the morning of the 19th. Arrangements have been made for the Continental Hotel for a special rate of \$2.50 per day for all Foresters and their friends. The magnificent steamship of the American Line has been chartered by the Foresters for it is one of the best and most modern ships afloat, being of 10,000 tons burden and having twin screws. All the state rooms are admirably fitted up. The dining room, the third floor, is a masterpiece. The rate secured by the I.O.F. is simply unprecedented. The rate from Toronto to Philadelphia and return is only \$13, good till Sept. 20. The rate from Philadelphia to London, Eng., and return is the exceptional low figure of \$38. The ocean tickets are good for one year. Attractive side trips through England, Scotland and Ireland have been arranged for at an expense, exclusive of hotel bills, of \$28, which the three-day trip to Paris, including two days' hotel bills and coaching in Paris and to Versailles, is only \$15.35. We understand that the Foresters are planning to take a pleasant trip to the Old Country. All applications for state rooms and accommodations must be addressed to the Supreme Chief Ruler, Dr. Oranhytelah, Toronto.

Second City of the World.

The census of 1890 proves that within a radius of 15 miles from the centre of the city of New York there is a population considerably in excess of 3,000,000 people, or more than two-thirds that of the city of London.

In the official language of the report, "Next to London, New York and its suburbs form the largest city on the globe." Says Mr. Porter: "The people within this 15-mile radius are, in effect, citizens of New York, so far as their business and social interests go, although politically they live in different cities, counties and states."

These figures are conclusive; there can no longer be a doubt that New York is, and must ever remain, the financial and commercial metropolis of the western world. "What an evidence of the wisdom of the founders of 'The Great Republic!' What a monument to the energy and integrity of its sons! In the geographical as well as in the commercial centre of this, the second city of the world, stands the Grand Central Station of the New York Central and Hudson River Railroad, from which 11 great through passenger trains depart every day for the north and west; this in addition to the nearly 800 other trains that daily leave this great station giving a service to the patrons of 'America's Greatest Railroad' that is not surpassed on either side of the Atlantic.

From Railroad to Newspaper Work. Grand Rapids, Mich., July 12.—George De Haven, general passenger agent of the Chicago and West Michigan and Detroit-Lansing and Northern Railroads, has resigned to take effect at once. He will desert the railway business and after Monday next will be managing editor of The Chicago Mail.

214 Yonge-street, July 18th, 1895.

GUINANE BROS'

SATURDAY

SHOE

BARGAIN DAY.

To close at 6 o'clock to-day would bar a great many from taking advantage of Saturday's special prices, and we are anxious to accommodate those who cannot, as we are to please those who can, conveniently shop during the day time.

The Store Will Be Open To Night Until 10 o'clock.

The larger the stock the greater the advantage. You expect at the largest shoe store in Canada exceptional bargains on Bargain Day.

These prices are taken from a shoe stock where each department is larger than any whole shoe stock in the city. We may be ruining the shoe trade, but we're here for your interests. Yesterday you read a partial list of to-day's bargains—here's a few more of them.

Gents' Department:

Canvass Walking Shoes, 65 reg 1.25
English Enamel Lace Boots, Pileability toes, made by Hutton & Co., London, England, 1.65 reg 3.00
The Oxford Cal Lace Boots, leather lined, hand made, fall toe, Scotch welt, Kempson & Stevens, New York, 2.75 reg 5.00
