Advertisements.

IMPROVED SHORTHORNS.

THE HON. ADAM FERGUSSON, WOODHILL, WATERDOWN, P. O., will have Seven Thorough-bred D. rham Cows to calve in Spring. These cows are in calf to "ETHELBERT," bred by Samuel Thorne, Esq., and have a large portion of "DUCHESS" and "BATES" blood. They may be seen at any time at Woodhill, within a half hour's walk of Waterdown Station, G. W. R. R.

Orders for bull calves must be sent by the 1st of March. Full pedigrees will be furnished. Price of each calf \$60.

Four of the Cows will be sold at moderate prices.

WOODHILL, Jan. 2nd, 1860.

JOHN S. GOE.

University College, Toronto.

THE Lectures in this Institution on THE SCIENCE AND PRACTICE OF AGRICULTURE, will commence on MONDAY, NOVEMBER the 7th, and will be continued (five lectures a week), till the beginning of April, 1860. Agricultural students can attend other courses, such as Chemistry, Geology and Mineralogy, Natural History, including Botany, English Language and Literature, &c., as they may desire.

Particulars may be obtained by applying either personally or by letter to PROFESSOR BUCKLAND, University College, Toronto. Toronto, September, 1859.

GUANO.

WE would call the attention of Guano Dealers, Planters and Farmers to the article which we have on hand and for sale at THIRTY PER CENT LESS THAN PERUVIAN GUANO,

and which we claim to be superior to any Guano or fertilizer ever imported or manufactured in this country. This Guano is imported by WM. H. WEBB, of New York, from Jarvis' and Bakers' Islands, in the "South Pacific Ocean," and is sold genuine and pure as imported. It has been satisfactorily tested by many of our prominent Farmers, and analyzed by the most eminent and popular Agricultural Chemists, and found to contain (as will be seen by our circulars) a large percentage of

BONE PHOSPHATE OF LIME AND PHOSPHORIC ACID,

and other animal organic matter, yielding ammonia sufficient to produce immediate abundant crops, besides substantially enriching the soil. It can be freely used without danger of burning the seed or plant by coming in contact with it, as is the case with some other fertilizers; retaining a great degree of moisture it causes the plant to grow in a healthy condition, and as experience has proved

FREE OF INSECTS.

For orders in any quantity (which will be promptly attended to) or pamphlets containing full particulars of analyses and tests of farmers,

Apply to

JOHN B. SARDY, Agent.

No. 55 South St., corner of Wall St., New York City. N. Y., September, 1859.

FOR SALE.

A THOROUGH-BRED AYRSHIRE BULL 3 years old.

RICD. L. DENISON.

Toronto, July 30, 1859.
