

Why not try WYETH'S MALT EXTRACT?

Doctors highly recommend it to those
 Who are run down;
 Who have lost appetite;
 Who have difficulty after eating;
 Who suffer from nervous exhaustion,
 And to Nursing Mothers.
 as it increases quantity and
 improves quality of milk.

 And sold by all Medicine Vendors throughout the World.

N.B.—Advice gratis, at the above address, daily between the hours of 11 and 4, or by letter.

MISCELLANEOUS.

Black lead is not lead at all, but a compound of carbon and a small quantity of iron.

German silver was not invented in Germany, and does not contain a particle of silver.

Burgundy pitch is not pitch, and does not come from Burgundy; the greater part of it is resin and palm oil.

Thousands of new patrons have taken Hood's Sarsaparilla this season and realized its benefit in blood purified and strength restored.

A thousand wrongs and abuses that are grown in darkness disappear, like owls and bats, before the light of day.—James A. Garfield.

The law is a gun, which if it misses a pigson always kills a cow; if it does not strike the guilty, it hits some one else. As every crime creates a law, so in turn every law creates a crime.—Bulwer Lytton.

Whatever is genuine in social relations endures, despite of time, error, absence, and destiny; and that which has no inherent vitality had better die at once. A great poet has truly declared that constancy is no virtue, but a fact.—Tuckerman.

Dr. Low's Worm Syrup cures and removes worms of all kinds in children or adults. Price 25c. Sold by all dealers.

One of the two new Academicians, M. Albert Sorel, is descended from a sister of Charlotte Corday, and therefore also from Corneille. The first cause of M. Sorel's successful candidacy was his clever hook on Madame de Stael, which so gratified her grandson, the Duc de Broglie, and her great-grandson, the Comte d'Haussonville, that they determined to show to M. Sorel their appreciation in a magnificent way. They therefore won to his support the "party of the Dukes" in the Academy.

Gentlemen,—I have used your Yellow Oil and have found it unequalled for burns, sprains, scalds, rheumatism, croup and colds. All who use it recommend it. Mrs. Hight, Montreal, Que.

A German paper publishes particulars of the shells discharged by the Germans against the French fortresses in the war of 1870-71. Strasburg holds the list with 202,100, whilst Belfort received 112,500; Paris, 110,300; Thionville, 16,600; Neuf-Busach and Fort Mortier, 11,200; Verdun, 8,900; Soissons, 8,400; Bitch, 7,100; Mezieres, 7,000; Toul, 6,700; Montmedy, 6,700; Longwy, 6,400; Metz, 4,900. Others follow with 3,000 down to 100. The grand total reaches 521,000 shells.

The unveiling of the remarkable statue of Alain Chartier in the Rue de Tocqueville, Paris, recalls an anecdote concerning him. His works were so much admired that one day Margaret of Scotland, wife of the Dauphin of France, afterward Louis XI., in passing through a hall where Chartier was lying asleep on a lounge, stooped and kissed him tenderly. When the lords of her suite expressed their surprise that she could have kissed such an ugly man, the Princess replied: "It is not the man I kissed, but that precious mouth from which have issued so many witty sayings and virtuous sentences."

Chicago, Ill., U. S. A., Oct. 13th, '93.

Gentlemen,—I find your Acid Cure, but I do not find your pamphlet. I expect to use your Acid Cure extensively this winter, in practice.

DR. R. O. SPEAR.

COUTTS & SONS.

Up to the present only seamen-gunners who are qualified as gunnery instructors have been eligible for the posts of captains of turrets in our battle-ships, but we are glad to see that the Admiralty have now taken a more sensible view of the qualifications necessary for this rating, and that seamen-gunners of the first class who are expert shots, and who show marked intelligence and ability, may be selected in future to qualify in the gunnery schools as captains of turrets with the rating of petty officer

first class. While holding this rating additional pay at the rate of 3d a day will be granted.—*Pall Mall Gazette*.

I was attacked severely last winter with Diarrhoea, Cramps, and Colic and thought I was going to die, but fortunately I tried Dr. Fowler's Extract of Wild Strawberry, and now I can thank this excellent remedy for saving my life. Mrs. S. Kellett, Minden, Ont.

Renewed efforts are being made in Germany this year to introduce a fish ration for the army. The experiment is being tried in the regiment of Guards. Similar attempts have failed hitherto in consequence of the difficulties of transport, but technical arrangements have been made by which it is hoped that the supply of fresh fish can be kept up and sent to long distances inland even in the hottest weather. If these prove to be successful, on one or two days a week most regiments will have the benefit of a fish meal. This, it is hoped, will be a popular as well as an economical measure.—*Army and Navy Gazette*.

Sirs,—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. Mrs. A. Normandin, London, Ont.

The Broken Hill Mine in South Wales, Australia, whose output of silver for a long time averaged over 200,000 ounces per week, has recently made an extraordinary record. For the week ending June 2 the yield was no less than 675,913 ounces of silver, 1,822 tons of lead and 575 tons of copper, the total value being about \$533,000.

Dear Sirs,—I have been using Burdock Bitters for Boils and skin diseases, and I find it very good as a cure. As a dyspepsia cure I have also found it unequalled. Mrs. Sarah Hamilton, Montreal, Que.

Electric welding has been used to remedy blowholes in defective castings by first drilling or chipping out the defects and then heating the casting around the blow-hole in a gas or oil-flame blast. Scraps of steel are then introduced, and the electric arc is applied to melt them. The result is said to be a perfect joint, without seam or flaw of any kind. The practical value of such a method is apparent.

A GRAND FEATURE

Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now.

Hood's Pills are purely vegetable, perfectly harmless, always reliable and beneficial.

TEN MILLION MEALS of NESTLE'S FOOD

Were furnished the Babies of America in 1893.

The superiority of Nestlé's Food is because it furnishes Nutrition and is Safe. The danger connected with the use of Cow's Milk is avoided, as Nestlé's Food requires water only to prepare it. To prevent Cholera Infantum and Summer Diarrhoea, begin the use now of

Nestlé's Food

Sample and our book "The Baby" sent to any Mother mentioning this paper.
